American Railroad Journal.

Saturday, February 5, 1876.

Financial and Commercial Affairs.

Money has been quoted comparatively steady through the week, on the basis of 3@6 per cent on call, and 5½@8 per cent per annum in the discount line. There has been less urgency in the demand for aid, especially so from speculative sources. The outflow of currency from this centre has measurably ceased, and the bank reserves of legal tender have been strenghtened. The Government office here has also enlarged its currency and coin balances, as the result of the week's business. National Bank notes were redeemed last week to the amount of $4,886,000. The City Banks have had their deposits augmented $2,699,760; and their legal tender reserve $1,662,100. The specie average has been reduced $291,500. The loan and discount item was increased $1,400,100. The circulation was diminished $134,700. The U. S. Sub Treasury in this city closed the week with a currency balance of $37,748,371, against $36,855,323 the preceding week; and a coin hoard of $47,361,153, against $46,044,217 on the previous return. The City bank exchanges in currency reached $401,799,430, or a daily average of $66,966,572. The customs revenue of the port, during the week was only $1,422,000. The City banks reported their average of gold last week at $22,481,700, and their greenback average at $48,030,000. Their deposits stood at $220,028,900. The loan item was $262,207,000. The circulation was $17,757,300.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal

requirement of reserve to liabilities, of $15,505,-725.

The aggregate of the outstanding U. S. currency, of all denominations, January 1st was $416,-040,934. The outstanding amount of legal tender notes is $371,273,140. The National bank circulation is now $343,322,344, including $2,100,350 of national gold bank notes.

The U. S. Sub Treasury receipts from all sources n January were $84,567,721, including $8,294,-790 from customs; and the disbursements on all accounts were $87,724,879, including $146,036 of coin interest.

The specie shipments from San Francisco, January 1 to Jan. 20th, were $1,600,936, against $1,167,933 same time in 1875. The overland shipments, during the week ending Jan. 19, were $414,347.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency $8,404,162; special deposit of legal tenders for the redemption of certificates of deposit, $39,135,000; Coin, $73,601,361; Coin certificates, $34,604,400.

The disbursements of the Treasury Department, in January, on all accounts (other than interest on principal of public debt), were $12,-123,898.

The week's import entries of Foreign Merchandise at New York were $5,406,869, including $1,985,175 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 68 millions; and from Customs, 87½ millions.

A somewhat livelier movement has been reported in Gold, chiefly speculative, with the market price ruling stronger. The export and customs call has been limited. The extremes of the price during the week have been 112⅞@113⅜, closing on Wednesday at 113⅛ as against 113, on Wednesday of the preceding week. The specie outflow last week was $426,167 against $485,901 the previous week. The imports of specie at this port last week were $283,866, and since January 1, $393,227, as against $132,322 same time last year. The customs demand for gold last week averaged only $237,-000 per day. Foreign Exchange has been in fair request, and quoted steady. Bankers' sixty day bills on London closed on Wednesday at $4 85 @$4 86; sight bills on London at $4 89@ $4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,098,396. The week's imports of Dry Goods and general merchandise were to the specie value of $5,406,869 as against $6,750,253 the corresponding week of 1875.

Government Securities have been in very good demand all through the week, mainly for investment purposes, at strong and buoyant prices. The last public debt statement indicates a further liquidation of $1,599,155 in January. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $361,723,962.

U. S sixes of 1881 closed on Wednesday of this week at 122½@123; U. S. Five-Twenties of 1864, at 114⅝@115; U. S. Five-Twenties of 1865, 118⅛@118⅜; U. S. Five-Twenties of 1865, consolidated, 119⅜@119⅞; U. S. Five-Twenties of 1867, 122@122⅛; U. S. Five-Twenties of 1868, 123⅛@123½; U. S. Ten-forties at 119¾ @120; U. S. Fives of 1881, (Funding Loan) 117⅜@117⅝; Six per cent. currency Sixes, 124¾ @125.

State and Railway bonds have been rather more sought after, and have been quoted generally stronger in price. And in the line of Rail way and Miscellaneous share property a fair, though less active business has been reported, with values, however, showing much irregularity, and at the close, ruling weak.

General business has been on a moderate scale, in nearly all branches. Domestic Produce has been moving less freely. Cotton, Breadstuffs, and Provisions closed less firmly. Foreign merchandise has been in rather limited request, yet values have not varied materially. Toward the close, Coffee and Teas were held more confidently, in view of the revival of the discussion of the duty question. The Metal trade has been generally slow; values about as before. Sales included 5,000 tons Allentown No. 2 and 1 Pig Iron, at $21 and $23, deliverable to July 1, at Albany and Troy, for stove manufacturers' use. Eglinton Pig Iron quoted here at $29 50@$30; Glengarnock $31@$32; Coltness $33; No. 1 American Pig at $23@$24; No. 2 do. at $21@$22; Forge, $16@$20; English Rails (in bond) $35@$36 gold; American Rails at works, $45@$48; Old Rails $20@$22 Wrought Scrap, $30. Ocean freights have been less active, at variable rates, closing rather steadier for Cotton, Flour, Grain, Provisions and Petroleum.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Toledo, Canada Southern and Detroit 1st mort., 57; Chesapeake and Ohio 1st mort., coupon on, 30⅜; Canada Southern 1st mort., coupon on, 70; Lehigh and Wilkesbarre 7s, consol., 97¼; U. ☞ Edward Matthews, No. 71 Broadway, has to let a large number of desirable offices, suitable for Bankers, Brokers, Railway, and other companies, in buildings located in Wall Street, Broadway, Exchange Place and Broad Street.—See his Advertisement in another column.

Compensatory Damages.

The case of the Milwaukee and St. Paul Railway Company vs. Ames et al., was decided in the United States Supreme Court on the 31st ult. Mr. Justice Davis delivered the opinion. In this case Mrs. Ames was a passenger in a train of the company when it collided with an engine which was on the track, and the shock threw her forward, inflicting injuries for which she sued to recover. The evidence was that the train was running about fifteen miles per hour, and that the colliding engine was nearly or quite at rest, and that the damage done was only to the front of the two engines. The court charged the jury that if they found the servants of the company guilty of gross negligence they might give the petitioner exemplary damages. The result was a verdict for $4,000, for which judgment was entered. It is here said that, while the proof of negligence was sufficient to enable the plaintiff to recover the damages she sustained, it was not of a character justifying punitive damages. In such cases the rule is said to be that the jury may not go beyond compensating the sufferer by the negligence alleged and give exemplary damages unless the act causing the injury is done willfully or with such reckless indifference to the rights of others as is equivalent to intentional wrong. Reversed.

☞ The Belt Railroad, (O Street and South Washington,) although but a short time in operation, proves to have supplied a public want, and has been most successful. An addition to the road along P street to Georgetown is proposed. There are now in Washington four distinct and independent street railway lines, affording facilities for easy transit within a few hundred yards of every part of the city that has been built up.

☞ Herr Krupp, the Prussian iron founder, has discovered the means of utilizing the slag of iron furnaces by converting it into "slicate cotton," to be used as a clothing for steam boilers and steam pipes, to prevent loss of heat. A blast of steam, water or air is forced into the stream of viscous slag as it is run from the furnace, when it assumes a fibrous form and appearance somewhat similar to that of spun glass.

☞ The record of the charter of the Pennsylvania Line Railroad Company has been filed in the executive chamber at Annapolis, Md. The termini of the road are Cumberland and Ellerslie, in Allegany county. Capital stock $350,000. The incorporators are: Maurice A. Healey, Ferdinand Williams, Denis Sheridan, Fred'k K. Laing, Jr., Geo. G. McKay, John F. Zacharias and John F. Buckboltz.

☞ J. R. Swan has been elected President, and Robert S. Smith Secretary and Treasurer of the Columbus and Xenia Railroad Company. The directors are: J. R. Swan, Robert Neil, H. C. Noble, P. W. Huntington, A. Hivling, R. A. Harrison, B. Gwynne, John W. Andrews, C. P. Cassily, H. J. Jewett, Henry Hanna, George M. Parsons.

☞ Albert G. Dewey has been re-elected President, Charles Dana Vice President, and F. W. Clarke Secretary and Treasurer of the Woodstock, Vt., Railroad Company.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, Dec. 15, 1875.

A DIVIDEND OF FOUR PER CENT. HAS been declared by this company, payable on the 1st day of February next to the holders of full-paid shares registered at the close of the 15th day of January next, after which and until the 5th day of February the transfer books will be closed.

L. V. F. RANDOLPH, Treasurer.

☞ At the annual meeting of the Providence, Warren and Bristol Railroad Company, held in Providence, R. I., on the 31st ult., appropriate resolutions relative to the death of President John H. Clifford were adopted. The gross earnings of the road during the past year were $108,000, and the operating expenses $79,144. The following were elected a board of directors: Samuel W. Church and Ambrose E. Burnside of Bristol, William R. Robeson, Henry A. Whitney and Francis M. Weld of Boston, and William Goddard of Providence. Subsequently the directors elected Henry A. Whitney President, and B. B. Torrey, of Bristol, Treasurer.

☞ F. M. Drake has been elected President, Henry Hill Vice President and General Superintendent, and J. Fitz Henry Secretary and Treasurer of the Missouri, Iowa and Nebraska Railroad Company.

Report of the Commissioners of Emigration.

The annual report of the Commissioners of Emigration for the year 1875, the twenty-ninth since the organization of the commission, was presented to the Legislature at Albany on the 31st ult. After referring to the greatly lessened number of alien emigrants arriving at this port during the last year, the report says:

The entire number of passengers who arrived from foreign countries at this port during the year was 135,045, of whom 84,560 were aliens and 50,485 were citizens or persons who had before landed at the port of New York.

To show more forcibly the decline of immigration during the past few years the following table is set forth, which embraces the statistics of alien arrivals at this port for ten years:

Year.	No.	Year.	No.
1866	233,418	1871	229,639
1867	242.731	1872	294,581
1868	213,686	1873	266,818
1869	258,989	1874	140,041
1870	212,170	1875	84,560

Of the aliens 37,527 were male adults, 28,905 female adults and 18,128 children under twelve years of age of both sexes.

At this landing depot 99,903 steerage or third class passengers were landed during the year 1875, including 23,917 citizens or persons who had previously landed at New York or other ports in the United States, and 75,986 aliens.

They reported their intended destination as follows: 48,261 to the Middle States, 8,475 to the Eastern States, 36,871 to the Western States, 1,877 to the Southern States and 2,486 to the Territories. The Dominion of Canada was the destination of 1,852, British Columbia of 19, Australia of 11, West Indies of 28, Mexico of 13, and South America of 10.

In the table showing the nationality of the whole number of aliens who arrived during the year 1874 and 1875, the following are the countries from which the largest number of emigrants are sent:

	1874	1875.
From the German Empire	40,302	25,559
From Ireland	37,447	19,924
From England	19,077	10,798
From Scotland	4,739	3,070
From Italy	5,034	3,575
From Russia	7,565	3,123
From the Austrian Empire	5,321	4,970
From Sweden	3,743	3,303
From Norway	3,447	2,602
From France	3,316	2,376

The abstract statement of the revenue and expenditures for the past year shows the receipts to have been $185,789 19, which have been expended with the exception of a cash balance of $754 60.

Cincinnati Southern Railroad.

The Cincinnati *Price Current* says the question of most vital interest to the citizens of that city is what to do about the Southern Railroad, and then adds:

The original means wherewith to build the road, which amounted to $10,000,000, are well nigh spent, and the Trustees ask for $6,000,000 more. There is no assurance that this additional sum will complete the road, and if there was it is not improbable that this sum would be found insufficient in the end. The road if completed would be of great benefit to the trade of our city, but if more means are not provided the ten millions already spent is virtually lost, for not a mile of road is finished, the work done being chiefly in grading and masonry, and distributed from one end of the line to the other. The question of policy for a city to build a railroad is not to be passed upon now, but having entered into the work and spent nearly two-thirds of what it is reasonable to suppose the actual cost will be the only question at issue is shall the city provide the remaining one-third to finish it. The distance from Cincinnati to Chattanooga is 328 miles. The cost of constructing a first class road ought not to average over $50,000 per mile, although there is a great amount of heavy work, with three large rivers to cross, which require expensive structures, and heavy masonry, and also much expensive grading and tunneling in the mountains. The average cost of the railroads of the United States is something over $50,000 per mile, but the larger part of them were made when labor and material were higher than they now are, so that a liberal estimate for the cost of our road would be the sum mentioned, and at this rate the total cost would be $16,150,000. Whether this would be enough to provide the necessary side tracks and station houses we do not know, but from the fact that the Trustees might have asked for seven or eight millions as well as six millions we conclude that they expect to finish the road for the six millions.

It has been proposed to suspend work on the road from here to Lexington and complete the road from there to Chattanooga, or to make a connection with the Knoxville and Chattanooga road. Neither of these projects would give us what we want—a first class and direct connection with the Southern railroad system. We have a roundabout connection now by way of Louisville, and the proposed substitutes would not be enough better to compensate for the cost. The question then is narrowed down to this: Shall we issue six million more bonds and complete the road, or shall we sink the $10,000,000 already expended on which we must continue to pay the interest, amounting to $730,000 per annum, and get no benefit from it? The additional annual interest which we should have to pay on the proposed $6,000,000 would be at 7.3 per cent. $438,000. The additions to the burdens of taxation to meet this interest would be little over one mill on the dollar of taxable valuation of the property of the city. This drain on resources would scarcely be considered an obstacle in the way if the project was one of private enterprise, and for this comparatively small outlay we may secure the long desired highway to the whole system of Southern lines of transportation.

If we let this project fail after having gone so far, for the want of the necessary means, our city would never recover from the stigma which would rest upon it, for instead of being on the road progress we should be set down as retrograding. The enterprise is a gigantic one, and commands the admiration of the country; let us show that we are equal to the emergency, and carry it through to a successful issue.

Finances of Rhode Island.

Gov. Lippitt, in his inaugural address before the Legislature on the 25th ult., represented the finances of the State as being in a healthy and prosperous condition. There is now a balance in the treasury of $477,238 81. The bonded debt of the State amounts to $2,563,500, from which may be deducted the amount of the sinking fund, $181,000, leaving the present indebtedness $2,382,500. The State has loaned the city of Providence $175,000 at five per cent. out of the sum annually set apart to provide a sinking fund. The Governor recommends that the State tax for the present year be assessed on the valuation as returned by the boards of assessors of the different towns and cities. The municipal indebtedness of the entire State amounts to $9,869,737 11. The expenditures for educational purposes were $764,643, and the receipts $761,796. The capital stock of the railroads, the whole or a portion of which are located in the State, amounts to $37,247,315. The total indebtedness is $15,427,885. The net earnings for the year were $2,131,002. Total number of passengers transported during the year, $20,575,978. Number of passengers killed by accidents during eight months, the period covered by the report, 6. Number of passengers injured, 13. Number of employes and others killed, 29. Number of employes and others injured, 25.

Cost and Durability of Steel Rails.

A recent conversation with a gentleman whose experience in track maintenance on the Pittsburg, Fort Wayne and Chicago Railroad has comprised 25 years of successful labor, developed some interesting facts regarding steel rails and their use on that great highway. Eleven years ago a few steel rails were laid between the Federal street crossing and the railroad bridge. These were imported from England, and cost about $125 in gold per ton, were sixty pounds to the yard, and four rails weighed nearly a ton. Each rail is thirty feet in length, so that a ton or $125 worth would lay only sixty feet of track costing over two dollars per foot.

At present the double track of the P., Ft. W. & C. R. R. is laid with steel rails as far as the "Big Rocks" at Emsworth, and it is intended to lay such rails as far as Sewickley or Roseburg in the spring.

These rails are made at Johnstown at the Cambria Bessemer Works, and at Chicago. The present cost is about seventy dollars per ton. The comparative excellence of the steel rail can be estimated when it is learned that the eleven year old rail is still sound though full one-third of its bulk has been worn away. Its life is already four times that of the ordnary rail which, under similar circumstances, would have to be replaced in about two and a half years. The peculiarity of the steel rail is, that its wear is uniform from end to end, whereas the iron rail wears unevenly on its surface, making a rough surface.

At seventy dollars per ton the cost of laying a double track line can easily be calculated. A ton laying only thirty feet of such track, 176 tons would lay exactly one mile and costs $12,520. But the greatly increased life of the steel rail seems to warrant their being laid in place of the now antiquated rolled iron rail.—*Pittsburg Chronicle.*

Pittsburg and Northwestern Railroad.

The bonds and stock of this corporation are now being placed on the market. The bonds bear seven per cent. and have thirty years to run. They are for $1,000 each and are based on a first mortgage on the line of the road for $1,800,000. Mr. Street, of the A. and G. W. R. R., has been in this city for some days, attending to those financial matters of the "missing link." We learn that the prospect in New Castle, Youngstown, this city and in the East are very flattering for the taking of a large proportion of these bonds. Meanwhile work is progressing as fast as the unfavorable weather will permit, and the right of way is being secured on most favorable terms.—*Pittsburg Chronicle.*

☞ The Ohio State *Journal* says it is rumored that the Pennsylvania Company will straighten the Pittsburg, Fort Wayne and Chicago Railroad by constructing a new track, commencing at Orrville, in Wayne county, and passing through Ashland, Plymouth, Tiffin and over the now graded bed of the Continental—so-called—to Fort Wayne. By this arrangement a saving of 27 miles would be effected in the distance between Orrville and Fort Wayne. This would cut off the cities of Mansfield, Wooster and all the towns west of that point to Fort Wayne.

☞ The Worcester (Md.) Railroad is rapidly approaching completion. The track is already laid into the State of Virginia and in sight of Chincoteague bay.

Shenandoah Valley Railroad.

At a meeting of the directors of the Shenandoah Valley Railroad Company recently held at Charleston, West Virginia, the committee previously appointed to arrange the terms of traffic contracts with connecting roads—the Pennsylvania, Cumberland Valley and others—report that such contracts had been entered into with the corporations above named, and that action had been taken in favor of a like arrangement by the Western Maryland road. It is claimed by the friends of the enterprise that on the basis of the contracts executed the first mortgage bonds of the company can be negotiated in European markets on liberal terms, and that during the coming spring sufficient means will be under the control of the corporation to complete the work from the Potomac to the Chesapeake and Ohio Railroad. Active steps will at once be taken to ascertain at what rates the bonds of the road can be sold.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, January 31, 1876.

B. H. BRISTOW,
Secretary of the Treasury.

The Delaware River Bridge.

The contest between the Pennsylvania Railroad Company and the Delaware and Bound Brook Railroad Company in reference to the Bridge in course of construction over the Delaware river at Yardleyville for the joint use of the latter Company and the North Pennsylvania Railroad Company, was concluded on the 1st inst., by the decision rendered by Chancellor Runyon in the Court of Chancery at Trenton, N. J. An injunction had been asked for upon the ground, among other things, that the bridge would impede navigation on the river. The Chancellor, in his decision, held that the General Railroad law, in empowering the company to build a road, conferred on it all incidental rights necessary to a full exercise and enjoyment of the franchises. If they encountered a river in the line of their progress, they were, of course, empowered to bridge it. Nor, in the Chancellor's opinion, was the concurrence of the Pennsylvania authorities necessary. The jurisdiction of both States extended from the shore in each State to the middle of the river. Pennsylvania could empower the company to construct a bridge over so much of the river as lay within its boundary line. New Jersey could, as under the general railroad law she had, authorize the construction of the bridge over the rest of the river. That the bridge could be no impediment to navigation was apparent from the fact that the river is not navigable only to light craft at the point at which the structure has been put up and that below Trenton Falls there are already thirteen bridges of narrower and lower span than the one in dispute. The Chancellor also held that the Bound Brook Company were not required to purchase the land on which they had built their abutment from the State Riparian Commissioners. The land, being above tide-water, was private and not State property. He held, too, that in view of the fact that the bridge had been notoriously in process of construction for a whole year, and the company had been allowed to expend an enormous amount of money upon it, without protest, the application had come too late to be regarded. Equity could afford the State no relief, but she must go to the law courts to secure it. So the injunction was refused.

Boston, Hoosac Tunnel, Pittston and Western Railroad.

The Springfield Republican says the project of the new railroad from North Adams and the Hoosac Tunnel to the coal regions is assuming more definite shape, and then adds:

A company has been organized under the name of Boston, Hoosac Tunnel, Pittston and Western Railroad Company, with Judge C. P. Waller of Honesdale, Pa., as President, and John M. Cole of Williamstown as one of the directors. The proposed route makes the distance between Albany and Carbondale 162 miles, or 16 shorter than the present road, and, between Boston and Pittston, the difference will be 60 miles in favor of the tunnel route. By using the roads already built, it will require but 78 miles of new road to complete the route west of Albany, which it is estimated will cost $27,000 a mile. The route from Albany to the tunnel is not determined on, and this will be the most difficult section to build, on account of the eastern grade being so heavy. Beyond Albany, it is claimed that the grade can be reduced to 40 feet per mile, against the east bound freight with descending grades eastward not exceeding 65 feet to a mile, and this will be a greater improvement over the present roads than the saving in distance.

The officers say they can deliver coal at Albany at $2 a ton, which is just half the present price. They estimate that northern and eastern New England uses 3,000,000 tons of coal annually, that they might expect to bring half of it, which, at $2 a ton, would make an income of $3,000,000; calling a third of that amount profit, there would be $1,000,000 for dividends from this branch of the business alone. Col. Stevens and his new bridge charter are not made much of in the present calculations, for the company find that they can cross the Hudson on one of the existing bridges, if necessary. The North Berkshire people will like the present condition of the matter better than they have the previous combinations, and the friends of the several routes to Albany will be asked to make accurate surveys through their towns, and the company will accept the most feasible.

☞ The gross earnings of the Philadelphia and Erie Railroad for December, 1874, were $270,441 43, the gross expenses $131,200 82, and the net proceeds $139,240 61. For the year 1875 the net earnings were $1,137,413 56, against $1,068,786 27 for 1874, and $428,756 36 for 1873.

☞ A bill authorizing the Trustees of the Cincinnati Southern Railroad to borrow $6,000,000 in addition to the $10,000,000 authorized by the original act, was introduced into the Legislature of Ohio on the 18th ult.

Railroad Progress in Arkansas.

A correspondent of the "Spirit of Arkansas," noticing the recent opening of the new narrow gauge Hot Springs Railroad, connecting Hot Springs with the St. Louis, Iron Mountain and Southern Railroad at Malvern, says:

It is wonderful to note the improvement in this State during the last three or four years. Then the Memphis and Little Rock road was just completed, and the Cairo and Fulton was being surveyed. Now the Cairo and Fulton is one of the greatest lines of the southwest. The Little Rock and Fort Smith is nearly completed to the Indian Territory. The Missouri, Kansas and Texas stretches along through the Indian Territory, west of us, connecting Texas with the north. The narrow gauge connects Helena, on the Mississippi, with Clarendon, on White River; and another road, from Pine Bluff to Chicot, on the Mississippi; and others in process of construction. The coal mines, too, are being developed into an important item of resource. The Onita mines, Thos. Lafferty, Esq., Little Rock, Managing Director, are turning out a quality of coal said to be superior to anything outside the anthracite regions of Pennsylvania, which is used in the State and shipped largely to Missouri, and Texas. The St. Louis, Iron Mountain and Southern Railroad Company is probably doing as much to open up this State as any one agency, and is offering thousands of acres of land to settlers.

Bessemer Steel Rails.

The Sheffield *Telegraph* gives some statistics furnished to it by Dr. Webster, the American Consul in that town, showing a serious falling off in local exports to the United States, and adds:

It will be noticed that one leading branch of our local trade with the States—the Bessemer steel rails—has entirely collapsed. Not a single ton of steel rails has been sent from Sheffield to the States for nine months. In the first three quarters of 1874 the total declared value of steel rails exported from Sheffield to the States was £356,180. In the last quarter of 1874 the value fell to £1,156. In the first quarter of 1875 the value was £2,301; and since that date the trade has been a thing of the past. No wonder we hear that another large Company are about to close their rail mills for three months. Since 1864, when the record begins, the greatest exportation of Sheffield steel, steel rails, cutlery, &c. to the States occurred in 1872, when the declared value was £1,734,626. The smallest exportation was in 1875, when the total value was £691,232—the falling off as compared with 1872 being no less than £1,043,394.

☞ Articles of incorporation were filed in the office of the Secretary of State of California on the 24th ult. of the San Diego and Utah Southern Railroad Company, organized for the purpose of building and maintaining a railroad from the city of San Diego to the town of Callville, in the State of Nevada, to connect with the Utah Southern Railroad. The length of the road is 300 miles. Capital, $9,000,000, in shares of $100 each. Directors: C. W. B. McDonald, Hiram Marbury, C. W. John G. Capron, Levi Chase, James McCoy, A. Morse, J. S. Gordon, A. Klauber and Frank Kimball. The principal place of business will be in the city of San Diego.

☞ R. W. Shenk has been re-elected President, and Wm. Leaman Secretary and Treasurer of the Lancaster and Reading Narrow Gauge Railroad Company.

☞ Charles E. Barney has been appointed Superintendent of the New Bedford and Fall River Railroad, in place of Wm. H. Bliss, resigned.

☞ The shipment of coal from the Cumberland region for the year 1875 was: by the Baltimore and Ohio Railroad 1,240,771 tons, by the Chesapeake and Ohio Canal 879,935 tons, and by the Pennsylvania State Line 160,708 tons—making a total of 2,281,415 tons. Compared with 1874 there was a decrease by the Baltimore and Ohio Railroad of 335,389 tons, an increase by the Chesapeake ane Ohio Canal of 112,871 tons, an increase by Pennsylvania State Line Branch of 93,037 tons, and a decrease in the aggregate of 129,480 tons.

☞ The Central Pacific Railroad Company have surveyed the route from Williams, a point on the Woodland and Tehama branch road directly west from Colusa, to the old town of Colusa, with the intention of having an arm of the road running to that place.

LAWRENCEVILLE CEMENT COMPANY.

ROSENDALE HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York.

This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

WM. N. BEACH, Pres't,
96 Wall Street, New York.

HUDSON RIVER CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

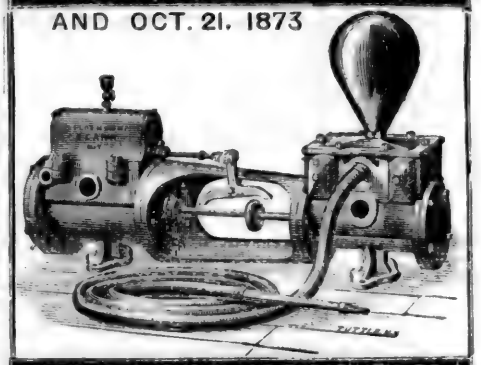
P. M. Brigham, KINGSTON, N. Y. J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER CEMENT COMPANY,

MANUFACTURERS OF HIGH FALLS ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**



THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.

The Coal Trade.

The Philadelphia *Ledger* of December 31st says: The trade for the week ending the 22d inst., increased a little. The quantity sent from al the regions of which we have report is 260,366 tons anthracite, against 127,318 tons for the corresponding period of last year, showing a decrease of 133,048 tons. The total amount of anthracite sent for the year is 1,309,263 tons, against 1,203,049 for same period last year, an increase of 106,214 tons. The quantity of bituminous coal sent to market for the week was 50,163 tons, against 39,923 tons for corresponding week last year, an increase of 1,240 tons. The whole bituminous tonnage from the beginning of the coal year to the 22d inst., is 168,490 tons, against 134,184 tons in corresponding time last year, an increase of 34,206 tons. At Port Richmond for the week ending on the 29d inst., there were receipts of 13,500 tons of coal and shipments of 5,000 tons, leaving 144,500 tons on hand. The receipts of coal at Perth Amboy for the week ending on the 22d inst., were 8,819 tons; total received during the season, 88,873 tons; shipments for the week, 5,722 tons; total shipments for the season 48,731 tons; leaving on hand 92,762 tons.

☞ C. J. Glover has been re-elected President, J. Q. Ward Vice President, Frank Fitch Secretary, and Wm. Mitchell Treasurer of the Mt. Sterling (Ky.) Coal Railroad. Six miles of the road are now in operation.

Phœnixville Bridge Works

Clarke, Reeves & Co.,

The attention of the officers of Railroad Companies is called to a new Album of Designs, showing the various styles of Iron Railway Bridges, Viaducts, etc., that we have constructed and are prepared to construct, which we will send by mail on application to

410 Walnut Street,
PHILADELPHIA.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

New York, Saturday, February 12, 1876.

United States Rolling Stock Co.

The General Annual Meeting of the Shareholders of this company was held at the office of the company, 76 Wall St., on the 7th inst. About twenty gentlemen were present representing over 26,000 shares, or something over one-half the entire capital stock of five millions. Mr. W. H. Guion, Vice President of the company, in the chair.

The Annual Report of the Company, which is quite voluminous, gives very full details of the year's business, showing a net income of $353,577 64, out of which a dividend of 3 per cent was ordered paid; after paying which there remains a surplus of $185,577 64 to be carried to Reserve Account. The business of the Company shows some improvement over 1874, although owing to the severe competition among the leading railways freights were extremely low and the Rolling Stock Company's cars could only be leased at equally low rates.

The Company is now engaged in building large repair shops at Urbana, Ohio, which will enable them to do their business to much greater advantage. The equipment of the Company has been recently very closely examined by Mr. W. H. Farley and Mr. C. F. Allen, well known retired Master Mechanics, and they give a favorable account of its condition.

Mr. William E. Warren, the accountant, has audited the Company's books, and speaks of them in the highest terms. There are large claims against Mr. James McHenry and Messrs. Bischoffsheim & Goldschmidt, London, which are being prosecuted in the Courts in England, and still larger claims against the bankrupt Atlantic and Great Western Railroad Company which, however, the Company hopes to recover, as they claim their lien to take priority over the mortgages. The success of the Company is not in any way dependent upon the result of these suits, as it can continue to earn dividends even if nothing is recovered from them, while offers of compromise have already been made nearly equivalent to fifty per cent of the amounts claimed.

The Company owns 105 locomotives, 92 passenger and baggage cars, and 3,957 freight cars which are leased to twenty different railroad companies.

After discussion of the Company's affairs the Report was unanimously adopted, a complimentary note of thanks was tendered to the Trustees and officers of the Company, and the following gentlemen were elected Trustees: James B. Hodgskin, Wm. H. Guion, Adrian Iselin, E. G. Fabbri, and L. H. Meyer. The officers are: President James B. Hodgskin, Vice President Wm. H. Guion, Treasurer and Secretary A. Hegewisch, General Master Mechanic C. F. Jauriet.

The Belvidere Delaware, Mercer and Somerset, and Flemington Railroads.

An election for Directors of the above named companies took place at Trenton, N. J., on the 7th inst., with the following result:

Belvidere Delaware Railroad: George B. Roberts, Josiah Bacon, Strickland Kneass, John M. Kennedy, A. J. Derbyshire, Charles Sitgreaves, Lewis Perrine, Charles Bartles. Ashbel Welsh was elected President. Mercer and Somerset Railroad: Thomas Hanlon, George B. Roberts, Thomas A. Scott, Strickland Kneass, Martin A. Howell, Augustus Vansant, Lewis Perrine, Benjamin Fish, Ashbel Welsh, A. L. Dennis. Ashbel Welsh was elected President. Flemington Branch: Charles Bartles, W. B. Emery, Alexander Wurtz, John C. Hopewell, Robert F. Stockton, Benjamin Fish, Thomas B. Fidler, Samuel Lilly, Ashbel Welsh. Ashbel Welsh was elected President. Hugh D. Ely was elected Secretary and Treasurer of each of these companies.

Testing Boiler Iron.

The Baltimore *Sun* says that the Supervising Inspectors of Steam Boilers were in that city on the 3d inst., and made some interesting experiments in testing boiler iron by Riehle Bros'. Machine, one of which is used by each supervisor, and then adds:

This is a ponderous piece of mechanism, with steelyards, weights, etc., by which the tensile strength of iron is tested with nicety. The iron tested was from Abbott's and Coates' Baltimore rolling mills, and the results were altogether favorable to the makers. The specimens were of boiler iron a quarter inch in thickness, with cross sections, where the elongation or test was made. The iron was fastened in the machine, the cross section exposed to the strain. By means of a lever the equilibrium was reached after the weights were put on. Thus a 1,000 pound weight was first used, and the lever worked up until a balance was reached. Then weights were added, until elongation was noted, and then more weights until the iron snapped, and its strength was thus ascertained.

Six specimens from Coates' mills, each with a stamped tensile strength of 50,000 pounds to the square inch, were first tested, the specimens being one-fourth inch in thickness. The first broke in five minutes, at 12,500 pounds, or equal to the strength claimed by the square inch: the second broke in two and one-half minutes, at 14,000 pounds: the third in two minutes, at 14,300 pounds: the fourth in two minutes, at 13,700 pounds: the fifth in four minutes, at 17,900 pounds, and the sixth in one and one-half minute, at 17,500 pounds.

The same number of specimens from Abbott's mills were also tested. The first four were of 50,000 lbs. tensile strength, and the other two 45,000 lbs. The first broke in one minute at 12,500 lbs.: second in four minutes at 14,500 lbs.: third in one and a half minute at 14,000 lbs.: fourth in two

minutes at 13,300 lbs.: fifth, of 45,000 lbs., in one and a quarter minute, at 13,250 lbs. With the sixth, of 45,000 lbs., different experiments were tried, the weights being put on at half minute intervals. It broke at 13,000 lbs. All of the supervisors spoke in complimentary terms of the productions of the Baltimore rolling mills.

Fitchburg Railroad.

The receipts and expenditures of this road for the years ending September 30, 1874 and 1875, have been as follows:

Receipts:	1874.	1875.
From passengers	$644,085 21	$696,066 76
" freight	932,030 59	909,629 18

	$1,302,957 66	$1,432,700 70
Net earnings	$325,655 17	$287,824 01

The company have 54 locomotives, 56 tenders, 71 passenger, 22 mail and baggage, 930 eight wheel and 228 four-wheel merchandise, and 90 gravel and coal cars, and 9 snow plows. Number of miles run by passenger trains 538,687, by freight trains, 429,345; by other trains, 29,061—total, 997,093. Length of main road operated, 186 miles. Length of double track road, belonging to the company, 50.68 miles; length of Watertown Branch Railroad, belonging to the company, 6.60 miles; length of Lancaster and Sterling Branch Railroad, belonging to the company, 12.42 miles; length of Peterboro' and Shirley Railroad, belonging to the company, 23.62 miles; length of side and other tracks, belonging to the company, 41.78 miles—total length of tracks belonging to the company, 185.78. Length of Vermont and Massachusetts Railroad, leased for 999 years, 80.11 miles; length of side tracks on Vermont and Massachusetts Railroad, 12.16 miles. Total length of tracks operated, 278.05 miles. The report says:

During the past year we have been preparing our road bed, track, equipment and stations, that we may be ready to perform properly the increased business which will pass over the road when the Tunnel line is completed.

The road bed and tracks, both of the Fitchburg and Vermont and Massachusetts roads, are probably in better condition at the present time than ever before. They have been greatly improved during the past year by large and unusual quantities of grading or ballast, and by the laying down of twenty-nine miles of new iron and steel rails. On the Fitchburg division we have laid down six thousand five hundred and ninety-six feet of side tracks, have built a new freight house near our Boston passenger station, nearly seven hundred feet in length and thirty-nine feet in width, have remodeled and converted one of our old freight houses into a large and convenient hay house, and have generally improved all our freight buildings so that they are now equal to those of any other line; they are also so arranged that they may be easily extended to furnish additional accommodations whenever required.

We have also constructed a new engine house at Waltham, and several new passenger stations.

On the Vermont and Massachusetts division, we have laid down six thousand one hundred and seventy-four feet of side track, and in the city of Fitchburg the bridge masonry has been raised and extended, several of the abutments rebuilt, three new piers added; and the three old wooden bridges have also been replaced by new and substantial ones built with open trusses and for additional tracks. In Royalston we have substituted for the wooden bridge destroyed by fire, a new iron bridge of the most approved form, and have also made extensive repairs and improvements upon several other of the numerous bridges on this division.

In all departments the ordinary repairs and renewals have been fully supplied, and the equipment has also been increased.

Considerable expenditures have been made in improving the road bed, tracks and stations; and with the expectation of soon receiving a large and entirely new addition to our present business, these outlays could not safely be longer postponed, but should be continued; and with this conviction, we have already contracted for straightening or obviating the very objectionable and expensive reverse on the Vermont and Massachusetts division at Ashburnham, and have arranged to construct an extensive addition to our wharf in Charlestown.

The cost of the permanent additions made to the property has been carried to capital account, all other improvements to expense.

A comparison of net results with those of the year 1874 would show a falling off of $57,475 66; but it is to be noticed that our accounts this year include the Vermont and Massachusetts Railroad business for the entire year, whereas last year's accounts included only nine months' business of that road; adding the income and expenses of the Vermont and Massachusetts Railroad for the three months of 1874, when the roads were operated separately, to the like receipts and expenses for the nine months in which they were operated together, and comparing the results of the two years, we find that

Receipts from passenger business have increased	$13,210 55
Receipts from freight business have decreased	72,331 37
Receipts from express, mails and rents have increased	7,866 00
Total income has decreased	51,254 82
Total expenditures have decreased	19,543 05
Net earnings have decreased	31,711 77

A comparison, made in the same manner, shows that

Miles run by passenger trains have increased	23,352
Miles run by freight trains have decreased	15,796
Miles run by gravel trains have increased	12,804
Miles run by other trains have decreased	4,696
Total miles run have increased	15,664
Number of passengers carried has increased	224,867
Number of passengers carried one mile has increased	1,142,093
Number of tons carried has decreased	273,449
Number of tons carried one mile has decreased	269,778

Our decrease of net earnings is caused by the great and general stagnation in all kinds of business, which has considerably reduced our gross income, and by the unusual expenditures made on road bed and track.

At the date of our last report it was uncertain what policy the State would adopt with reference to the management and operation of the Tunnel road; since then the toll-gate plan, so called (Chap. 77, Laws of 1875), has been adopted. The object sought to be accomplished through this plan is to give all railroads which now or may hereafter connect, either directly or over intervening railroads with the Tunnel road, equal opportunities to use the same, and hereby give to the people in all sections of the State equal advantages from its completion, and at the same time secure to the State the entire control of the Tunnel and its approaches. This plan differs materially from that which was contemplated by the contract of 1863 between the State, the Fitchburg, Vermont and Massachusetts, and Troy and Boston Railroad Companies. That contract substantially provides that the business from the Tunnel should pass over the roads above named, and for that consideration, each of said roads should pay to the State twenty per cent of its entire gross earnings upon all such business.

It seemed to be the settled opinion of the people and of the Legislature, that all roads should have the same facilities for using the Tunnel; and as we could not, on account of the great decrease in profits of transportation, have paid the twenty per cent. without charging rates of freight which would, to say the least, have greatly restricted the business, it appeared right and reasonable that something should be done to modify our contract, and establish some definite and settled policy on the part of the State.

We entered into this contract upon the supposition that we were to have the exclusive benefit of the Tunnel business, and were willing to abide by its terms and fulfil its conditions, and have never petitioned to be released therefrom; but it would have been manifestly unjust to have attempted to hold our corporation to the burden of the contract, when all other roads were allowed by the toll-gate law, to use the Tunnel road without the payment of any percentages or allowances whatever except the regular tolls. The Legislature took this view of the matter and repealed the contract; and the Governor and Council have released the Fitchburg and Vermont and Massachusetts Railroads from its obligation.

A passageway was opened through the Hoosac Mountain, on Thursday, Nov. 27, 1873, and in our report for that year it was stated that the Tunnel would certainly be completed during the summer of 1874, and when the lease of the Vermont and Massachusetts Railroad was made (January 1st, 1874), we had good grounds to expect its completion within that year.

In Gov. Washburn's inaugural address, on the 8th of January, 1874, he says: "To-day we have every reason for believing that the remaining work will be advanced with such rapidity, that in eight months the Tunnel may be ready for use as a part of the through railway line;" but notwithstanding this prediction, no trains of any kind were run through it until February 9th, 1875, no freight train until April 5th, 1875, and the first passenger train, July 8th, 1875.

The freight business is limited in quantity and to particular hours, to avoid delaying the work, and for the same reason the passenger trains are confined to such hours that no direct connection can be made upon either side of the mountain.

The business pays the regular tolls fixed by the State for running over the Troy and Greenfield Railroad east of the mountain, and is also burdened by a tax of 75 cents per passenger, and $1 50 per loaded freight car, for each person and for each loaded freight car which the contractor draws through the Tunnel.

Subject to these restrictions and charges we cannot expect to perform a large or profitable business. Still, enough has been done to satisfy us that whenever trains can be run through the

Tunnel without delay, at fair tolls, making proper connection, a very large business will seek this new line to the West.

We hope the Tunnel will soon be completed; for, until that time, we cannot realize the benefits or profits which we believed would result from leasing the Vermont and Massachusetts Railroad.

Superintendent.—C. L. HEYWOOD.

Eastern Railroad.

At the annual meeting of the stockholders of this corporation held in Boston on the 7th inst., the Forty First Annual Report was presented, and the following named gentlemen elected directors for the ensuing year: Samuel C. Lawrence, Frank Jones, J. S. Ludlam, G. S. Morrison, Onslow Stearns, James W. Johnson, Benjamin E. Bates, John Cummings, George W. Gill.

The following resolutions, offered by Hon. Charles Levi Woodbury, were unanimously adopted:

Resolved, That the plan for extending and securing the debts and liabilities of the corporation at reduced rates of interest, and providing for the management of its affairs, adopted at a meeting of its creditors held at Boston on the 15th of January, 1876, and now submitted to the stockholders in the report of the directors of this company, be referred to the directors with instructions to join in presenting it to the Legislature for its action.

Resolved, That the directors are hereby authorized to apply to the Legislature for authority to issue bonds, and make and execute a mortgage and conveyance of the property and franchise of this company in trust in order to secure its debts and liabilities.

Resolved, That the directors of the Eastern Railroad Company are authorized, if in their opinion it shall become needful for the protection of the property of the corporation and of the rights of the creditors, to make application for the benefit of the bankruptcy acts of the United States, and take such other proceedings as the bankrupt laws may require in that behalf.

The following amendment, offered by Mr. Seth J. Thomas, was also adopted unanimously:

Resolved, That ——— be a committee to investigate the affairs of the Eastern Railroad Company for the last six years past generally; to inquire in respect to all contracts and purchases made by the company, and whether any director had any interest adverse to the company at the time of said purchase or before; and into the value of all lands and property of said company, with authority to send for persons and papers, and make a report to this corporation as soon as possible.

It was voted that the Committee of Investigation provided for in the resolution of Mr. Thomas consist of five members, which was announced by the chairman, as follows:

Messrs. Seth J. Thomas, George Ripley, Greeley S. Curtis, P. G. Monroe and W. A. Tower.

Railway Resistance.

INTERESTING EXPERIMENTS WITH THE DYNAGRAPH.

Under the direction of P. H. Dudley, the inventor, a number of experiments with the dynagraph have been in progress in this section for some time past, an account of which will interest many of our readers. After a few experiments had been made with trains upon the Lake Shore and Michigan Southern Railway, between Cleveland and Collinwood, the impression was that trains moving at 12 miles and under per hour required more power to propel them than those moving at the rate of 18 or 20 miles, especially such heavy and long trains as are drawn upon this road. To test this more thoroughly, Dec. 3, a stock express train of 709 tons was run from Cleveland to Erie, Penn., and the amount of coal and water used measured. On Dec. 14, with the same engine, a train of the same weight, but one car less, was run at twelve miles per hour, which burned 1,945 pounds more of coal. Part of the increased consumption in coal may be accounted for from the fact of the temperature of the weather being 30.60° Fahrenheit or 17° centigrade colder. Subsequent experiments all tend to corroborate the first ones, that the most economical speed for these long and heavy trains is much above twelve miles per hour, as far as power is concerned upon the light grades of the Lake Shore and Michigan Southern Railway. After each diagram is taken, it is figured up in foot pounds, that is, as though the force exerted was so many pounds lifted or raised one foot high. The stock train of Dec. 3 figures up to 2,489,300,000 foot pounds. Now, taking the number of pounds of coal used, it is easy to see or compare the effective amount of power produced with that which should be theoretically called into action by the combustion of the coal, which in this case is only four and a half per cent. The best steam engines we have do not utilize quite ten per cent of the full value of our fuels. To collect more data for the solution of the most economical expenditure of power, last week a train was run from Collinwood to Buffalo, one from Buffalo to Toledo and one from Toledo back to Collinwood. It required 630 feet of profile paper to pass through the dynagraph upon which is recorded by the instrument the force used to draw the trains for the round trip. It would take one man four months to calculate the results of the one trip. In all experiments so far, the resistance per ton is affected by the weight and length of the train as well as speed. For instance, in making some experiments for the rate of speed to run trains, some Empire cars were taken, which drew very hard. One loaded car was taken and attached to the car with the instrument, running at the rate of 30 miles per hour, as were the three following experiments, besides the one car.

The Empire car and load weighed 20 tons and the car with the instrument 9¼ tons—both 29¼ tons—and the resistance per ton was 61.5 pounds. Another car was added, making the weight 48¼ tons, and the resistance per ton was 51.3 pounds. Three more cars were now added, all weighing 107¼ tons, when the resistance per ton was 32.6 pounds. Five more cars were added, all weighing 204¼ tons, and the resistance was only 26.7 pounds per ton. All run over the same track. In the heavy and long trains of different makes of cars, at 16 to 18 miles per hour the resistance ranges per ton from 6.5 pounds to 7.1 pounds—*i. e.*, of trains weighing 700 to 750 tons. On a passenger train of five cars, estimated weight of cars 91 tons, load 15 tons, at 40 miles per hour, the resistance varies from 24.5 to 28.3 pounds per ton.—*Cleveland Herald, Jan.* 31.

Rockford, Rock Island and St. Louis R. R.

Last spring Herman Osterberg, the representative of the German bondholders of the Rockford, Rock Island and St. Louis Railroad Company, bought this insolvent railroad at master's sale, under the decree of the United States Circuit Court here, agreeing to pay therefor some $3,000,000, partly in cash and the remainder in bonds of the company, to be received at a certain percentage to be fixed by the court. At the time of the sale $200,000 in cash was paid down, and since that time large additional sums have been paid in. The officials of the court have been occupied for the last two or three months in examining and taking an account of the bonds turned in it by the purchasers, and yesterday the report of Mr. Bishop, Master in Chancery, fixing the amounts and the percentage to be allowed, was approved by the Court. A decree was thereupon entered by Judge Drummond, by which it appears that there is still due from Mr. Osterberg the sum of $220,844 57 on the purchase. This he is to be allowed to retain, at 6 per cent interest, until April 1, 1876, and on its payment he is to become possessed of the road absolutely. In the meantime he is to retain the custody and control of the railroad, reporting monthly on the business done by him. In accordance with the decree, he yesterday filed a bond in $50,000 for the due performance of his part of the contract. The proceedings are reported in full in our Court Record. —*Chicago Inter-Ocean, Jan.* 29.

☞ The Boston Journal says that the almost unanimous vote by which the new Board of Directors of the Eastern Railroad were chosen shows that the stockholders have the fullest confidence in their integrity and faithfulness. The new members are Mr. G. S. Morrison of New York, the railroad expert who made an investigation of the affairs of the road and an estimate of its value and prospects as the agent of the Baring Brothers of London; Mr. Onslow Stearns of Concord, N. H., is the President of the Old Colony Railroad, and he, together with Mr. J. S. Ludlow of Lowell, were put upon the ticket at the request of the creditors. Mr. George W. Gill of Worcester is a gentleman well known in political circles and a large stockholder in the corporation. The whole ticket was selected and agreed upon by a conference between the bondholders and the stockholders.

☞ The Harlan & Hollingsworth Company, of Wilmington, Delaware, on the 5th inst. successfully launched the iron steamer Algiers, designed for Morgan's line between New Orleans and Morgan City. The dimensions of the steamer are: Length, 275 feet; width of beam, 38 feet; depth of hold, 22 feet. This steamer will be hurried to completion for delivery during the latter part of March. Another steamer of the same dimensions as the Algiers is now upon the ways, and will be launched soon. Both are being constructed in the strongest manner, and in the most approved style of art. They will be schooner rigged, and will be furnished with all the appliances for safety and comfort.

Railroads of Wisconsin.

The following compilation of the Report of the Railway Commissioners of Wisconsin for the year 1875 is from the Chicago *Railway Review*:

The total length of railways reported was 4,875,-26 of main line and branches. The mileage of total lines operated was 2,565.73. Total length of sidings (exclusive of sidings of the Chicago, Milwaukee and St. Paul and the Chicago and Northwestern Railroads) 86.39 miles. The total mileage of double track one-half mile. Up to Jan. 1, 1876, the total of miles laid with steel rail was 599.10; miles laid with steel in Wisconsin, 212.60. The weight of the steel rail is 60 pounds per yard. Of the iron rail, 35 pounds on the Galena and Southern Wisconsin, 45 to 56 on the other less important lines, and 50, 56 and 60 on the greater roads. But twenty miles have been added by construction during the year. The addition was made by the Wisconsin Central Company, as the first section of their new line from Stevens Point to Portage City. The lines reported have a guage of 4 feet 8½ inches, except the Galena and Southern Wisconsin, of which the guage is 3 feet.

The corporations doing business in Wisconsin (the Wisconsin Central, the Madison and Portage, and the Wisconsin Valley not included) reported a total capital stock on Dec. 31, 1874, of $83,873,997 82, or $16,998 88 for each mile owned and operated. The amount on the 30th of June, (the Milwaukee, Lake Shore and Western, West Wisconsin, Chippewa Falls and Western, and Superior and St. Croix not reporting) was $88,-802,597 82. Allowing the amounts chargeable to the companies reporting in 1874, but not in 1875, to remain the same as at the former date, the total June 30, 1875, is $92,299,597 82, or $18,932 24 per mile of road—the Wisconsin Central not being included in either count. The funded debt of companies reporting June 30, 1875 (the Milwaukee, Lake Shore and Western, Superior and St. Croix, Chippewa Falls and Western, and Wisconsin Central not included) was $75,629,360. The proportion of this debt belonging to Wisconsin, estimating that of the Chicago and Northwestern and Western Union was $39,266,288 52. The total unfunded debt June 30, 1875 (debt of Chicago and Northwestern, Milwaukee, Lake Shore and Western, Superior and St. Croix, Chippewa Falls and Western, and Wisconsin Central not included) was $4,549,164-11. The total reported funded and unfunded debt was $80,178,464 11. The total of stock and debt on June 30, 1875, was $168,878,127 58. The total interest paid during the year ending June 30, 1875, is $4,565 249 34, of which $1,981,273 49 was paid by the Chicago, Milwaukee and St. Paul Co., and $2,230,439 68 by the Chicago and Northwestern.

During 1874, there were in the United States at one time 122 roads in default for non-payment of interest, the amount of bonds on which such default has been made amounting to $557,624,639. In that list of 122 there were two Wisconsin roads—the Milwaukee, Lake Shore and Western and the Sheboygan and Fond du Lac. During the first portion of 1875 the unfavorableness of the season and the low price of cereals had the effect to reduce the amount of freight business done on our roads below the average of previous years. But the business of the whole year has undoubtedly been considerably above the amount done in 1874. As might have been anticipated, the prices of railroad securities have also been greatly depressed. Many things (say the Commissioners, who exhibit a plentiful lack of knowledge in regard to the effects of the Potter law,) had conspired to destroy all faith in railroad investments; so that, while the bonds of promising roads were a drug in the market, the bonds of new companies, however well organized and how much soever the projected roads were needed, have commanded no purchasers. Indeed, public confidence had gone so far out of capitalists and people that the proposition to sell new stocks at any price was calculated to provoke ridicule. This condition of things was aggravated in the first half of 1875 by quite a general decline in earnings, partly due to business depression generally and low prices of agricultural products, and partly to the activity of competition between roads, especially between the great trunk lines connecting the West with the sea-board. Railroad bonds, though considerably depressed, have in general, where well-secured upon important roads, held the confidence of owners to a good degree. Still, they, too, have necessarily felt the influence of the numerous failures to pay interest, and have suffered correspondingly. They seem to have reached the lowest point in the early summer, and since that have gradually improved.

The number of tons moved in 1874-'5 was 5,920,494, the West Wisconsin and M., L. S. and W. not being reported. The number moved in 1873 was 5,223,948, and in 1874, 5,019,388. Allowing the roads above-named their tonnage of 1874, the number of tons moved in 1874-'5 was greater than in 1874 by 1,112,920 tons. The tons of freight carried one mile in 1874-'5 was 760,850,-158, of which 232,530,091 tons were moved by the Chicago, Milwaukee and St. Paul, and 454,-546,468 tons by the Chicago and Northwestern. The gross earnings on all the lines reported June, 30, 1875, estimating the M., L. S. and W. the same as last year, amounts to $23,387,400 23—of which the C., M. and St. P. earned $7,464,-298,68, and the C. and N. W. $12,597,094 61. The total earnings of the Wisconsin lines amounted to $4,946,687 26. This is a decrease as compared with 1874 of $2,248,132 65 on the total operated, and of $818,313 52 on the total business done in Wisconsin. Of the $23,387,400 23 gross earnings for 1874-'5, $15,771,268 10 was from freight, $5,625,281 07 from passengers, and $1,990,851 06 from other sources. The net earnings of the total lines (4,875 26 miles for the year ending June 30, 1875,) were $8,066,728 03, or $1,624 68 per mile. The total net earnings to be credited to Wisconsin was $2,018,226 50, or $786 61 per mile of Wisconsin road. The average net earnings per mile (total mileage of 4,875 26 miles,) were $0.00707; the average net earnings per passenger per mile, $0.0035. As the data for these calculations are not complete, the figures should be considered only a close approximation to the exact amount. But two companies, the Chicago, Milwaukee and St. Paul and the Chicago and Northwestern, have paid dividends for some years past, and neither of these paid any dividend last year.

Northern Pacific Railroad.

From a circular just issued by Mr. C. B. Wright, the President of the Company, we learn that in April, 1875, a receiver was appointed, and in June following the bondholders created a committee of their own number, which prepared a plan for reorganization, under which, on the 29th of September last, the said committee became the purchasers at a judicial sale, and the assenting bondholders preferred stockholders, who elected their own board of directors, who now manage and control the company. The road is in operation from Lake Superior to the Missouri river, 450 miles. At the Red river it connects, by lines of steamers, with the Canadian province of Manitoba. Its traffic is said to give good promise for the future. The Pacific Division is in operation from the Columbia river to Tacoma, the terminus on Puget Sound, a distance of 105 miles. At Tacoma coast steamers and the steamers navigating the Sound connect with trains running south to Columbia river, near the city of Portland Oregon. The traffic on both divisions in 1875 shows gross receipts of the 555 miles of completed road of $618,590. The net income was $152,140 Each mile of the road built has been accepted by the Government, and this entitles the company, under the charter, to 10,800,000 acres of land. This land the company is selling to settlers at prices which thus far average about $5 per acre. It is intended that the work of construction shall be resumed the present season. The equipment of the road is reported good, requiring no immediate expenditure in that direction. Nine-tenths of the bonds issued have been surrendered under the plan of reorganization, and are being converted into preferred stock. The small amount outstanding is gradually coming in. By May next it is believed the company will have 555 miles of equipped railroad, free from a bonded or floating debt, in operation. The certificates of preferred stock are now being issued in exchange for the 7.3 bonds at the rate of $1,400 for every $1,000 of the principal of the bonds, which includes interest thereon to July 1, 1878. This preferred stock is receivable at par for the company's lands east of the Missouri river. The preferred stock will be entitled to dividends at the rate of eight per cent per annum before the common stock is permitted to participate in dividends to any extent.

Railroads of Illinois.

From the Report of the Railroad and Warehouse Commissioners of the State of Illinois for the year ending June 30, 1875, we learn that there were at that date of main line and branches within the State 7,109 miles. During the year closing June 30, 1875, 331 miles of main line and branches had been opened for business, exclusive of other roads in process of construction. There are but few miles of double track in the State. Nearly all the roads are provided with telegraph facilities; and it is claimed by railroad managers that with these, and good sidings, business can be transacted with nearly equal safety and dispatch, and at very greatly reduced expense.

Of the 331 miles of road opened during the year, 324½ miles are main track, built by the following companies:

	Miles.
Cairo and St. Louis	56½
Chicago, Danville and Vincennes	21
Chicago and Pacific	50
Chicago and Paducah	28
Illinois Midland	78
Paris and Danville	88
Baltimore, Pittsburgh and Chicago	6
Springfield and Northwestern	47
Total	324½

The remaining 6½ miles are attributed to corrected measurement, and road not previously reported.

Of the 50 companies reporting, all have the common gauge except the Cairo and St. Louis, which has a gauge of three feet.

The freight receipts of the entire line during the year amounted to $71,575,583, against $68,-026,905 23 during the previous year, an increase of $3,548,677 77.

The passenger receipts during the same time were $26,992,493 31, against $23,078,894 59 during the previous year, an increase of $3,913,598 72.

The total earnings during the year amounted to $105,945,788 59, against $96,816,868 18 for the previous year, an increase of $9,128,920 41.

The Chicago, Burlington and Quincy Railroad, alone, reported an increase in passenger receipts of $1,104,909 73, and in freight receipts $2,216,-096 28.

The average sum earned on each mile of road operated during the year, as reported to the

Board, was $7,010 23, against $7,541 in the preceding year, a decrease of $530 77.

The earnings vary from $20,046 29 on the Michigan Central, to $701 30 on the Louisville, New Albany and St. Louis.

The cost of operating each mile of road, during the year, has amounted to $4,349 24, against $4,804 75 the preceding year, a decrease of $455 51. This economy of management has effected a saving to the companies of more than $6,000,000. The operating expenses have consumed 73 per cent of the gross earnings.

The operating expenses per mile vary from $13,404 79 on the Michigan Central, to $729 25 on the Chicago and Illinois Southern.

The amount of net earnings on all the roads is $35,131,844 16, an increase over the preceding year of $4,561,410 76.

The net earnings per mile are stated at $2,822 89, being a decrease of $59 35 as compared with the previous year.

The net earnings vary from $7,036 38 per mile on the Pittsburg, Fort Wayne and Chicago, to $142 24 on the Indianapolis, Bloomington and Western.

The Secretary of the Board, in his resume of the Report, of which the above is an abstract, says there seems to be in several places in the report a discrepancy in stating an increase of business, and at the same time a decrease of business per mile of road, and a decrease of business in Illinois, and then adds:

A more careful examination of the report shows the reason for all of these seeming discrepancies. The chief cause of this increase of business is, that about 2,000 miles of road have been added to that reported last year. Most of this increase in mileage lies without the State, but owned and operated by our own corporations. Almost all of it is new road, through a sparsely settled country, and doing but little business per mile, and in averaging the business reduces the gross receipts per mile. A reference to the report of the Chicago, Rock Island and Pacific Railroad Company shows this operation of thus averaging the business. That company report their gross receipts per mile at $11,035, including all their road in this and adjoining States. They report that "the miles of railroad in Illinois is 29 per cent of the entire railroad owned by the company." They further report that the "earnings in Illinois are estimated at 51 per cent of the entire earnings of the road." This is equivalent to saying that each mile in Illinois earned over $19,400, and the remainder of their road in the western states earned, on an average, about $7,600 per mile.

The same calculation would show a similar result on the Chicago and Northwestern and the Chicago, Burlington and Quincy Railroads, whose miles of road in this State are of far greater value to them per mile than in the adjoining States.

This statement also applies to several other roads, and will explain the apparent decrepancies in the returns of many of the roads, and in the amount of business reported, as compared with the returns of former years; as also in the reports of gross and net earnings, as thus compared.

We have no doubt that the business in Illinois has been larger than ever before, but it has been spread out over more miles of road and reduced in the report by averaging, as shown above.

The Chicago, Rock Island and Pacific paid a dividend of eight per cent on its entire stock, and the Chicago, Burlington and Quincy ten per cent on its entire stock. The Lake Shore and Michigan Southern paid a dividend of ten per cent on its preferred stock, and three and a quarter per cent on its common stock. The Pittsburg, Fort Wayne and Chicago paid a dividend of seven per cent on its preferred and common stock. The Ohio and Mississippi paid a dividend of seven per cent on its preferred stock. The Chicago and Alton paid a dividend of ten per cent on its preferred and common stock. The St. Louis, Alton and Terre Haute paid a dividend of 8 per cent on its preferred stock. The Illinois Central paid a dividend of 8 per cent on its common stock. The total amount of dividends paid was $11,408,325, of which $937,376 was on preferred stock. The eight roads mentioned represent $169,485,707 of stock. The amount of stock upon which no dividend was declared is $174,266,326.

Nineteen companies report an investment of $743,467 54 in new equipment during the year as follows:

Chicago and Alton	$35,701 75
Chicago, Burlington and Quincy	131,790 58
Chicago and Iowa	43,600 00
Chicago, Milwaukee and St. Paul	53,934 50
Chicago and Northwestern	33,759 06
Chicago, Pekin and Southwestern	13,444 06
Chicago, Rock Island and Pacific	44,481 85
Evansville, Terre Haute and Chicago	17,000 00
Illinois Central	52,514 15
Indianapolis, Bloomington & Western	850 00
Lake Shore and Michigan Southern	109,018 24
Michigan Central	28,953 74
Ohio and Mississippi	2,082 07
Peoria, Pekin and Jacksonville	360 72
Pittsburgh, Cincinnati and St. Louis	18,245 80
Pittsburgh, Fort Wayne and Chicago	883 45
Sycamore and Cortland	9,000 00
Toledo, Wabash and Western	81,301 89
Western Union	69,545 68
	$743,467 54

From the returns made to the board, it appears that 1,315 miles out of 5,081 miles, or about 26 per cent of the entire main lines of the companies, are laid in steel. This is an increase of 518 miles in the last year.

A careful estimate shows the amount of passenger and freight business done on the lines of road within the State during the year to be equivalent to transporting 334,115,234 passengers one mile, and 1,549,118,043 tons of freight one mile. In the transaction of the above business, 16 passengers were killed and 56 injured, 61 employes were killed and 350 injured, and 109 "other persons" were killed and 182 injured—the latter through their own carelessness, inattention or misconduct.

Syracuse, Geneva and Corning Railroad.

At a meeting of the directors of the Syracuse, Geneva and Corning Railroad Company, held at the office of the Fall Brook Coal Company, in Watkins, some time since, the route of the proposed new road, which will connect Corning on the Erie, with Geneva on the New York Central, was established by a vote of ten to two, on what is known as the eastern survey line, via: Post Creek, Beaver Dams, Townsend, Watkins, Dundee, Himrods and Dresden. Northward from Watkins the route will pass between Rock Stream and Reading Centre to Dundee, and thence in a right line to Geneva, crossing the Northern Central at Himrods. The directors of the road are: Edward Munson, Bradford; Hon. Charles B. Walker and Stephen T. Hayt, Corning; E. D. Worcester, New York; William T. Hamilton, Frank Hiscok and Patrick Lynch, Syracuse; General George A. Magee, Daniel Beach and John Lang, Watkins; D. A. Ogden, Penn Yan; and Alonzo H. Gorton and Alexander Olcott. It is the intention of the directors to have the road completed by the 1st of next September.

By this new road the bituminous coal fields of Tioga county, Pa., will be brought within 100 miles of the central part of our State, at Geneva, the distance from Corning being fifty-seven miles. Sodus point, whence distribution on the lakes and to Canada would occur is about thirty miles from Geneva. Newark, lying between, about fourteen miles from Geneva, is a point where the air line of the New York Central and Hudson River Railroad might receive its supplies of coal. The mutual interest of the New York Central Railroad and the owners of the Blossburg mines in this new road is thus apparent. The attention of our merchants is invited to this road, because it will be likely to interrupt the monopoly of Tioga county trade by introducing Syracuse as a competitor. A connection of Syracuse with Antrim, in Tioga county, Pa., and Pittsburg with Driftwood, on the Philadelphia and Erie Railroad, would leave but a short gap between Antrim and Driftwood to be spanned to enable Syracuse to secure the trade of the counties in Pennsylvania south of Olean—trade, through former associations, tending eastward. The importance of finishing our own Rochester and State Line and Rochester, Nunda and Pennsylvania Railroads is thus indicated, and the question arises: if other roads, with less local traffic and less favorable terminal prospects are deemed advisable by good judges, why not push ours to completion?—*Coal Trade Journal.*

National Railroad Company.

The charter of the National Railroad Company, which was incorporated by the act of 1872, chapter 878, and numbered among its incorporators Henry D. Cooke, of Jay Cooke & Co., and A. R. Sheppard, of Washington, D. C., having lapsed through failure of the company to comply with some of the conditions of the act, Senator Brewer has obtained leave to introduce a bill into the Maryland Legislature to revive it. The act of 1872 provided for the road to run between Washington and Harrisburg, through or near Brookville, Montgomery county. The new charter will provide that the road may connect with any roads in Pennsylvania, not giving it any specific terminus. It is said the intention is to connect it with the Frederick and Pennsylvania Line Railroad running from Frederick to Littlestown, and also to connect it with the contemplated Harrisburg and Potomac Railroad.

☞ A decision was rendered in favor of the Westinghouse air brake patents, in the U. S. Circuit Court at Cleveland, Ohio, on the 5th inst., by Judge Weller. The Judge sustained the validity of the Westinghouse patents on all the claims, twelve in number, against the Gardner & Ransom Air Brake Company, holding that the defendants had infringed on the claim, and he ordered an injunction and account. Justice Swayne concurred in the decision.

☞ The value of articles exported from Philadelphia during the month of January amounted to $3,495,484, an increase of $1,849,391 over the value of the shipments during January, 1875. Among the principal articles shipped were 4,206,069 gallons petroleum, 2,800,294 pounds cotton, 2,341,175 do. oil cake, 5,894,382 do. bacon and hams, 1,751,075 do. lard, 1,229,071 do. tallow, 237,506 do. tobacco leaf, 137,125 bushels wheat, and 849,673 do. of corn.

☞ It is expected that the Scioto Valley Railroad will be in running order to Circleville, Ohio, on the first day of March.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "§."

American Railroad Journal.

Saturday, February 12, 1876.

Financial and Commercial Affairs.

Money has been fairly active through the week. The most urgent inquiry has been from speculative sources. All the prominent street houses, however, have had their wants promptly provided for at the ruling figures, which, for call loans, have been from 3@5 per cent per annum. The demand for discount accommodation has been comparatively moderate for the season, and the best grades of business paper have been quoted at from 5@8 mostly at 5½@7 per cent per annum. The City banks have augmented their loans and discount averages, while also reporting an important addition to their deposit line, and a considerable increase in their specie hoard. The legal tender average fell off, while the circulation was contracted. Both the coin and currency reserves of the U. S. Sub Treasury were reduced during the week. National Bank notes were redeemed last week to the amount of $3,731,000. The City Banks have had their deposits augmented $4,485,200; and their legal tender reserve reduced $673,800. The specie average has been enlarged $1,089,100. The loan and discount item was increased $3,860,140. The circulation was diminished $308,000. The U. S. Sub Treasury in this city closed the week with a currency balance of $37,529,240 against $37,74[illegible],371 the preceding week; and a coin hoard of $46,654,521, against $47,361,153 on the previous return. The City bank exchanges in currency reached $445,259,709, or a daily average of $74,209,951. The customs revenue of the port during the week was $2,152,807. The City banks reported their average of gold last week at $23,570,800, and their green-

back average at $47,356,200. Their deposits stood at $224,509,100. The loan item was $266,067,400. The circulation was $17,449,300.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $14,799,725.

The aggregate of the outstanding U. S. currency, of all denominations, February 1st was $417,205,989. The outstanding amount of legal tender notes is $371,273,140. The National bank circulation is now $342,809,036, including $2,100,085 of national gold bank notes.

The specie shipments from San Francisco, January 1 to Jan. 27th, were $2,066,860, against $1,424,902 same time in 1875. The overland shipments of coin to New York from Jan. 1st to 27th were $1,160,570.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $11,532,844; special deposit of legal tenders for the redemption of certificates of deposit, $41,790,000; Coin, $72,511,357; Coin certificates, $34,698,900.

The week's imports of Dry Goods at New York were $6,756,290, including $2,488,020 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 70 millions; and from Customs, 91 millions.

Gold has been less active, and at the close weak and irregular as to price. The speculative demand has been less confident. A moderate inquiry has been noted for Custom House purposes with a light export movement. The extremes of the price during the week have been 112⅝@113, closing on Wednesday at 112⅞ as against 113⅛, on Wednesday of the preceding week. The specie outflow last week was $387,746 against $426,167 the previous week. The imports of specie at this port last week were $712, and since January 1, $394,411, as against $146,463 same time last year. The customs demand for gold last week averaged $346,833 per day. Foreign Exchange has been moderately active, closing generally steady. Bankers' sixty day bills on London closed on Wednesday at $4 85½@$4 86; sight bills on London at $4 89½@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,557,375. The week's imports of Dry Goods and general merchandise were to the specie value of $6,756,290 as against $5,926,495 the corresponding week of 1875.

Government Securities have varied in price with gold, and have been offered with more freedom, (chiefly on foreign account) through the week, but the home investment demand has been quite active at the ruling figures, and at the close, the market showed more steadiness. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $361,033,462.

U. S sixes of 1881 closed on Wednesday of this week at 122⅝@122⅞; U. S. Five-Twenties of 1864, at 114⅜@114⅝; U. S. Five-Twenties of 1865, 117¾@118; U. S. Five-Twenties of 1865, consolidated, 119⅜@119⅝; U. S. Five-Twenties of 1867, 121⅝@121⅞; U. S. Five-Twenties of 1868, 123¼@123½; U. S. Ten-Forties at 119⅞@120⅛; U. S. Fives of 1881, (Funding Loan) 117⅝@117⅞; Six per cent. currency Sixes, 125⅛@125⅜.

State and Railway bonds have been in fair request, and have been quoted generally quite firm in price. And in the line of Railway and Miscellaneous share property a moderately active movement has been reported through the week at variable places, closing generally more steady.

General business has been on a moderate scale. Domestic Produce has been selling to a fair extent in the leading instances, but prices have shown considerable irregularity. Breadstuffs, Provisions, and Cotton closed more firmly. Foreign merchandise, has been in less demand, but not altered much as to values. The Metal trade has been dull. Eglinton Pig Iron quoted here at $29 50@$30; Glengarnock $31@$32; Coltness $33; No. 1 American Pig at $23@$24; No. 2 do. at $21@$22; Forge, $16@$20; English Rails (in bond) $35@$36 gold; American Rails at works, $45@$48; Old Rails $20@$22. Wrought Scrap, $30@$31. Ocean freights have been comparatively slow, at variable rates, closing for Cotton, Flour, Grain, and Provisions with more firmness.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Rome, Watertown and Ogdensburg 7s, consol., 93½; Central Pacific 6s, Land Grant, 98⅜; Dubuque and Sioux City R. R., 78; do. 1st mort. 2d div., 106; Chicago and Northwestern Interest bonds, 104; Lehigh and Wilkesbarre 7s, consol., 99½; Morris and Essex 7s, Construction, 101½; East Tennessee, Virginia and Georgia 1st mort., 98½; Canada Southern 1st mort., coupon on, 70; do. with interest certificate, 69½; United States 5-20s, coupon, called bonds, 114½; Buffalo and Erie 7s, new, 104½; Chicago, Rock Island and Pacific 6s, S. F., 99; Cedar Falls and Minnesota 1st mort., 85; Indianapolis, Bloomington and Western 1st mort., 30; do. 2d mort., 11; Hannibal and Central Missouri 1st mort., 81; South Pacific Railroad of Missouri 6s, 67; Toledo, Peoria and Warsaw 2d mort., 37; do. 7s consol., 40; Chesapeake and Ohio 1st mort., coupon on, 31; Toledo, Canada Southern and Detroit 1st mort., 58; Delaware and Hudson Canal reg. 7s, 1877, 102; Long Island R. R. 1st mort., 101½; Missouri, Kansas and Texas R. R., 8; New Jersey Southern R. R., 1⅞; Belleville and Southern Illinois pref., 19; Tennessee 6s, 46; do new, 44½; do. new series, 44¼; Missouri 6s, long bonds, 102⅝; do. 6, 1877, 100¾; North Carolina 6s, special tax, 1st class, 3½; do. 6s, old, Jan. and July, 17½; New York State 7s, Bounty Loan, reg., 104½; do. coupon, 104½; Virginia 6s, consol., 2d series, 45; Arkansas 6s, Fund act, 45; Canton Co., 46; Spring Mt. Coal, 64. The latest quotations are: Pacific Mail 35¼@35½; Western Union Telegraph, 77⅛@77¼; Atlantic and Pacific Tel., 20¼@20½; Quicksilver Mining 17@18; do. pref., 20@23; Mariposa Land and Mining, 8½@9; do. pref., 8¾@10½; Adams Exp., 109¼@109¾; American Exp., 63@63½; U. S. Express, 68¼@68½; Wells-Fargo Express, 87@87½; Chicago and Alton, 103¾@104¼; Cleveland and Pittsburg, 95@95¼; Chicago and Northwestern, 41½@42; do. pref., 63@63¼; Chicago Rock Island and Pacific, 108⅜@109; Chicago, Milwaukee and St. Paul, 42⅝@42¾; do. pref., 79⅛@79¼; Cleveland, Columbus, Cincinnati and Indianapolis, 55½@56; Columbus, Chicago and Indiana Central, 5@5⅜; Delaware, Lackawanna and Western, 118⅞@119⅛; Erie, 15⅝@16¾; Hannibal and St. Joseph, 18@18¼; do., pref., 28¼@28½; Lake Shore and Michigan Southern, 65@65⅛; Michigan Central, 59½@59¾; New York and Harlem, 138@140; N. Y. Central and Hudson River, 112¾@113; Central of New Jersey 109¾@110; Ohio and Miss., 21⅝@21¾; Panama, 130@134½; Toledo, Wabash and Western, 6@6⅛; Pacific R. R. of Missouri, 13¾@14; Union Pacific, 68½@68¾; do. 1st mort., 104@104⅛; do. 7s, land grant, 101¼@101½; do. sinking fund 8s, 95¼@96; Central Pacific 6s, gold, 106¼@106⅜.

Philadelphia.—Allegheny Valley Income bonds, 58; Pennsylvania and New York 7s, 109; Northern Pacific 7.30s, 22½; Philadelphia and Reading 1848-'80, 103¼; Susquehanna Canal 6s, 77; Schuylkill Navigation 6s, 1895, 79; do. div. scrip, 94¼; Philadelphia and Reading Coal and Iron mort., 7s, 92; do. deben. 7s, 85; West Jersey 1st mort. 6s, 100; do. 7s, 108; Delaware and Bound Brook R. ☞ The Safe Deposit Company of New York give notice in another column that as an additional protection against loss by theft they have superadded the divice known at the Chronometer, or Time Lock, to their otherwise secure repository for the valuables of their customers.

Delaware and Bound Brook Railroad.

A statement of the leading items of the Delaware and Bound Brook Railroad Company was submitted to the Philadelphia Stock Exchange on the 5th inst., entered of record, and the stock and bonds were admitted to the stock list and are subject to call. From the facts and figures furnished the road runs from Yardleyville, on the Delaware river, to Bound Brook, on the Central Railroad of New Jersey, the whole length of the Bound Brook road being twenty-seven miles. The stock already issued is $1,000,000, and $500,000 more is authorized, making 1½ millions of capital. Of bonds, all of which are coupon and first mortgage, $1,000,000 have been issued and half a million more are authorized, making 1½ millions of bonded debt. If these figures are correct, says the Philadelphia *Ledger*, from which the above was obtained, there has already been expended by the company 2 millions of dollars, or a cost of over $74,000 per mile; and should, as is probable, the additional million of capital and bonds authorized be availed of, the total expenditure of 3 millions will equal $110,000 per mile of twenty-seven miles of road and equipments.

☞ The annual meeting of the Boston, Barre and Gardner Railroad was held at Worcester, Mass., on the 2d inst., when the following directors were chosen: Ginery Twichell, Stephen Salisbury, Calvin Foster, Wm. W. Rice, Lewis Barnard, Clark Jillson, Levi Heywood, Charles Heywood, Isaac N. Ross, Wm. H. Morse and Nelson D. White. The President, Hon. Ginery Twitchell, stated that the gross earnings of the road for the last three months exceeded those of the corresponding three months of the year previous by $1,270 50, while the expenses have not been as heavy. The extension has thus far cost $29,263 67. Land damages have not been paid as assessed, but the County Commissioners have been petitioned to that effect.

☞ The Cumberland *News* gives the particulars of the trial of a new invention called an "improved roll-train," which was patented in March, 1875, by Thomas R. Venners, Richard Rowley and Thomas Venners, of that city. It is claimed that this roll-train, besides doing the work of an ordinary rolling-mill, and doing it better, will roll tapered iron for railway frog-points and switch-tongues, or ship-knees—anything, in short, down to harrow teeth, and all of these of any size or degree of taper; it will also roll, with the grain of the metal, ship or boiler plates.

☞ At the annual meeting of the stockholders of the Providence and Worcester Railroad Company, held in Providence, R. I., on the 7th inst., the old Board of Directors was re-elected as follows: William S. Slater, Earl P. Mason, Paul Whitin, Isaac Davis, Henry Chapin, Gideon L. Spencer, Elijah C. Stoddard, Lyman A. Cook, Estus Lamb, John C. Whitin, James Y. Smith, George A. Leete, Eben B. Phillips, John R. Balch, and Moses B. I. Goddard.

☞ Work has been commenced near Frankfort, Ohio, on the Dayton and Southeastern Railroad. Two contracting firms are at work—one with six miles to build, and the other with ten.

☞ The iron Pantheon constructed at the Carr foundry, Trenton, N. J., for Port-au-Prince, was shipped to its destination last week. It filled nineteen cars, and included 385,997 pounds of cast iron, 20,065 of wrought iron, while the roof frame contained 18,790 pounds of cast and 5,515 of wrought iron, making a total of 430,367 pounds.

☞ The Brazil and River Plate *Mail* says that the Argentine Government has entered into a contract with Mr. Rogers for working the Aldine Railway, from Villa Maria to Rio Quinto, for a period of four years, at, for three years, 80 per cent of the gross revenue, and 75 per cent for the last 12 months.

Railway Postal Car Service.

THE GOVERNMENT FAST MAIL TRAIN.

POST OFFICE DEPARTMENT,
OFFICE GEN'L SUP'T RAILWAY MAIL SERVICE,
WASHINGTON, Jan. 29, 1876.

Hon. Marshall Jewell, Postmaster General:

SIR: Being about to retire from an office in which I have labored with earnest zeal and with such efficiency as I could command for many years I deem it but just that I should speak of some of the matters of which I have had charge, that the facts in relation thereto may go to the public, as it were, in an official character.

My predecessor in office, the lamented Col. Armstrong, was the originator of the railway postal car service in the United States, and from the date of the running of the first postal car to the time of his death gave all of his energies and all his fine executive talents to the firm establishment and extension of the system which he invented. That he thus conferred great benefits upon the country and largely increased the usefulness of the postal service, all men cheerfully agree.

Since my induction into office the policy so successfully inaugurated by my predecessor has been constantly pursued, and the postal car service extended and improved as much as practicable; so that whereas twelve years ago there was only a single postal car line of 140 miles in length, with one car running each way daily, there are now more than 40,000 miles upon which this service is daily performed in the United States, and 170,000 miles in route agent cars.

But the great extension of the system, and its great value to the public, are, I believe, universally conceded. For whatever I have been able to contribute thereto, by reason of my position as Superintendent, I am largely indebted to the generous manner in which I have generally been sustained by Congress, by the department, by the press, and by the public using the mails, and also by the intelligence and efficiency with which I have been supported by my assistants and the employes under the supervision of this office. I need say nothing more, therefore, upon the general subject of the postal car service.

There is one matter, however, with which I have been intimately connected, upon which I wish to say some few words. I refer to the "Fast Mail service;" and this because the facts in relation thereto have not been fully published in any official form, and are not correctly understood by many persons. "The Fast Mail train" has been called "a mere newspaper train," and has received other epithets which I need not mention. These things have brought about no little misapprehension as to the actual facts, which I regard it as my duty to correct. The best way to do this is by a plain statement of the facts. Inasmuch as the mails are carried at so much per ton per mile per year, (namely, $25 per ton for all above 5,000 pounds,) the element of weights does not enter into the cost of carriage whether the mails go ten, twenty-eight, or fifty miles an hour. The only items of increase are in the railway postal car service, for which the Government pays at the following rates per mile per annum:

	Per mile.
55 or 60-foot car, per annum	$50
50-foot car, per annum	40
45-foot car, per annum	30
40-foot car, per annum	25

—and in the additional clerical force necessary by the increase of mails concentrated on the fast line. The following figures will show the increase in each of these particulars:

The New York and Chicago line is via New York Central and Hudson River, and Lake Shore and Michigan Southern Railroads.

Cost of postal car service between New York and Buffalo, prior to Sept. 16, 1875	$24,450 00
For same service between Buffalo and Chicago, prior to Sept. 16, 1875	77,613 90
Total	$102,063 90
Present postal car service:	
Fast Mail train between New York and Chicago	$145,542 00
Local trains:	
Between New York and Buffalo	13,260 00
Between Buffalo and Chicago	32,138 00
Total	$190,940 00
Increase in cost of car service	88,876 10

The increase in the clerical force on the "Fast Mail" train since its inauguration, Sept. 16, 1875, is shown by the following:

Two head clerks, at $1,400	$2,800 00
Two clerks, at $1,200	2,400 00
Twenty one assistant clerks, at $1,000	21,000 00
Total	$26,200 00
Which, added to the increase on account of postal car service, makes a total increase on account of the "Fast Mail" train of	$115,076 10

But a great deal of this increase is apparent rather than real. The establishment of the "Fast Mail" made it practicable to reduce the number of postal cars, clerks, etc., on other lines, and the amount of this reduction is, therefore, justly to be taken from the expenses of the "Fast Mail."

The decrease in postal car service and clerical force already made or intended at an early day, for the reason that its continuance is rendered unnecessary by the superior accommodations supplied by the "Fast Mail" is as follows:

Discontinuance of eight lines of postal cars, costing for car service alone	$51,427 71
Discontinuance of salary for postal clerks on these lines in excess of those necessary for local service	46,400 00
Total decrease	$97,827 71
Deducting this decrease made practicable by the "Fast Mail" from the increase for the "Fast Train," ($115,076 10,) as above set forth, and we have a net increase of expense incurred by the establishment of the "Fast Mail" of only	$17,248 39

The amount of service performed on the "Fast Mail train" has been all the while very great. During the months of November and December last the clerks on this train distributed mail as follows:

Sacks of paper mail distributed	60,750
Packages of letter mail	303,136
Number of pieces of paper mail, allowing 200 pieces to each sack	12,150,000
Number of pieces of letter mail, allowing sixty pieces to each package	18,188,160
Number of pieces of paper mail distributed, Sundays included	202,500
Number of pieces of letter mail each day, Sundays included	303,136
Total number of pieces of mail distributed daily	505,636

But this is not all of the service performed by this Fast Mail Train. In addition to regular mail matter, the Fast Mail Train carries great quantities of what I may call "official matters." I here refer to stamps, stamped envelopes, and postal cards—the currency of the postal service. These Government stamps are made in New York, the envelopes at Hartford, Conn., and the postal cards at Springfield, Mass. A very great proportion of all used in the United States passes over the Fast Mail Train. For the small actual increase of less than $18,000 annually, as shown above, over the expense of the slow trains of former times, we we have an exclusively Government postal train, traveling 970 miles daily each way, absolutely controlled by the department, run at an extremely high rate of speed, reaching by its connections and ramifications, and directly benefiting 25,000,000 people, to whom it reduces the time for the receipt and dispatch of their mail from six to twenty-four hours, according to location. I regard the value of this service to the business and the intelligence of the country as inestimable. I think it would be cheap if it cost much more than it does. Its benefits are being more and more acknowledged every day. Those who would dispute them, understanding the facts, would dispute against the sun; and with them I have no argument. I cannot speak in too high praise of the manner in which the "Government Fast Mail Train" has from the beginning been managed. There is no mail train in the world comparable to it. The locomotives and cars, manufactured at great expense by the railway companies, are used exclusively for this purpose. I regard these trains and the fidelity and efficiency with which they are conducted as a magnificent contribution to the public service. Their regularity in time, notwithstanding their high rate of speed, is something wonderful. In all the trips thus far made there has been but one train behind time, and that only eleven minutes. So much is this splendid train regarded as exclusively under Government control, that no officer of the railroads, not even Mr. Vanderbilt himself, is permitted to ride on it without the proper authority from the Post Office Department.

Such are the particulars and general facts connected with the Government Fast Mail Train. I respectfully submit that they are creditable to the department and the country, and especially creditable to the railroad management.

The facts in regard to the limited mail train, which is also a fast train between New York and Pittsburg, Cincinnati and St. Louis are also interesting. This line is by the Pennsylvania Central, Pittsburg, Cincinnati and St. Louis, and Indianapolis, Vandalia and Terre Haute Railroads. The figures showing increase of expenses as compared with slow mails are as follows: Cost of postal car service prior to Sept. 16, 1875, between New York and Pittsburgh, there being none west of Pittsburg, $17,808.

Cost of present car service—	
Between New York and Philadelphia	$17,550
Between Philadelphia and Pittsburg	40,664
Between Pittsburg and Columbus	12,800
Between Columbus and Cincinnati	4,840
Between Cincinnati and St. Louis	17,056
Total	$92,910
Increase of clerical service:	
Between Philadelphia and Pittsburg—	
One head clerk	$1,400
Fourteen assistant clerks at $1,000	14,000
	$15,400
Between Pittsburg and Cincinnati—	
Seven clerks at $1,200	$8,400
Four assistant clerks at $1,000	4,000
	12,400
Between Pittsburg and St. Louis—	
Three head clerks at $1,400	$4,200
Five clerks at $1,200	6,000
Nine assistant clerks at $1,000	9,000
	19,200
Total	$47,000

But here, again, the increase of expense is by

no means so great as it would appear from these figures, and from the same reason as stated above as to the "Government Fast Mail Train," namely, because the establishment of these Fast Mail Trains renders unnecessary a considerable service which otherwise would have to be performed. The fact as to these lines discontinued, or to be discontinued, are as follows:

Cost of car service on such lines	$14,300
Decrease of cost of clerical force	28,400
Total decrease	$40,700

Let me here give a recapitulation of cost of service on the Pennsylvania Railroad, Pittsburg, Cincinnati and St. Louis and Indianapolis, Vandalia and Terre Haute Railroads:

Cost of car service prior to Sept. 16, 1875	$17,808
Cost of present car service	92,910
Increase in cost of car service	$75,102
Increase in cost of clerical force	47,000
Total increase	$122,102
Decrease on other lines as above explained	40,700
Net increase	$81,402

Let me state a few other interesting facts connected with the "Fast Mail" service. The "Government Fast Mail Train" is made up of four postal cars, and runs daily between New York and Chicago, a distance of 970 miles—making 1,940 miles of daily service and 708,100 miles of annual service. This is equivalent to the service of one car (on the old style) of 7,762 miles daily, or 2,803,217 miles annually. Similar facts are true, of course, of the fast trains over the other lines, this service amounting in the aggregate to the equivalent of single-car service on 1,712,370 miles in a year. The grand total therefore, of service (single car) is 4,545,588 miles annually. This is the magnificent contribution made by the "Fast Mail Trains" of the United States in aid of the quick dissemination of private information and public intelligence—the true object of the postal system.

I beg leave to say, in conclusion, that I am firmly convinced the Fast Mail Train was established none too soon. There may have been instances in the history of our country where private enterprise has beaten the Government in carrying mail matter; beaten it in time and in cheapness. At one time the American Express Company, from Bangor, in Maine, to Chicago, carried letters at one quarter the rate charged by the Government. A similar state of things existed for several years in that part of our country commonly called the "Pacific slope." The people are, in reality, very largely indebted to instances in which private enterprise beat the Government in carrying mail matter for cheap postage: and cheap postages are universally set down among the most valuable achievements of our Government. I know of nothing more surely calculated to maintain cheap postages on all legitimate mail matter, and in good time to reduce the rates still lower than the maintenance of a Government Fast Mail Train between the great distributing centres of the country. However this may be, it has already accomplised great good, and the continuance of the service in the same admirable manner in which it has thus far been constantly performed, must be regarded, I think, as a public necessity.

It may be said that I take a special interest in this matter because the "Fast Mail" was established during my Superintendency of the railway mail service. If any shall so think, to them I beg leave to say I may here, as in other things, have done less than my simple duty; by no possibility could I have done more. Very respectfully, &c.,

GEORGE S. BANGS.

☞ Hon. W. H. H. Bingham, of Stowe, and S. S. Thompson, of Lyndon Centre, Vt., have been appointed Receivers of the Montpelier and Wells River Railroad.

Messrs. Baring Brothers & Co.'s Circular.

We were informed by telegraph a few days since that Messrs. Baring Brothers & Co., of London, had announced by circular their intention to take up the interest bonds provided for at the meeting of the creditors of the Eastern Railroad Company, held in Boston on the 15th of January, and pay full interest on the £600,000 sterling bonds issued by them as usual on the 1st of March and the 1st of September, 1876. The firm having specially recommended these bonds as an investment to many persons, accept the moral responsibility, and agree to make the interest good for one year. This certainly indicates a sense of business honor which has always characterized the transactions of the house. The circular of Messrs. Baring Brothers & Co. is as follows:

A careful investigation by disinterested persons of the affairs of this railroad has resulted in proving that, owing to injudicious investments in land, and mismanagement in other respects, the Company is in serious temporary embarrassment, which will render it impossible for it to meet the payment of interest due to the bondholders during the current year.

It was unanimously resolved at a meeting of the Share and Bondholders, held at Boston on the 15th inst., to fund the coupons of the sterling bonds due on the 1st of March and 1st September next, and to issue Bonds for the amount.

Messrs. Baring Brothers & Co. having shared the general confidence reposed in the Company and its management to the extent of specially recommending the Sterling Bonds as an investment to many persons, beg to give notice that they will take up these Interest Bonds and pay the full interest on the Sterling Bonds (£600,000) issued by them, as usual on the 1st of March and 1st of September in the present year.

It was further resolved at the same meeting to apply to the Legislature of Massachusetts, now in session, for power to create a mortgage over the entire property of the Company with a view to further security, and if sanction is obtained, to issue mortgage bonds having thirty years to run, with coupons attached, for the payment of interest at the rate of 3½ per cent for the first three years of their currency (1877, 1878 and 1879), and 4½ per cent. for the succeeding three years of their currency (1880, 1881 and 1882), and 6 per cent thereafter. As soon as the mortgage bonds are issued the bondholders will be requested to exchange the existing bonds for these mortgage bonds.

If the above arrangements are sanctioned by the Legislature, Messrs. Baring Bros. & Co., will also pay, on presentation of the new coupons, during the first three years of the currency of such mortgage bonds, the further interest of 2½ per cent, and for the next succeeding three years of the currency of such mortgage bonds the further interest of 1½ per cent to the holders of the mortgage bonds taken in exchange for the sterling bonds issued by them.

As the new bonds will thus be secured over the entire property of the Company, which is not the case with the existing bonds; and as the road and rolling stock are reported to be in excellent condition; and as under altered management proper economy will be enforced, there is every reason to believe that the present embarrassment will be only temporary, and that the principal moneys due to the Bondholders will be amply secured.

8 Bishopsgate Street, London, Jan., 1876.

☞ At a meeting of the stockholders of the James River and Kanawha Canal, held at Richmond, Va., on the 4th inst., a resolution was adopted in favor of extending the canal from Buchanan to Clifton Forge.

Oxford and Peach Bottom Railroad.

At the annual meeting of the stockholders of this company held at Peach Bottom, Penn., on the 10th ult., S. G. Boyd was re-elected President, with the following Board of Directors: Samuel Dickey, J. A. Alexander, R. B. Patterson, J. P. Ambler, Isaac Bradley, C. H. Stubbs, Wm. Wallace, A. C. Manifold, M. Schall, Z. K. Loucks, C. R. McConckey, and J. Humphreys. The report of the President, which was presented, represents the road as being in a very flourishing condition. In speaking of the "middle division," or that part of the road west of the Susquehanna, extending from York, he stated that 31 miles of track are laid, leaving but 4 miles of track to lay between York and Delta. That will be completed about the first of April. The rolling stock of this division consists of 2 locomotives, 4 passenger coaches, and 24 freight cars. During the year ending December 31st, 1875, 44,791 passengers were carried, making a total, since the road has been in operation, of 71,273 persons who traveled on this division. The road has been greatly improved during the year. Not only has the track been put in good order, but cuts and embankments have been widened, and other permanent improvements made. During the past month or two the expenses have been greatly reduced by discharging the greater number of repair hands on the road.

The road generally is worked on a most economical plan. The general management of the road, and the business connected with it, is all done by the president, Mr. Boyd, who acts in the capacity of general superintendent, general freight agent, and purchasing agent; Mr. Wallace, secretary, acts as treasurer, holding the position of assistant treasurer, as freight agent, general ticket agent, and general book-keeper. Mr. Z. K. Loucks, the auditor and financial agent of the road, attends to all the business of the road in connection with his department himself, and otherwise renders invaluable aid in the general management of the road.

☞ Mr. T. Appleton, a civil engineer of Boston, has offered to build the Messalonskee and Kennebec Railroad from Augusta to West Waterville, Me., and complete it ready for the rolling stock for $12,000 per mile. The maximum grade to be 80 feet per mile, and the maximum radius of curvature 573 feet; the rails to weigh 40 pounds per yard. The Railroad Company to pay all land damages and to erect the stations and other buildings. This would require the raising of $250,000 along the line of the road.

☞ Gen. P. Pease has been appointed General Superintendent of the Indianapolis, Bloomington and Western Railroad, with headquarters at Indianapolis; A. H. Wood, Assistant General Superintendent, with office in Urbana, Illinois; J. F. Richardson, Superintendent of Construction, and E. P. Miller, Purchasing Agent, with offices at Indianapolis.

☞ The gauge of the Atlantic and North Carolina Railroad has been changed from Goldsboro' to Morehead City, N. C., making a uniform gauge of five feet on all connecting points east of the Mississippi.

Imports of Dry Goods at New York.

The imports of foreign dry goods at New York for the month of January, were:

☞ The approximate earnings of the Marietta and Cincinnati Railroad for the month of January, 1876, were $167,256, against $152,805 for the month of January, 1875, an increase of $14,451.

☞ The Lehigh Valley Railroad Company are surveying a route for a new railway from Elmira to Geneva, via Watkins, along the east shore of Seneca Lake.

☞ At the annual meeting of the Framingham and Lowell Railroad Corporation, held at South Framingham, Mass., on the 3d inst, the following gentlemen were elected Directors: E. P. Carpenter, Harrison Bliss, Hiram A. Blood, Geo. A. Torrey, S. H. Howe, Lyman Nichols, P. B. Brigham, Ralph Warner, Daniel Wetherbee, James W. Clark, William F. Ellis, Edward Hastings, S. B. Rogers. The gross earnings for the year ending September 30, 1875, were $108,468 70, being a slight increase over the year previous.

☞ Judge Drummond, of the United States Circuit Court at Chicago, has denied the motion for a receiver of the Chicago and Illinois River Railroad Company pending litigation, on the ground that the property is in the possession of the Chicago and Alton railroad Company, which is perfectly responsible.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

DELAFIELD & BAXTER
CEMENT COMPANY,
MANUFACTURERS OF HIGH FALLS
ROSENDALE CEMENT

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average **300 lbs.** Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.

LAWRENCEVILLE
CEMENT COMPANY.
ROSENDALE
HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York. This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

The Coal Trade.

The Philadelphia *Ledger* of February 7th says: The trade for the week ending on the 29th ult., increased a little. The quantity sent from all the regions of which we have report is 322,799 tons anthracite, against 138,785 tons for the corresponding period of last year, showing an increase of 184,014 tons. The total amount of anthracite sent for the year is 1,634,809 tons, against 1,226,332 for same period last year, an increase of 408,477 tons. The quantity of bituminous coal sent to market for the week was 47,720 tons, against 40,845 tons for corresponding week last year, an increase of 6,875 tons. The whole bituminous tonnage from the beginning of the coal year to the 29th ult., is 215,209 tons, against 166,153 tons in corresponding time last year, an increase of 49,056 tons. At Port Richmond for the week ending the 5th inst., there were receipts of 11,000 tons of coal and shipments of 5,000 tons, leaving 149,000 tons on hand. The receipts of coal at Perth Amboy for the week ending on the 29th ultimo were 1,876 tons; total received during the season, 90,749 tons; shipments for the week, 2,477 tons; total shipments for the season 51,208 tons; leaving on hand 98,924 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last week was 81,769 tons, 65,271 tons of which was coal and 16,498 tons coke. The total carried this year is 212 537 tons, of which 169,694 is coal and 42,843 coke. These figures embrace all the coal and coke carried over the road east and west.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

Erie Railway.

The report of Hon. Hugh J. Jewett, receiver of the Erie Railway Company, as examined and passed upon by James C. Spencer, the referee, was filed with the County Clerk on the 10th inst. The referee makes the following statements: First—that the balance of money accounted for by the receiver as being in his possession on the 13th of November 1875, and carried to his debt on December 1, was $518,171 62. The aggregate accounted for by the receiver on the 1st of December, and received by him during that month, was $2,824,189 05; aggregate amount disbursed by the receiver during December, $2,432,621 80; balance carried to his debt January 1st, 1876, $391,567 25; actual balance in his hands January 1 advanced by the receiver, $148,035 37, after deducting payments as claimed by the receiver. Aggregate amount of certificates of indebtedness and notes issued by the receiver to December 1, $1,536,539 40, none of which were issued since September; aggregate of the certificates and notes that have been paid and cancelled by the receiver to December 1, $930,000; aggregate outstanding December 31, $606,530 40. The report shows the following as the operations of the road during December:

RECEIPTS.

Balance per last account	$518,171 62
Transportation receipts, freight	1,885,862 32
Transportation receipts, passengers	298,642 55
Transportation receipts, mail	452 57
Transportation receipts, telegraph	2,772 99
Train service	32,387 27
Old and surplus material	8,447 34
Interest on securities	20,541 50
Trackage	2,407 97
Other items	802 64
Total receipts	$2,770,488 77

PAYMENTS.

Traffic balances, passenger	$81,205 30
Traffic balances, freight	463,446 80
Drawbacks and overcharges	106,397 52
Line labor rates	610,513 95
General office rates	24,841 82
Other items	1,092,516 63
Total payments	$2,878,921 52
Balance of receipts over payments	$391,567 25

Wisconsin Railroad Legislation.

We learn from Milwaukee that the bill repealing the Potter law passed the Wisconsin Assembly on the 14th inst. by a vote of 56 to 30. This action is indicative of an important change of public sentiment in regard to attempts to regulate by the Legislature the charges of railway companies not owned by the State, for passenger and freight transportation. It is known that the Senate of Wisconsin will vote in the same way, and therefore the law goes by the board, as the result of experience. As showing how completely the law has failed to meet the expectations of its framers, the Chicago *Tribune* says:

The people who demanded its passage, and were even fanatical in that demand, have now, after two or three years' opportunity to witness the effects of its operation, found that it has been of no benefit to the State, but, on the other hand, has retarded its progress. They have found that it has not enriched either the farmers or the merchants—in fact, that no one has profited by it. They have found that freights have not been cheapened, as they expected; that stockholders have been discouraged and railroads have been placed in a position where they could not pay dividends, or, substantially, have been bankrupted; that the law has depressed the value of products, and stopped railroad building; that no new roads have been constructed, no steel rails have been substituted for iron, no improvements have been made; that thousands of men formerly engaged in railroad extensions have been thrown out of work; and that foreign capital has been stopped from coming into the State. The politicians have been ready to repeal the law for some time, but were afraid of the Grangers, but at last the popular pressure has become so strong that this unjust law is now on its road to repeal. It has had a fair trial, and its results are painfully apparent. Its repeal will lift a load off the people of Wisconsin, and give railroad developments and extension and the general production of the State fresh and healthy impulse.

Virginia State Debt.

The Second Auditor of the State of Virginia, in compliance with a resolution of the Senate, has communicated to that body a statement of the condition of the State debt. He reports as follows:

1. What amount of the bonds of the State appear by the books of his office not to have had interest paid on them since January, 1865, showing the aggregate amount of such bonds and the aggregate amount of interest due on them up to and including July 1st, 1871?

Answer—Of registered bonds, $99,839 89; of coupon bonds, estimated upon amount of interest unpaid, $235,800. Total, $335,639 89. The interest on the above bonds, at six per cent per annum, from 1st January, 1865, to 1st July, 1871, is $130,899 55.

2. What amount of interest has been paid on the unfunded debt for the years 1872, 1873, and 1874, and if any portion of the unfunded debt is held by schools and colleges, that he report such amount and the interest paid thereon, and rate of interest so paid, separately, for each of the above years?

Answer—There was paid for the year 1872 four per cent on two-thirds of the face amount of the unfunded debt, $34,554 89; 1873, ditto on six per cent debt, and three and one third per cent ditto on five per cent debt, $71,446 28; 1874, ditto, ditto, $112,457 86. Besides this there was paid to colleges, as prescribed by law, interest at the rate of six per cent per annum on the face amount of the unfunded debt held by them in the year 1872, on $516 928 42, including arrears, $31,845 86; 1873, on $725,096 42, on part only for a portion of the year, $38,307 74; 1874, on $725,096 42, including arrears, $43,766 78.

3. What amount of interest on the public debt was uncalled for during each year, from 1851 to 1860, both inclusive, being interest falling due during each of those years?

Answer—The interest due and unpaid for the several years, including arrears, has been as follows: For the year 1851 $64,337 17, 1852 $96,340 95, 1853 $27,176 68, 1854 28,209 07, 1855

$26,927 80, 1856 $42,576 47, 1857 $65,155 13, 1858 $56,716 97, 1859 $67,308 76, 1860 $51,947,-69—total, $526,696 69.

Louisville, Nashville and Great Southern Railroad.

President Staniford has made an informal report in reference to the condition and working of the road for the first six months of the current fiscal year, and appends a statement which shows the gross earnings, expenses and net earnings for that period, as compared with the corresponding six months of last year, and which also shows the same comparison for October, November and December of the same years. He says:

While there has been a decrease in the gross earnings of $57,506, there has been a decrease in the expenses of $202,110, and an increase in the net earnings of $144,604, showing a percentage of expenses to gross earnings of 59 per cent for the past six months against 65.70 per cent last year. In consequence of the almost unprecedented floods of July and August, which had so depressing an effect on business generally, and especially on railroad traffic throughout the entire country, we had to contend with the fact, and which has hardly ever been known before, that the navigable streams were during these months in a good stage of water, permitting steamboats to compete with and compelling us to carry freight at low rates, thus further seriously diminishing our income. The large increase in the net earnings is due, in part, to the great reduction that has been made in the expenses under the present management. Up to October there was a falling off in gross receipts, as compared with last year; but since that time our business has steadily increased, and is largely in excess of last year. We are now earning not only enough to pay operating expenses and interest, but are accumulating a surplus, and this is the result of a steadily increasing legitimate business. We have every reason to congratulate ourselves upon our present financial condition, and the prospect before us, and I have no hesitation in saying that, unless some unforeseen misfortune happens, we will soon be able to pay dividends again. Our road-bed, machinery, rolling stock and everything connected with the road is in first-class condition, and not excelled by any line in the country. The employes of the road are courteous and obliging, and perfect discipline insisted upon and maintained by the heads of the departments; in fact, we have everything to insure speed, safety and comfort to travelers, and promptness in carrying and delivering freight. Our general officers are careful, experienced and competent railroad men, whose interests center in our road, and who are working to build and keep it up.

I feel especially gratified to report a growing sentiment of friendship for the road by the people along the line, and of business men generally, who are its patrons. Very many who, six months ago, were hostile, are now our warmest friends, and we have lost nothing in gaining this sentiment, it having been the result of the conservative and equitable policy which the present management adopted immediately after its inauguration. I am determined as long as I am connected with the road to carry out this policy, because I believe it to be the true one to gain success. I desire to thank the patrons of the road for the uniform good will with which they have met every effort on my part to build up the interests of the road, and I have no doubt, if we continue to work harmoniously, our best hopes will be realized. Respectfully,

E. D. STANIFORD, President.

The following is a statement of the gross earnings, running expenses and net earnings of the Louisville and Nashville Railroad Co., including Nashville and Decatur and South and North Alabama Railroads, for the six months from July 1 to Dec. 31, 1875, and a comparison with the corresponding six months of 1874:

Six months.	Earnings.	Expenses.
*July to Dec., 1875.....	$2,564,026	$1,520,275
July to Dec., 1874.....	2,621,532	1,722,385
Decrease.....	$57,506	$202,110
		Percentage run'g exp. to earn'gs.
	Net.	
*July to Dec., 1875.....	$1,043,751	59.00
July to Dec., 1874.....	899,147	65.70
Increase.....	$144,604	Dec. 6.70

*December, 1875, estimated.

The interest on the bonded and floating debt of the same roads, including guaranteed interest, and the October, 1875, dividend on the Nashville and Decatur Railroad stock for same six months amounted to $910,000, showing a net surplus over running expenses and interest of $133,751.

The earnings, expenses and net earnings for October, November and December—

	Earnings.	Expenses.	Net.
1875.....	$1,458,000	$807,000	$651,000
1874.....	1,426,000	866,000	560,000

W. RANNEY, Secretary.

Louisville, Ky., Jan. 25, 1876.

West Jersey Railroad.

From the report of the West Jersey Railroad Company, presented at the annual meeting of the stockholders held in Camden, N. J., on the 8th inst., we learn that the gross earnings during the past year were $659,709, the gross expenses $366,509, and the net earnings $292,287. In 1874 the net earnings were $185,700, showing an increase in 1875 of $107,587. The usual spring dividend will be passed, and the money acquired from the gross earnings used for the purpose of building a new and handsome depot at Cape Island City and relaying forty-one miles of road with new rails between Millville and Cape Island. All the floating debt of the road has been paid, and the corporation is reported in a prosperous condition.

An Important Railroad Movement.

Arrangements have been completed for running a new line of express trains between Boston, Philadelphia, and Washington without change of cars, to go into effect on or about April 3. The morning express will leave Boston at 9 o'clock, and reach Philadelphia at 9 P. M. The evening express will leave Boston at 9 o'clock and reach Philadelphia about 8 o'clock the following morning. The trains will leave Boston via the New York and New England Railroad—formerly known as the Boston, Hartford and Erie—and connect with the Hartford, Providence and Fishkill Railroad at Willimantic; thence by the latter road to Hartford; thence by the New York, New Haven and Hartford Railroad to New Rochelle; thence by the Harlem River Branch of the New Haven Railroad to the Harlem River, thence by the steamer Maryland—which is provided with tracks for the accommodation of trains—down the Harlem and East Rivers, around the Battery and across the North River to the depot of the Pennsylvania Railroad at Jersey City, thence by the Pennsylvania Railroad to Philadelphia and Washington. The running time between Boston and Philadelphia will be between eleven and twelve hours, without change of cars, while the delays, inconveniences, and extortions on the part of cabmen, to which passengers are subjected while on their way from the Grand Central Depot to Jersey City with their baggage, will be entirely obviated on the new route. Passengers will be ticketed and their baggage checked through between Boston and Philadelphia, Baltimore, or Washington. Each train will have its Pullman drawing-room or sleeping cars for those who may desire such accommodations. The trip of the steamer Maryland between the Harlem River and Jersey City will occupy about forty-five minutes, and on the upper deck there will be a first-class restaurant. Cars are now being built expressly to run through on the new route. They will be the first passenger coaches ever run between New England and Philadelphia.

New Orleans, St. Louis and Chicago R. R.

LATE THE NEW ORLEANS, JACKSON AND GREAT NORTHERN RAILROAD AND MISSISSIPPI CENTRAL RAILROAD.

The directors, in making their first report for the entire line, from Cairo to New Orleans, under one organization, submit the following exhibits for the fiscal year ending June 30, 1875, in comparison with the business in the calendar year 1873:

Receipts:	1873.	1874-'75.
Passengers.....	$880,586 71	$767,070 45
Freight.....	2,162,307 01	2,228,566 56
U. S. Mails.....	90,612 34	109,809 92
Express.....	45,600 00	55,466 67
Privileges.....	53,053 63	17,123 93
Other sources.....	.....	6,283 12
	$3,232,159 89	$3,184,320 65
Gross expenses.....	1,671,135 09	1,820,377 49
Net profits.....	$1,561,024 60	$1,363,943 16
Interest on bonded debt.....	$1,235,457 41	
Taxes, law expenses, etc.....	279,676 61	
		1,515,134 02
Deficit.....		$151,190 86

The gross expenses, including renewals, taxes, etc., for the year 1873, were 51.70 per cent of gross receipts; for 1874-'75, 57.16 per cent. The report says:

Besides the general stagnation of business throughout the country, this company had, on the very threshold of their fiscal year, a badly damaged roadway of about 27 miles, broken by crevasse in the banks of the Mississippi River.

Your property having suffered badly by two crevasses in three years, your board decided to overcome the liability of the company to such contingencies in the future. As the levees of the Mississippi River in Louisiana are now managed, crevasses are likely to occur every year. The only practicable plan was to raise the road bed through the country affected by crevasse, some twenty odd miles, from one to ten feet, with openings sufficient to discharge all the water that could reasonably be expected would be thrown upon the track by the breaking of the river banks or levees. Contracts were at once made with responsible parties to do all the work required, and the track has been raised, and some 15,000 lineal feet of bridging constructed. The work has been well done, and has proved a great success, fully meeting our best expectations.

The extraordinary losses of the past year by crevasse and floods must be provided for by new loans. The depression of trade and the loss of business, following as a consequence, make your earnings inadequate to pay the floating debt thus created. Besides this demand, you will need money to buy more new rails and equipment for the coming year. We have been assured of sufficient help by prominent representatives of the Illinois Central Railroad Company, conditioned that we arrange for the retirement of income and equipment bonds of the Mississippi Central Railroad Company, a large portion of which are held

by the Pennsylvania Railroad Company, substituting therefor series B of like amount, being the second series of $25,000,000 mortgage already authorized by your board to be issued. Series A of this mortgage covers all the other bonded indebtedness of the road, and provides a surplus of $4,000,000 in class A bonds, to be used for the payment of the floating debt, and improving your property.

BALANCE SHEET, June 30, 1875.

Construction and equipment		$32,598,667 07

Accrued 3¼ mos.	1,750	
	6,000	
		175,916 00
Net income above operating expenses and rents		$566,186 71
Interest paid during the year, including interest accrued and unpaid Dec. 1, 1874		956,230 47
Balance for the year (deficit)		$390,043 76

The interest accrued to December 1, 1875, and payable thereafter, amounted to $248,260 40.

The report says:

The peculiar circumstances under which this annual report is made seem to require a somewhat fuller presentment than is usual of the facts and events that have been influential in the history of the road in shaping the character of its progress.

You will be gratified, if candid inquiry shall satisfy you that all which gives anxiety in the present state of our affairs is largely the result of enterprises and adventures honestly undertaken and prosecuted. If hopes too glowing, ambitions too ardent and judgments too hasty, shall be found to be the only wrongs, you will feel the greater courage and confidence to deal successfully with the issues that are to-day pressing for your determination.

It is our duty to present to you the whole matter, plainly, fully and truthfully; it is yours to judge and to act.

Here follows a statement of the history of the road from the date of its incorporation, April 14, 1836, to the close of its financial year, November 30, 1874. The report continues:

Such is the recital, in brief, of the more important facts in the financial history of this road. It has cost no ordinary amount of labor to collect and verify them; and if some errors have crept into the statement they are not of sufficient importance to affect the conclusions to which we should otherwise arrive. It is but just to say that it has not been our purpose to impugn the wisdom of the past management of the road, nor to reflect in any way upon individuals. But we have felt it to be our duty to go where the facts should lead us, and to speak frankly, making no concealments; not unaware at the same time that in so doing we may be violating some very respectable canons of railroad management. It is above all things necessary at this time that we should come to a clear understanding of our situation; for we can best devise a remedy for existing evils after we have squarely looked them in the face. A careful consideration of the foregoing statements will, it is believed, furnish the stockholders with much needed information as to the causes of our present embarrassments.

At the annual meeting of the stockholders of this company, held Feb. 1, 1875, a vote was passed ratifying a Funded Debt Loan of $2,000,000, payable Nov. 1, 1884, with interest payable semi-annually at seven per cent per annum. The contract with Richardson, Hill & Co., for placing this loan, dated Jan. 20, 1875, had already been perfected by the President, acting for the road, under authority given him by a vote of the Board of Directors, dated Jan. 30, 1875. Under the terms of the contract, Richardson, Hill & Co. took the whole loan, and paid the company therefor eighty-five cents on the dollar; in other words, $1,700,000. The avails of the loan were paid into the treasury of the corporation, and appear to have been applied to the liquidation of bills and claims presented for payment, as follows:

5762 shares of the stock of the Maine Central Railroad Company, purchased the year previous under an existing contract	$360,642 50
Austin street estates, construction	272,000 00
Bills audited, chiefly construction	212,167 69
Floating debt, incurred in construction	855,189 81
	$1,700,000 00

In June, individual members of the Board, the earnings of the road not coming up to the expectations which the General Manager of the road had led them to entertain, began to institute inquiries into the details of the management of the road. A growing feeling of doubt and dissatisfaction arose, and led finally to the appointment of a Committee of Examination into the affairs of the road, with a view to the suggestion of any reforms that might appear desirable. In the pursuit of their inquiries, the committee soon found so wide a field of operation in the general looseness and unsoundness apparent in the affairs and management of the road that they were early convinced that thorough investigation into the financial condition of the company was a matter of duty and necessity. The Investigating Committee submitted a partial report to the Board of Directors, under date of Sept. 22, 1875, and showed by indisputable facts and figures the precarious condition of the road, and predicted that the net income of the year would be insufficient to meet the annual rents and interest by about $400,000.

The Directors at first hoped that by a thorough reform of the management of the road, and by the infusion of economy into every detail of its service, the road might in another year be put into such condition as would satisfy its creditors of its prospective ability to meet its obligations—a hope which subsequent investigation failed to support. The facts brought to light by the Investigating Committee early reached the public ear; and this information, together with unfounded rumors of defalcations and over-issues of bonds, had utterly annihilated the credit of the company. Claims fast maturing under the temporary loan, amounting to more than $1,700,000, must be met; the debts incurred for the operating expenses of the road had unfortunately been allowed to accumulate until their aggregate amounted to more than $350,000; and the holders of these demands, mostly for small sums, were clamorous for payment. With no source of relief, save the earnings

of the road from day to day, the prospect was truly appalling.

The illness of the President at this time threw an additional load of labor and responsibility upon his colleagues, and resulted in his resignation on the 23d of October. His successor was elected on the same day.

Efforts were redoubled to secure a promise of renewal from the holders of the notes constituting the temporary loan. They were frankly informed of the critical situation of the company, and of its present inability to meet its obligation. Recognizing the character of the emergency, these creditors, with wise leniency, entered into an arrangement to renew the notes from time to time, for a period not less in all than one year. For their conduct in this matter the thanks of the company are due to them. The fears entertained by the numerous holders of small demands against the corporation were in time allayed with the assurance that measures were in progress to save the affairs of the road from bankruptcy, and that all debts necessarily incurred in the actual operation of the road would be paid as rapidly as the current receipts of the road would permit. This promise has been faithfully kept, and no difficulty is experienced in purchasing all necessary supplies.

We can give assurance that no effort is now being spared to reduce the expenditures of the road in all its departments. Attention was first given to the salaries of the officers. The President's salary has been reduced from $20,000 to $5,000. and the Superintendent's from $5,000 to $3,500. The office of General Manager has been abolished, effecting a saving of $10,000. The Engineer's department has also been abolished, with a saving of $3,740. In fact, retrenchment has been applied to the whole pay roll, reducing it for the past three months by the sum of $20,000 per month as compared with the pay roll of the corresponding months of last year.

	Oct.	Nov.	Dec.
Am't of pay roll, 1874..	$108,356.87	$99,212.38	$93,690.69
Am't of pay roll, 1875..	87,957.95	79,168.54	76,458.44
Reduction ...	$20,398.92	$20,043.84	$22,232.25

Average of the monthly pay rolls for the twelve months preceding October, 1875 ..... $97,083.07

Average of the monthly pay rolls for October, November and December, 1875 ..... 80,194.97

Average reduction $16,888.10

Although the same proportion of reduction is not likely to be carried through the busier months of the year, yet an approximate saving ought to be effected.

All works of construction have been suspended; and the construction account is virtually closed, only such expenditures being entered as have been already incurred. The expenses are limited to the actual necessities of the road; at the same time proper care is given to the maintenance of the road in its usual effective working condition.

The matter of insurance has been variously treated by the different governments which have administered the affairs of the corporation. Until the burning of the ferry-boat, by an incendiary fire, in 1846, no insurance had been purchased upon any of the property of the company. Upon the rebuilding of this boat, at an expense of $50,000, it was deemed advisable to have the boat insured, as it was feared that it might be subject to the fate of its predecessor. The policies were continued, and were the only insurance purchased till 1855. No loss occurred during that period.

On the accession of Mr. Howe to the presidency of the road in 1855, he determined, in view of the magnitude of the debt—which then amounted to nearly $3,000,000—that a portion of the property ought to be moderately covered by insurance. Insurance was accordingly effected to the amount of about $170,000 on engines, cars and buildings. This insurance was specific—so much on an engine, so much on a building, etc., and was effected to about one-third of their actual value. This policy prevailed until 1865, when, a loss having occurred, it was found impossible to recover but a small portion of the risks. Two companies failed, and a third resisted payment until compelled, by suit at law, to make settlement. We had expended $40,000 for insurance premiums, and, when the loss occurred, had been turned away indemnified only to a very small degree.

These experiences, coupled with the consideration that the property was varied in kind, dispersed in locality, largely unexposed, convinced the new government that it would be more economical for the corporation to do its own insurance. Soon after, an Insurance Fund was started to meet this line of policy. Four hundred dollars a month, or four thousand eight hundred dollars a year were charged off to a special insurance account, to be applied to the liquidation of all losses by fire, except only the "spark-risks," (so called) which have been charged to the general account of profit and loss. This insurance fund has continued till the present time, and it is now about three thousand dollars in debt. The practical result, therefore, is that we have paid for insurance, since 1865, about fifty-seven thousand dollars. In the present circumstances of the corporation, it is undoubtedly the wiser economy to purchase insurance on certain classes of its property to reasonable amounts; and in that belief a carefully matured plan of insurance has been recently inaugurated, and insurance effected to the amount of $154,400.

A supplementary contract has been made with the Portland, Saco and Portsmouth Railroad Company, under which its rental from July 1, 1875, to July 1, 1877, has been reduced from ten per cent to six per cent per annum. Provision has been made for the payment of the rental now due, and it will be paid on the 7th of February.

Since the actual condition of the corporation became known to your directors, they have been in consultation with the creditors of the road with a view to the shaping of some plan by which the dangers of bankruptcy might be averted and the affairs of the road be placed upon such a footing as would enable it in time to meet its obligations. They are glad to state that, almost without an exception, they found the creditors favorable to such an arrangement, and a general disposition shown to make reasonable concessions to the necessities of the corporation; in fact it seems to be admitted that the interests of the stockholders and of the creditors cannot safely be separated, since separation means litigation, and litigation in railroad affairs is financial ruin to all concerned.

A committee was finally appointed by the creditors to mature a plan for the better security of their interests; and your directors appeared before them, personally and by counsel, at various hearings. The committee reported in favor of an application to the Legislature for the passage of an enabling act, under which this corporation should be authorized to fund its outstanding obligations in mortgage bonds, payable in 1906, and bearing interest for the first three years at three and one half per cent, for the next three years at four and one half per cent, and thereafter at six per cent per annum, all payable in gold. The plan recommended was adopted by the creditors, and is embodied in a bill now pending before the Legislature.

The bill, which for convenience of reference will be found accompanying this report, demands your thoughtful consideration, since, if passed, it will finally come before you for action, and since, furthermore, it proposes the only expedient which has yet been devised to extricate this road from its difficulties. In its general features it has met the hearty approval of this Board. It would be useless, however, to disguise the fact that some of the provisions of the bill impose a strain upon the resources of the road, which it will require all its latent, and as yet undeveloped, capacity to meet. While not for a moment questioning the good faith of our creditors, of whose moderation and forbearance we have had many proofs, we may well hesitate to put the great interests at stake to any unnecessary hazard. Inasmuch as a scheme of this kind is a compromise of conflicting interests, it would be unwise in the extreme to imperil it by petty calculations of small gains, insignificant in comparison with the benefits which an equitable arrangement would bring to all concerned. While this Company should spare no effort to meet its obligations, it may fairly ask, in the present trying circumstances, that reasonable opportunity should be given to the road to recover its vitality, and to its managers to straighten out its tangled affairs.

But it must not be inferred that the directors have lost faith in the ability of this road, under fair conditions, to pay its indebtedess, and to recover all the srength of its old position. On the contrary as the result of the investigations of the past few months, we have been led to place a higher value upon the noble franchise which we hold, and to forsee for the road, in a future not very remote, the possibility of a prosperity surpassing the most sanguine hopes of its projectors. Even while carrying the dead weight of ill advised enterprise which has been imposed upon it; loaded down with debts for which it enjoys no fair equivalent; desperately harassed by competition; loosly managed, and extravagantly operated; under all these disadvantages, its receipts have, from year to year, almost steadily increased; and it has, at the same time, brought within its reach a business, as yet undeveloped, which cannot fail, under proper care, to be substantial and remunerative.

Feeling, therefore, full confidence in the ability of the road to carry all its burdens, provided they are carefully anjusted to its strength, your Directors have an abiding faith that what is so much for the interest of all will be speedily and happily accomplished; that the plan now before the Legislature, the provisions of which in the main command the approval and confidence of all parties, will receive such modifications as the Legislature in its wisdom may find that the actual necessities of the case demand; and that the road, once more placed upon a secure basis, wisely and economically managed, will enter upon a career of prosperity more solid and enduring than any it has ever known.

All of which is respectfully submitted
By order of the Board,
SAMUEL C. LAWRENCE, President.

Schuylkill Navigation Company.

At the Annual Meeting of the stockholders and loanholders of this company held in Philadelphia on the 8th inst., the annual report was submitted by Mr. Frederick Fraley, President, showing the following figures:

Balance on hand January 1st, 1875, $102,230-85; received in 1875, $181,948 96; payments in 1875, $639,328 80—leaving a balance on hand January 1st, 1876, of $142,620 06.

After the reading of Mr. Fraley's report, the annual election was proceeded with, and resulted as follows:

President.—Frederick Fraley.

Managers.—John N. Hutchinson, Charles W. Wharton, George Brooke, Charles Bacon, Camille D'Invilliers, and Michael Ward.

Treasurer and Secretary.—Richard Wilkins.

☞ The Summit Branch Railroad Company has declared a semi annual dividend of three per cent, payable February 15th. The accounts are made up to December 31, 1875, one month later than usual. The earnings for the thirteen months, after paying all expenses and interest, are $435,-278 47, against $266,953 89 for the preceding year, a gain of $168,324 58, or 62½ per cent. The balance added to income account is $201,419 47, after paying the dividends for the year of $233,859. In the present dull state of business it was not considered desirable to increase the dividend, although the profits are so largely in advance of last year.

☞ At the annual meeting of the stockholders of the Philadelphia and Erie Railroad, held in Philadelphia on the 14th inst., the following gentlemen were elected managers: Robert Thompson, Samuel G. Lewis, Wistar Morris, Strickland Kneass, Joseph W. Gaskill, Josiah Bacon, A. J. Darbyshire, Alexander Biddle, Samuel G. Thompson, and J. Alexander Simpson. The statement presented by the Board of Directors shows the gross earnings to have been $3,365,897 24, and the gross expenses $2,228,483 68, making the net earnings, $1,137,413 56.

☞ A dispatch from Portland, Me., dated February 15th, says the Portland and Ogdensburg Railroad Company have not failed to pay their coupons as reported; but, in consequence of the necessity of making a connection with the Vermont division, have pledged their earnings to a large amount, and asked the city to take care of the coupons upon their own city scrip issued in aid of the railroad. All of the coupons on the bonds sold by the company will be promptly met.

☞ The stockholders of the Lancaster Railroad have elected the following Board of Directors for the ensuing year: George A. Parker, Jacob Fisher, Solomon H. Howe, Francis W. Warren, Charles H. Waters, Winthrop E. Faulkner, Amory Maynard, Francis D. Brigham, Peter B. Brigham. George A. Parker was elected President and S. B. Merrick Clerk.

☞ The funded debt of the city of Philadelphia, January 1, 1854, was $16,573,614 77. The total amount reported up to January 1, 1876, is $70,811,788 75, of which $9,786,697 05 has been redeemed, leaving a balance outstanding of $61,025,091 70.

American Railroad Journal.

Saturday, February 19, 1876.

Financial and Commercial Affairs.

Very little change has occurred during the week in the money line. The offerings of capital in the open market have been fully equal to the requirements of borrowers in good standing, and rates have been ruling comparatively easy throughout on the basis of 2½@5 per cent on call, and 4½@7 per cent per annum, in the instance of strictly choice to very good mercantile credits. The demand for aid from all sources has been comparatively moderate, and lenders have readily provided for the current wants of their customers. The City Banks have been gainers in all their averages of reserves. The City Bank movements of the week have been steadily in the direction of increased strength in the reserves, the percentage of which to liabilities is now 32.34, against 31.15 on the preceding weekly exhibit; 32.04 two weeks ago, and 29.46 at the close of 1875. The U. S. Sub-Treasury reported a slight decrease of its currency, and an increase of its coin balances, as the result of the week's business. On Tuesday of the current week the Syndicate payments of coin into the Sub Treasury at this point were $2,600,000, on account of the new Five per cents. On the same day the thirtieth and thirty-first calls for Five-Twenty bonds matured. These calls were respectively for $12,785,450 and $5,000,000, the former for the account of the Syndicate, and the latter for the Sinking Fund. The outflow of currency from this port has been of less magnitude. National Bank notes were redeemed last week to the amount of $4,258,000. The City Banks have had their deposits augmented $1,040,400; and their legal tender reserve reduced $539,400. The

specie average has been enlarged $933,800. The loan and discount item was increased $489,300. The circulation was diminished $155,800. The U. S. Sub Treasury in this city closed the week with a currency balance of $37,078,726 against $37,529,240 the preceding week; and a coin board of $46,952,108 against $46,654,521 on the previous return. The City bank exchanges in currency reached $416,455,597, or a daily average of $69,409,266. The customs revenue of the port during the week was $2,529,009. The City banks reported their average of gold last week at $24,505,600, and their greenback average at $47,895,600. Their deposits stood at $225,558,500. The loan item was $266,556,700. The circulation was $17,293,500.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $16,010,575.

The aggregate of the outstanding U. S. currency, of all denominations, February 1st was $417,205,989. The outstanding amount of legal tender notes is $371,273,140. The National bank circulation is now $342,684,501, including $2,000,280 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $11,942,884; special deposit of legal tenders for the redemption of certificates of deposit, $13,400,000; Coin, $74,342,494; Coin certificates, $34,379,500.

The week's import entries of Foreign Merchandise at New York were $5,210,518, including $2,425,267 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 72 millions; and from Customs, 94 millions.

Gold has been quoted stronger in price, on a more active speculative inquiry, and a more urgent demand for coin for Custom House purposes. The Syndicate operations tended to stimulate speculative purchases. The export movement was moderate. The extremes of the price during the week have been 112¾@113⅞, closing on Wednesday at 113⅝ as against 112⅞, on Wednesday of the preceding week. The specie outflow last week was $954,204 against $387,746 the previous week. The imports of specie at this port last week were $39,204, and since January 1, $433,615, as against $158,191 same time last year. The customs demand for gold last week averaged $421,500 per day. Foreign Exchange has been in fair demand at generally steady rates. Bankers' sixty day bills on London closed on Wednesday at $4 85½@$4 86; sight bills on London at $4 89¼@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $3,440,295. The week's imports of Dry Goods and general merchandise were to the specie value of $5,210,518 as against $6,601,928 the corresponding week of 1875.

Government Securities have been quite active in price, and quoted stronger. The purchases on investment account have been unusually liberal, diminishing materially the available supply in the home markets. Some offerings of bonds, to arrive from Europe, have been reported during the week. They found prompt sale at the ruling figures. The market closed strong and buoyant for most issues. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $360,050,162.

U. S sixes of 1881 closed on Wednesday of this week at 123¼@123½; U. S. Five-Twenties of 1864, at 115@115½; U. S. Five-Twenties of 1865, 118¼@118½; U. S. Five-Twenties of 1865, consolidated, 119⅞@120; U. S. Five-Twenties of 1867, 122½@122⅝; U. S. Five-Twenties of 1868, 123¾@124; U. S. Ten-Forties at 120¾@121; U. S. Fives of 1881, (Funding Loan) 118⅜@118⅞; Six per cent. currency Sixes, 125¾@126¼.

State and Railway bonds have been fairly active, and generally quoted firm, closing buoyantly. And in the line of Railway and Miscellaneous share property the dealings have been on a restricted scale most of the week at variable prices, closing with more firmness.

General business has been moderately active in in the line of Domestic Produce. Breadstuffs, Cotton and Petroleum closed lower. Provisions and Naval Stores stronger in price. Foreign merchandise has been moving rather slowly. Groceries closed weaker. Metals have attracted less attention. Eglinton Pig Iron quoted here at $29 50@$30; Glengarnock $31@$32; Coltness $33; No. 1 American Pig at $23@—; No. 2 do. at $21@—; Forge, $17@20; English Rails (in bond) $35@$36 gold; American Rails at works, $45@$48; Old Rails $20@$22. Wrought Scrap, $30@—. Ocean freights have been more active, at variable rates, with room for Cotton, Flour, Grain, Petroleum and Provisions in most request.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Missouri, Kansas and Texas R. R., 9⅞; do. 7s, consol., S. F., 56; Toledo, Peoria and Warsaw 2d mort., 45; Chicago, Rock Island and Pacific 6s, S. Union Pacific Railroad.

The earnings of the Union Pacific Railroad Company for the years ending December 31, 1874 and 1875, were as follows:

	1874.	1875.
From passengers...	$3,952,858 55	$4,346,014 34
" freight.....	5,664,731 33	6,641,512 27
" mails and express.....	727,061 77	769,317 28
" miscellaneous	215,228 47	236,988 25
Total	$10,559 880 12	$11,993 832 09
Operating exp....	4,652,314 95	4,982,047 95
Surplus.....	$5,907,565 17	$7,011,784 14

This shows an increase in the earnings from passengers of $393,155 79, from freight $976,780 94, from mails and express $42,255 46, and from miscellaneous $21,759 78—making a total increase in the gross earnings of 1875 over those of 1874 of $1,433,951 97, with an increase in the operating expenses of $329,733, showing an increase in the net eaenings of $1,104,218 97.

The percentage of operating expenses in 1875 was 41.54 per cent, against 44 05 in 1874, a decrease in 1875 of 2.51 per cent.

☞ The Boston Journal says it is reported that the differences that existed between the Central Vermont and Rutland Railroad have been arranged at a conference of the officials of the two roads in that city, and that the terms will be submitted to meetings of stockholders of the two corporations at Brattleboro' on the 25th of this month. Under this arrangement, the Rutland, the Central Vermont and Canada roads will be run as one line. The monthly payments of rent to the Rutland Company will be resumed, and the earnings of the three roads being pooled, its share will be about 36 per cent of the whole. The Rutland Company will also receive pay for back rent, the sum to be paid being understood to be $250,000.

☞ At the Annual Meeting of the Stockholders of the Boston and Albany Railroad Company, held in Boston on the 9th inst., the following board of directors was elected: Chester W. Chapin of Springfield, D. Waldo Lincoln of Worcester, Ingatius Sargent of Brookline, George O. Crocker of New Bedford, Ginery Twichell of Brookline, Moses Kimball of Boston, Henry Colt of Pittsfield, Edward Gillett of Westfield.

☞ The Canarsie and Rockaway Beach Railroad Company have awarded a contract to Mr. P. H. Reid for the construction of a branch dummy road from East New York to Prospect Park. The preliminary surveys have been made, and Mr. Reid is making preparations for the commencement of the work as soon as the weather will permit.

☞ The construction of the New York, Bay Ridge and Jamaica Railroad is being pushed forward as rapidly as possible. The entire length of the road between Bay Ridge and Jamaica, touching at East New York and Woodhaven, will be nearly fifteen miles.

☞ The officers of the Consolidation Coal Co., elected at the annual meeting of the stockholders held on the 16th inst., are: President, Allan Campbell: Directors—Wm. H. Neilson, Wm. M. Evarts, Walton W. Evans, James M. Hartshorn, John V. L. Pruyn, Robert Garret, William F. Burris, Henry Meigs, William B. Hoffman, and John Riley.

☞ The Richie Bros. are busy erecting their Patent Railroad Track Scales at the Lymont Furnace Co., the Westerman Iron Co., Sharon, and the Westmoreland Coal Co., Irwin Station, the capacity of the latter 100,000 lbs.

☞ The Miller platform and coupler has been adopted by the Lehigh Valley, Montclair, St. Paul and Sioux City, Sioux City and St. Paul, and Western Union Railroads.

☞ The payment of interest on the State bonds and stocks of South Carolina has been postponed until the 1st of April, but may be made in the middle of March. The postponement is owing to the tardiness of the Legislature in passing the tax bill.

☞ The first locomotive put on the Camden and Amboy Railroad, which has been laid up in Bordentown for ten years, is being put in order preparatory to placing it on exhibition at the Centennial. The engine was built in England, by Robert Stephenson.

United States Rolling Stock Co.

To the Shareholders of the United States Rolling Stock Co.:

GENTLEMEN:—The gradual improvement which has been in progress in the railroad business of this country during the last six months enables me to present to you also a somewhat more satisfactory result of the last year's business of your company. This result is still far from being what you are entitled to expect under ordinary circumstances, but it is a great improvement upon the showing of the previous year. A large part of your stock has stood idle, and a large part of that which has been employed has been let at very low rates of rental. Hence the income of the year appears small as compared with the nominal income of last year. But a far larger part of it has been promptly collected, especially during the latter part of the year, and repairs have been made by lessees in a far more satisfactory manner. Even now many repairs have had to be made at the expense of the company which are properly chargeable to the lessees, but the stock has been kept up to a higher standard of repairs, and, with improved storage and working facilities, I hope to reduce our own expenses for repairs to a minimum.

INCOME ACCOUNT, 1875.

The income account shows a net income for the year of $353,577.64, out of which it is recommended that a dividend of 3 per cent., or twelve shillings per share, be paid, whenever you decide to order the same. The funds for the purpose are, and have for some time past been, on deposit with the London and County Bank, in London. After payment of the dividend there will remain $185,577.64, to be carried to reserve account.

RENTALS.

A comparative statement is given of the stock on lease at the end of December in each of the two years, 1874 and 1875. From this statement it will be seen that the number of locomotives, passenger coaches and luggage vans employed has slightly diminished, but that the number of freight cars under lease has increased 665.

Many of the leases in force at the close of 1874 expired during the present year. Owing to the severe competition among the leading railroads, rates of freight were unprecedentedly low, and the earnings of the lines greatly reduced. Hence most of our renewals and new leases were made at lower rates than those previously existing.

Of the 3,483 freight cars leased, 937 have run on mileage, and their earnings have not exceeded $45 per annum each, or about equal to only four months' service. 250 have been in use less than six months in the year.

Of the 40 passenger cars leased, 25 have averaged only four months of service.

Of the 54 locomotives, 22 have averaged only six months of service.

Under these circumstances, the earnings of the entire stock, employed and idle, have only averaged, per annum:

For locomotives	$671
" passenger coaches	607
" luggage vans	377
" freight cars	89

which rates are extremely low.

Had all the idle stock been in use at the same rates as that under lease, the income for the year would have been $150,000 larger. Had all the stock been leased at fixed rates equal to those now current, the income of the year would have been increased by nearly $300,000.

The want of proper storage facilities has repeatedly prevented us from taking advantage of an existing demand. Our idle cars are stored wherever we can find unoccupied side tracks at reasonable rates of rental. These tracks are often hundreds of miles distant from the point where the cars are required. It costs to move an engine 45 cents (22d.) per mile; 35 cents (17d.) for a passenger coach, and 8 cents (4d.) for a freight car. It is evident that, in many cases, the transportation of the cars would have consumed several months of rental. Hence, leases had frequently to be rejected that would have been otherwise advantageous. The progress of our yards at Urbana, referred to elsewhere, will greatly diminish this difficulty. So soon as we complete the narrow-guaging of our broad-guage stock we will probably find it advantageous to secure additional storage grounds farther West. On this subject the necessary recommendations will be submitted to you in good season. The gradual increase and improvement in our facilities will enable us to lease our stock to better advantage, and with a steady improvement in business we have a right to expect better results.

REPAIRS.

The amount of repairs charged against income account—$21,666.02—is more than twice as large as that for last year. So long as any portion of our reserve account, set apart for repairs and replacement, is in any way uncertain or doubtful, I have preferred to err on the safe side, and have freely disposed of the current income in order to maintain the stock in a high state of efficiency. The report of Mr. H. W. Farley, attached hereto, will give the best evidence of the condition of the stock. Mr. H. W. Farley is a retired master mechanic, of great experience and unimpeachable character, who needs no endorsement in this country.

Mr. Farley reports all the stock examined by him as "in thorough repair, and in as good condition as that owned by any railroad in the country;" "that there is not on any road a finer lot of engines;" "that the cars are well-built, substantial, in excellent state of preservation, and compare favorably with those of the same class and of the same age on any Eastern or Western road;" "that they show no neglect or ill-treatment;" "and that the stock belonging to our Company compares very favorably indeed with that of the best roads in the country."

The balance of the stock is being examined by Mr. C. F. Allen, whose report will go forward with the report of the approaching annual meeting, not having reached me in time for this.

FREIGHTS.

The expenditure for freight—$5,949.84—is one that will almost entirely disappear whenever our storage facilities are perfected.

TAXES AND INSURANCE.

These are almost invariably repaid to us by lessees. The amounts charged against income consist mainly of those paid upon stock not in use.

GENERAL EXPENSES.

In the annual report for 1874 these were divided into three separate accounts: General Expenses, Operating Expenses, and London Offices; and the actual payments on these accounts were carefully separated (as shown by the Cash Account of that year) from the amounts chargeable to the year. In the present instance, however, it has been deemed best to include all General Expenses of whatsoever description in one detailed account, including everything paid, whether accrued during the year or not. In this manner the fees authorized by the Annual Meeting of February 4th, 1875, to be paid to the retiring trustees for the *previous* eighteen months of service, are included in this year's account. In the same manner a sum of $2,000, allowed to a former secretary of the company upon an arbitration of a contested claim for salary during the year 1873, likewise appears in this year's account. The total is further swelled by the sum of $3,901.12, expenses of the president's visit to Europe; by greatly increased cable expenditures in consequence; by an increased fee to the Union Trust Company, our New York registry, owing to the great increase in the transfers during the present year, and by the additional maintenance of a transfer office at Jamestown, in accordance with the requirements of law. Most of these extraordinary expenses will not occur during next year. The expenses of the London Registry and London Agency will entirely cease, they having been abandoned as useless for the purposes for which they were intended. The establishment of the Urbana yards will greatly diminish the salaries, traveling and telegraph expenses of the Master Mechanic's Department.

A modification has been made in the method of establishing the president's salary. Instead of a fixed annual sum, a sliding scale has been agreed upon, making the amount depend upon the dividends earned. This arrangement needs the ratification of the shareholders at the approaching Annual Meeting, if it meets with their approval.

THE BALANCE SHEET.

The sole liability of the Company, of any kind, is that of $32,024.41, due sundry creditors, which consists mainly of current bills for supplies, storage, freights and pay-rolls, which cannot be adjusted in time for payment before the close of the year. Against this liability the Company has assets of $6,744,552.71, or $1,744,552.71 of surplus over and above its share capital.

BALANCES DUE FROM LESSEES.

With the exception of the amount due from the Atlantic and Great Western Railroad and Erie Railroad Companies, and one other minor amount, these are current balances and are all perfectly good. The Atlantic and Great Western account will be referred to hereafter.

SUNDRY DEBTORS.

Of these the principal is the firm of Messrs. Bischoffsheim & Goldschmidt, in London, from whom the Company claims a very large sum of money, represented on our books by a balance against them of $133,908.20. As already advised you in my brief report from London, dated October 21st, 1875, the claim was placed in the hands of Messrs. Hollams, Son & Coward, the eminent London solicitors, for collection. A bill in chancery was by them filed on the 16th of September, 1875, and at the date of my departure from London—the 11th inst.—the time had nearly expired for the filing of certain answers, concerning which no news has as yet reached me.

The company would of course be glad to recover the amount due, and could employ it to good advantage. But its future success is in no way dependent upon it, and we can afford to wait the slow but sure result of the legal proceedings for the recovery of our rights.

The only other item appearing under sundry debtors is an amount of $1,519.37 on deposit with the suspended firm of Duncan, Sherman & Company. It has not been written off, as there is still a prospect of at least partial recovery.

OUR CLAIM AGAINST THE ATLANTIC AND GREAT WESTERN RAILROAD COMPANY.

This company and the Erie company owe us jointly or severally a very large sum, represented on our books by a balance due us for rental of $1,048,436.50, or over £200,000. The amount we claim from them in the legal proceedings now pending as justly due us exceeds $1,700,000, or £340,000. For this sum of money we claim to have a prior lien upon all the property of the company in advance of all the mortgages. Our claim is contested by the company, and those who have heretofore claimed to represent the English bondholders have made light of our pretensions to priority. The justice and legality of our claim will speedily be tested in the courts of Ohio, where, after numerous dilatory motions, the case will come to trial at an early day. Meanwhile, wiser counsels seem likely to prevail also among those who are endeavoring to reorganize the company on behalf of the English bondholders, and offers have been made to me on their behalf, since my return to America, involving the recognition of our priority over the existing mortgages for a portion of our claim. But the amount offered was not sufficient to justify the entering into negotiations with a view to its acceptance or rejection.

The patience and confidence of the body of the shareholders has enabled the administration to work your company into a position of absolute independence. Your property is totally unencumbered, and can from this time out earn you regular dividends of a moderate character. We are therefore entirely independent of the result of the proceedings against the Atlantic company, as we are in the case of Messrs. Bischoffsheim. We can afford to wait the slow but sure result of the legal proceedings, which will vindicate the justice of our claims and the wisdom of our proceedings in the past.

THE RESERVE.

Pending the settlement of the Company's claims against the Atlantic and Great Western Railroad Company and Messrs. Bischoffsheim & Goldschmidt, I have deemed it prudent to transfer the entire balance standing to the credit of Income Account at the close of 1874, to Reserve Account. This account therefore now appears with a balance of $1,358,950.66.

If out of the net income for 1875—$353,577,-64—the proposed dividend of 12s. per share is paid, amounting to $170,000, there will be a further sum of $183,577 64 to be carried to Reserve Account for this year, swelling the balance to the credit of Reserve to $1,542,528.30. It is not unnatural that shareholders should ask what this represents.

It represents:

Construction in excess of capital.		$13,955.71
Current balances due from lessees, exclusive of A. and G. W. and Erie		98,977.11
Cash and cash assets.	$407,132.18	
Less div'd proposed..	170,000.00	
		237,132.18
Buildings and materials		31,543.01
Insurance paid in advance		9,080.63
Together		$390,688.64
Less due for supplies, etc		32,024.41
Leaving		$358,664.23

of actual unquestioned cash value standing to the credit of the reserve. If the contested accounts against the Atlantic and Great Western Railroad Company and Messrs. Bischoffsheim & Goldschmidt—standing on our books for $1,-182,344.70, but in reality amounting to much larger sums—should net the Company only 10s. in the pound (and a sum nearly equal to this has been already offered in settlement), the above amount would be increased by $591,-172.36, making a net valuation of the reserve of $981,861, or twenty per cent. upon the entire capital.

With firmness and judgment a large proportion of these claims will be realized, and it is not intended to place any estimate upon their value, but merely to enable shareholders to form some opinion as to what the reserve consists of.

The amount carried to reserve this year—$185,577.64—is unusually large. The total amount of stock leased to the receiver of the Atlantic and Great Western Railroad is guaranteed by him against depreciation of any kind. The large proportion of stock standing idle is kept in perfect order out of current repairs, and consequently does not appreciably depreciate. Hence we have really to provide for a reserve only for one-half our stock. But it has been deemed prudent to err, if at all, on the safe side, and hence the reserve has been made proportionately larger than usual.

As rapidly as profitable employment can be found for it, it is intended to invest the regular annual reserve in new construction. All our oil-tank cars are leased at paying rates, but we have a further demand in excess of our means of supply. A contract for the construction of ten new oil-tank cars has been executed within the last few days, and others will follow as soon as opportunity offers.

THE COMPANY'S ACCOUNTS.

I have ordered the Company's accounts, and especially those relating to the Atlantic and Great Western Railroad Company, to be audited by Mr. W. E. Warren, a public accountant of the highest standing in this country, who is also well known to many eminent commercial firms in England. Mr. Warren's report will be submitted to the approaching annual meeting.

I have also caused to be reprinted and annexed hereto the report of Mr. Parker Handy, one of your trustees, who was appointed a committee to examine the Company's accounts shortly after his election as a trustee in February last. You will further find a reprint of an official letter from Mr. Thomas Warnock, auditor of the Atlantic and Great Western Railroad Company, addressed to Mr. James McHenry of London, correcting statements put forward by that gentleman concerning the accounts of this Company with the Atlantic and Great Western Railroad.

THE NEW STORAGE YARDS AND REPAIR SHOPS AT URBANA, OHIO.

The urgent necessity of providing storage yards has been repeatedly referred to in these reports. Their absence, and our inability to provide them, was the main reason why it was found impossible to remove the stock from the Atlantic road when it fell so largely in arrears. It may be said that the absence of storage yards has been the chief cause of all our difficulties in the past.

Owing to the very large amount of broad-gauge stock which we own, and which must sooner or later be reduced to narrow-guage *at some point on the* Atlantic road, we were restricted in our choice of location to the towns on that line. I selected Urbana as the most suitable spot, as the two narrow-guage lines of the Pittsburgh, Cincinnati and St. Louis, and the Cincinnati, Sandusky and Cleveland Railroad Companies cross the Atlantic broad-guage in close proximity. In conjunction with our master mechanic, and acting under the advice of the superintendent and engineer of the Atlantic road, kindly placed at our disposal for that purpose by J. H. Devereux, Esq., Receiver, I selected a plot of ground of about fifty acres, close to the city and in immediate proximity to the point of junction of the two gauges. This plot of ground was in July last purchased and paid for by a number of public-spirited citizens of Urbana, and presented to your Company free of taxes for a number of years. It is held on your behalf by trustees, subject to certain reasonable conditions contained in the trust deed.

Work was begun in August last, but owing to the extraordinary wet weather during that month and the following, but little progress was made.

In October was erected the repair shed, and rail connections were made with the Atlantic, and the Pittsburgh, Cincinnati and St. Louis tracks.

A detailed plat and photograph, giving an accurate idea of the yards and of the buildings erected and in process of erection, has not reached me in time for this Report; it will be forwarded with the report of the approaching annual meeting.

The tracks are capable, as they are now, of storing 492 cars, if only used for storage purposes.

We have six storage tracks and one main track.

The storage tracks are all within the limits of the Company's property; the main track connects the yards with the Atlantic, the P., C. and St. L., and indirectly through the P., C. and St. L. with the C., S. and C. Railway. The main side track and storage tracks Nos. 1 and 2 can store either broad or narrow-guage cars. Nos. 3, 4, 5 and 6, only broad-guage cars.

Making a proper allowance for the room required to switch cars in and out, and for the necessities of the repair gang, access to the shed, etc., the storage capacity is reduced to 335 cars, which for the present is amply sufficient, and which it is not expected will have to be increased.

Branch tracks are being built leading to the locomotive and passenger car sheds, where room is provided for storing 32 engines and 26 passenger cars. These sheds are now being erected, and when completed will afford the necessary shelter and accommodation so urgently required heretofore.

On a line with the car shed is built the storehouse, where all necessary supplies are constantly kept properly classified and inventoried.

TRACKS.

The cost to date for grading, track laying, buildings, etc., is as follows:

Grading, track laying and ballast..		$7,127.19
Cross-ties, switch timbers, etc		2,183.60
Rail, chairs, splices, spikes, switches and frogs		8,938.80
BUILDINGS.		
Bergen Shed, including transfer and storehouse attached..	$1,229.74	
Blacksmith's shop	350.00	
Coal shed	100.00	
Scrap, platform and shop equipment	150.00	
		1,879.74
		$20,129.33

Expenditures required to complete Track and Buildings in process of construction Dec. 31, 1875, are as follows:

Laying and ballasting storage track for locomotives.....	$150.00
Completion of storage tracks 4, 5 and 6.....	4,663.00
Locomotive shed No. 1.....	5,000.00
	$9,813.00
Total of work completed.....	$20,129.33
Work in progress.....	9,813.00
	$29,942.33

ESTIMATES FOR FURTHER WORK.

In addition to what has already been done, it is necessary to provide machinery and tools with which the repairs and the general work can be made economically and profitably.

The estimate of the cost of the machinery and tools, etc., and buildings for the machinery is about $35,000, of which the machinery will cost nearly $20,000 and the buildings a little over $15,000; making the total expenditures at Urbana, when the machinery will have been put up, about $65,000.

The saving to the Company in doing the repairs at Urbana cannot be overestimated. In all cases where repairs have been made for us under contract, 10 per cent to 15 per cent for supplies have been charged by the contractor.

The work done at Urbana does not permit us as yet to establish accurate comparisons between the cost of repairs done by us and those done by contract, but the returns made so far show a saving, even with present facilities, of 30 per cent.

When work is thoroughly systematized, and all our arrangements are perfected, the economy will exceed 35 per cent. The amount of repairs charged against income—$21,662—represents a small part only of the repairs actually done by us, and on which this economy would be made. All the amounts recovered from lessees, or chargeable to our own Reserve Account, are not included.

The interest on the investment at Urbana and the wages of watchmen will be less per year than what has been paid during the last year for the storage of the idle engines alone.

Heretofore we have paid for storage as a minimum rate:

$10 per month for engines.
5 " " " passenger cars.
3 " " " freight "

The general master mechanic's department is now established at Urbana, his offices are in the town itself; but so soon as all the tracks and buildings will have been completed, it will be necessary to erect a small frame building for the offices, so as to concentrate the whole, and enable the master mechanic and his aids to have easy access to the records and to the books, while giving them direct supervision over the work in the yards and in the shops.

A great and important saving will hereafter be made in the salaries and in the traveling expenses of the inspectors who have been called upon to devote as much of their time to the inspection of the stock stored as to the inspection of the stock leased.

Detailed estimates of the entire expenditure proposed will be submitted to you. The brief space of time elapsed since my return from Europe has not admitted of their completion in time for this report. In the meantime I urgently advise you to accept the recommendation of your Board of Trustees, to be submitted at the Annual Meeting, authorizing the expenditure of $35,000 during the next six months, in addition to the work already in progress.

I have endeavored in the present report to reply in detail to the numerous inquiries addressed to me by shareholders, in person or by correspondence. The establishment of a London office, with a competent Secretary, under the direct supervision of your London Shareholders' Committee, and to be supplied hereafter with regular monthly statements of our transactions, will, it is hoped, facilitate the intercourse and increase the mutual confidence between the shareholders and the administration.

JAS. B. HODGSKIN, President.

New York, December 31, 1875.

☞ The Legislature of Montana has passed and the Governor has signed, bills appropriating $3,500,000 in aid of the Northern Pacific Railroad, and $1,150,000 in aid of the Utah Northern Narrow Gauge Railway. The bills will be submitted to the people on the 3d of April.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, office, No. 75 Liberty Street, New York."

The Coal Trade.

The Philadelphia *Ledger* of February 14th says: The trade for the week ending on the 5th inst., increased a little. The quantity sent from all the regions of which we have report is 298,357 tons anthracite, against 138,460 tons for the corresponding period of last year, showing an increase of 160,097 tons. The total amount of anthracite sent for the year is 1,933,365 tons, against 1,365,795 for same period last year, an increase of 567,570 tons. The quantity of bituminous coal sent to market for the week was 49,353 tons, against 42,128 tons for corresponding week last year, an increase of 7,225 tons. The whole bituminous tonnage from the beginning of the coal year to the 5th inst., is 254,654 tons, against 215,454 tons in corresponding time last year, an increase of 39,200 tons. The total tonnage of all kinds of coal for the week is 347,910 tons, being an increase for the week of 167,322 tons, and the total tonnage for the coal year is 1,198,019 tons, against 1,581,249 tons to same date last year, being a total increase of 616,700 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last week was 78,811 tons, 63,606 tons of which was coal and 15,205 tons coke. The total carried this year is 290,848 tons, of which 233,300 is coal and 58,048 coke. These figures embrace all the coal and coke carried over the road east and west. At Port Richmond for the week ending the 12th inst., there were receipts of 5,000 tons of coal and shipments of 5,500 tons, leaving 136,000 tons on hand. The receipts of coal at Perth Amboy for the week ending on the 5th instant were 6,028 tons; total received during the season, 96,877 tons; shipments for the week, 5,186 tons: total shipments for the season 56,394 tons; leaving on hand 100,125 tons.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

Wealth and Resources of Texas.

The great State of Texas is advancing rapidly in population and wealth. It comprises an area five times as great as that of the State of New York; and its variety of climate, soil and productions renders it attractive to emigrants from all sections. The Central Coast country is specially adapted to the growth of the sugar cane; and the alluvial lands of the Trinity, Brazos and Colorado Rivers and the fertile prairie lands adjacent thereto, to the culture of cotton; while the Eastern section of the State is clothed with the finest timber; the Northern belt, skirting the Red River, devoted to the raising of grain, such as wheat, barley, oats, etc.; and the extreme Western portion furnishing a boundless range for cattle, horses, sheep, etc. Texas is by far the largest stock-raising State in the Union. It ranks, also, first among the cotton producing States. The time is near at hand when it must become one of the largest grain-growing sections of the country. It is only within the past few years that wheat-growing has become one of that State's prominent industries. Last year the State exported 4,000,000 bushels of wheat.

Sixteen years ago the population of the State was barely 600,000; and there were only 75 miles of railroad in its confines. Now, the population must exceed one million and a half, and there are over 2,000 miles of railroads in operation. The prospects are, that both the population and the miles of railroad will be doubled during the next ten years.

The political condition of the State is satisfactory. Fortunately, Texas, unlike a majority of the Southern States, has a comparatively small black population, and "reconstruction" was not attended with those conflicts of race which have proved so disastrous in the Gulf States.

The financial *status* of the State is excellent. The entire State debt is less than $5,000,000; and the 7 per cent gold bonds of the State are above par in this market. The assessable values of the State approximate $300,000,000.

The people of Texas are extremely anxious to witness the speedy construction of the Texas and Pacific Railway. The State has contributed 14,000,000 acres of land to that company. It is thought that the building of that road through to the Pacific Ocean will add an additional million of emigrants to the section of the State through which it runs.

Texas owns all of the public lands in her limits, amounting to fully 60,000,000 acres. The new Constitution of the State, but recently adopted, is very liberal in inducements offered the immigrant; and also in its provisions respecting public schools. It is evident that Texas is on the march to the achievement of a great destiny.

It affords us pleasure to say that the above information is due to the courtesy of Hon. J. C. CHEW, United States Centennial Commissioner from Texas, who has an office at 29 Broadway, this city; and who stands ready to answer all questions from parties desiring to invest in either the lands or the securities of that State.

☞ The Raleigh and Augusta Air-Line Railroad has been completed fifty-seven miles from Raleigh. Forty miles are still to be built, of which ten are already graded.

Marietta and Cincinnati Railroad.

At the annual meeting of the stockholders of the Marietta and Cincinnati Railroad Company, as re-organized, held in Cincinnati on the 16th inst., the following gentlemen were unanimously elected Directors for the ensuing year: John King, Jr., Thomas Whitridge, Robert Garrett, J. Donnell Smith, Wm. F. Burns, of Baltimore; W. W. Scarborough, James D. Lehmer, R. M. Bishop, George Hoadly, of Cincinnati; W. T. McClintock, William Waddle, of Chilicothe; I. N. Camden, of Parkersburg; and W. B. Loomis, of Marietta. John King, Jr., was re-elected President, W. P. McClintock, Treasurer; Chas. F. Low, Secretary and Auditor; W. E. Jones, Cashier and Register.

From the report of the directors, which was presented, we learn that the earnings for the year ending December 31, 1875, were $1,662,015 29, the expenses $1,290,590 50, and the net earnings $371,424 79. The net earnings show a decrease of 29 per cent as compared with 1874, and of 14 per cent as compared with 1873. There was a decrease in the number of through passengers of 3,257, and in revenue of $22,335 04. An increase in number of local passengers of 80,968, and a decrease in revenue of $14,731 12. The number of passengers, through and local, carried during the year was 684,469, an increase in number of 76,966, and a decrease in revenue of $40,247 02 as compared with 1874. The revenue from freight was $1,029,941 93. There was a decrease of 108,038 tons of through freight transported, and a decrease in revenue thereon of $235,983 73. The report adds:

It would be a source of great anxiety if the very large decrease in receipts for the year, as compared with previous years, were exceptional, but all the roads throughout the country show similar results, caused, to a great extent, by the general depression in trade, affecting all branches of railroad traffic. These troubles were very serious, but, in addition, a reckless and unprovoked attack was made on the Baltimore and Ohio Company by the northern trunk lines, in which the Marietta and Cincinnati Company was necessarily involved. Early in the year rates were established from the Atlantic cities by these rival lines at cost of transportation, and in many cases at less, and though much of this unprofitable trade was refused, the effect upon the general through business was disastrous.

The average result from the freight between Cincinnati and Parkersburg was: In 1872 $2 06 per ton, or 1 1-100 cents per mile; In 1873 $1 96 per ton, or 96-100 cents per mile; 1874 $1 56 per ton, or 76½-100 cents per mile; in 1875 $1 33 per ton, or 65-100 cents per mile. Had the rate of 1874 governed in 1875, the revenue from freights would have been $66,553 more than was realized; at the rate of 1873 $181,712, and at the rate of 1872 $211,448.

Toward the close of the year a more conservative policy was established, and the rates on through business fixed at a standard which, while fair to the shipper and very much less than former tariffs, yields a small profit to the transporter. A marked improvement in public sentiment has also taken place recently on this subject, and shippers, as a class, desire only reasonable, regular rates.

The stockholders of the Cincinnati and Baltimore Railway Company also held their annual meeting, and elected the following board of directors: W. T. McClintock, John King, Jr., W. W. Scarborough, Robert Garrett, John Donnell Smith, Kenner Gerard and John Waddle. The directors met and elected Wm. T. McClintock, President; Chas. F. Low, Secretary; and W. E. Jones, Treasurer and Register.

Providence and Worcester Railroad.

The income of this company for the years ending September 30, 1874 and 1875, was as follows:

	1874.	1875.
From passengers	$400,341 53	$377,934 41
" freight	506,771 37	494,432 65
" mails	6,114 38	5,308 15
" rents	11,880 38	3,819 28
" express	12,963 76	12,985 11
	$938,071 42	$894,479 60
Expenses, viz:		
Maintenance of way	$180,364 69	$137,823 56
Repairs of locomotives	39,884 10	37,854 25
Repairs of cars	70,662 65	63,459 50
Fuel	80 869 86	77,217 09
Oil	9,038 26	8,743 35
Passenger department	78,441 23	70,774 85
Freight department	154,575 13	154,637 84
Taxes	38,493 02	41,262 55
Rent to Milford and Woonsocket R. R. Co.	3,480 00	3,480 00
Rent to Hopkinton R. R. Company	7,500 00	7,500 00
All other expenses	70,066 84	61,447 97
	$733,375 78	$664,200 96
Net earnings	$204 695 64	$230,278 64

The receipts and payments, other than those for operating the road during the year ending September 30, 1875, are as follows:

Received for the company's notes		$294,345 31
Net income, as above		230,278 64
Land sold		1,450 00
Total		$526,073 95
Paid and charged to construction		$215,193 03
Interest		30,000 00
Dividends January 1 and July 1, 1875, five per cent each		200,000 00
Back dividends		360 00
Materials on hand September 30, 1875	$177,361 03	
Cash on hand	153,356 37	
Interest due on deposits	1,131 21	
Note on hand	1,000 00	
Balances due to the company from other roads	31,728 20	
	$364,576 81	
Less cash and property on hand Sept. 30, 1874	284,055 89	
		80,520 92
Total, as above		$526,073 95

The length of main line of road in Massachusetts is 25.51 miles; do., in Rhode Island, 17.90 miles—total, 43.41 miles. Length of double track on main line, 30.65 miles. Length of branches owned by the company, 8 miles, single track. Total length of road belonging to this company, 51.41 miles. Aggregate length of sidings and other tracks not above enumerated, 20 miles. Aggregate length of single track, 102.06 miles. Length of Milford and Woonsocket Railroad, leased and operated by this company, 3.88 miles. Length of Hopkinton Railroad, do., 11.55 miles. Total miles of road operated by this company, 66.84 miles. The report says:

In presenting this report of the business and earnings of the road for the fiscal year ending September 30, 1875, we congratulate the stockholders upon the excellent results shown.

In view of the continued depression in business, affecting as it has all branches of industry, the directors feel that there is much to encourage stockholders, in the fact, that the affairs of the road are in a healthy condition, evidencing a wonderful vitality, encouraging for the future.

The accounts show a falling off in the gross receipts, but a gain in the net earnings, resulting from a decrease in the operating expenses. The road, with all its appliances, has been kept in excellent condition, and carefully guarded against deterioration.

During the year, two highway bridges between Providence and Pawtucket have been rebuilt in a thorough and substantial manner. The East Providence Branch has been put in complete working order, and we already realize its advantages over the old route to tide water. The locating of the Rhode Island Horse Shoe Co.'s Works near our track at Valley Falls, has called for a large addition of tracks in that vicinity, and we already reap the results in a large and continually increasing tonnage at that point.

The heavy coal transportation of the year has been crowded into the fall and winter months, making us unusually busy at this season of the year, and showing the wisdom of having a generous equipment for the handling of that class of freight.

This road has long felt the injustice of the custom of requiring short lines to pro-rate with long ones in the transportation of through freights, and some years ago we endeavored to obtain a larger mileage in the division of through rates; failing in which, we have since charged an arbitrary rate from Worcester to Providence, and shall continue so to do until the longer roads decide to deal justly with the short lines.

The board of directors, in view of the general depression in all kinds of business, decide to pay a semi-annual dividend of four per cent, instead of five, as heretofore, making nine per cent for the year. The propriety and wisdom of such action, no one we think will question, as it evinces a desire upon the part of the board, to keep the road up to a high standard, and at the same time make a generous return to the stockholders, with a view to permanency.

The construction of the East Providence Branch, seven miles in length, graded and bridged for a double track, through a suburban territory, necessarily causing the right of way to be obtained at high cost; the heavy expenditure attending the construction (in connection with other roads) of the viaduct at Worcester; the rebuilding of a number of expensive bridges on the main line, which from their originally imperfect construction and insecure condition, could not longer be safely put off, have added considerably to the debt of the company within the past three years. A portion of this debt is bonded—the balance, mostly placed at a moderate rate of interest, for a term of years, so that it can easily be carried, and it is confidently expected, that with a return of prosperous times and business, it can be gradually reduced and paid off from the surplus earnings.

It is believed that the whole expenditure has been a judicious one, as well as one, that from the character and extent of the business, could not be avoided.

The company have 29 locomotives, 41 passenger, mail and baggage cars, and 1,257 other cars, and 2 snow-plows.

Miles run by passenger trains, 235,320; by freight trains, 286,090; by other trains, 25,310—total, 546,720. Number of passengers carried, 1,692,143; do., carried one mile, 14,976,537. Tons of merchandise carried, 484,887; do., carried one mile, 14,283,114.

BALANCE SHEET, September 30, 1875.

Construction		$2,676,674 50
Viaduct at Worcester		69,314 96
		$2,745,989 46
Cars		570,074 00
Locomotives		263,339 35
Total construction and equipment		$3,579,402 81
Materials for operating and maintaining the road	$177,361 03	
Cash on hand	153,356 37	
Note on hand	1,000 00	
Interest on deposits, due from bank	1,131 21	
Balances due to the company from other roads, etc	31,728 20	
		364,576 81

Capital stock		$2,000,000 00
Bonds payable		500,000 00
Notes payable		1,370 000 00
Total		$3,870,000 00
Dividends, unpaid		3,775 00
Surplus (balance income account)		70,204 62
		$3,943,979 62

President.—WILLIAM S. SLATER.

Directors.—William S. Slater, Earl P. Mason, Paul Whitin, Isaac Davis, Henry Chapin, Gideon L. Spencer, Elijah B. Stoddard, Lyman A. Cook, Estus Lamb, John C. Whitin, James Y. Smith, George A. Leete, Eben B. Phillips, John R. Balch, Moses B. I. Goddard.

Treasurer & Clerk.—JOHN R. BALCH.

Superintendent.—WILLIAM D. HILTON.

Philadelphia and Erie Railroad.

At the annual meeting of the stockholders of this company, held in Philadelphia on the 14th inst., the report of the directors was presented, showing that during the year the gross receipts from freight, passengers, express and mails amounted to $3,365,897 24. The total expenses for conducting transportation, motive power, maintenance of cars and road, were $2,228,485 68, making the net earnings, $1,137,413 56.

During the year there was a decrease in the various sources of revenue amounting to $141,022 04, while the expenses in 1875 were $209,649 33 less than during the previous year. There was a decrease in the number of passengers of 67,761, or 10 per cent less than in 1874.

In the freight carried there was an increase of 153,264 tons over 1874. The cost of working the road was 62.2 per cent of the receipts, 3.3 per cent less than in the previous year.

During the year an insurance of $600,000 was effected at 1½ per cent. The funded debt has been increased during the year by the issue of 1,428 bonds at $1,000 each, consolidated mortgage loan.

The treasurer's report exhibited the following:

DEBTOR.

Cost of road to date	$24,195,883 64
Equipment, etc., for five years and interest	1,337,938 57
Equipment, etc., for 1875	182,797 29
Interest on funded debt	1,150,679 01
Discount on bonds Philadelphia and Erie and Allegheny Valley Railroad Company	367,295 00
Ten per cent on traffic over the Allegheny Valley Railroad Company	30,453 03
Second track, sidings, etc	23,604 03
Maintaining organization	8,000 00
	$27,296,600 57
Deduct net earnings 1875	1,137,413 56
	$26,159,187 01
Oil Creek and Allegheny River Railroad Company bonds	$116,280 00
Lewisburg, Centre and Spruce Creek Railroad Company bonds and stocks	87,007 00
Other bonds and claims	36,971 01
Cash items	8,391 87
	$26,408,629 89

CREDITOR.

Common stock	$6,048,700 00
Preferred stock	2,400,000 00
7 per cent bonds, due 1877	1,000,000 00
6 per cent bonds, due 1881	5,000,000 00
7 per cent bonds, due 1888	3,000,000 00
6 per cent gold bonds, 1920	8,680,000 00
Pennsylvania Railroad Company	234,244 11
Interest account	28,385 78
Allegheny Valley Railroad Co	17,300 00
	$26,408,629 89

The reports were adopted and ordered to be printed.

The resolution of the last annual meeting, requesting the Pennsylvania Railroad Company to increase the sum of $8,000 for maintenance of railroad to $11,000, so as to pay the salary of an engineer and increase the salary of the president, was renewed and agreed to.

The annual election was held, but one change being made in the board of managers, Mr. Alexander Biddle, in place of George B. Roberts. General Robert Thompson was re-elected president, and Robert P. Little, secretary.

Railroads of Massachusetts.

The Railroad Commissioners of the State of Massachusetts, in their report for 1875, state that, since 1835, about 50 miles of railroad have been annually constructed, but during the past year there were only 33.75 miles built. Reports were received from 63 corporations, having control of 2,459.202 miles of main lines and branches, with 693.266 miles of siding, and 622.034 miles of double track —the equivalent in all, 3,788.502 miles of single track. The corporations own $171,616,338 82 of securities, of which $118,261,285 90 are in the shape of stock, and $53,355,052 92 in different forms of indebtedness. The amount of stock has been increased $1,194,487 83 during the year, and the indebtedness $4,797,714 27. The total earnings amounted to $32,589,485 68, a falling off of $2,042,997 86, or 5.9 per cent from those of the year preceding. The chief decrease was in freights, which fell off $1,546,154 46, or 10 per cent. For the first time, it is believed, in the history of the State there was also a falling off in the receipts from passengers, which decreased $375,183 24, or 2.4 per cent from the year before. The falling off was almost exclusively in through travel; the number of those coming and going to and from the State decreasing 479,580, while those travelling within the State only, decreased 137,361. Of the entire year's earnings, 44 per cent was received from freight, and 51 per cent from passengers. The total net income reported was $9,640,657 16, or 5.7 per cent on the permanent investment—that is, on the value of the property as it stands on the books of the corporation. The total number of passengers carried was 42,035.846, a decrease from the preceding year of 444,648. There were 10,-927,812 tons of freight moved. The total tonnage into Boston was 2,043,413 tons, a decrease of 74,-772; and 1,781,082 tons, an increase of 94,521, were carried out of the city. The railroads moved 1,097,000 fewer tons of freight, and received $1,-546,124 less. The total number of accidents reported for the year was 1,179, as against 987 for the previous year, an increase of 12 per cent.

The Manufacture of Bessemer Steel.

A correspondent of the Philadelphia *Ledger*, writing from Harrisburg under date of February 18, 1875, says:

Samuel M. Felton, Esq., President of the Pennsylvania Steel Company, and several gentlemen interested in the iron and steel business, visited to-day the works of the company at Baldwin, near Harrisburg. These works, which were commenced in 1866, are among the most extensive of any in the country for the manufacture of Bessemer steel. The company own over one hundred acres of land, upon which there are, among other substantial buildings, an iron foundry, machine shop, steel foundry, blast furnace, forge for blooming the ingots, rolling mill, dwellings for workmen, church, etc., costing over one million and a half of dollars.

These works are so admirably arranged that over two hundred tons of pig iron may be unloaded in the morning, and by the next day will be manufactured into rails. In the manufacture of steel at this establishment great skill and practice is necessary, so that the various ores used may go in in the proper proportions, and before this is done the ores and pig iron undergo a chemical analysis, so as to ascertain if there are impurities likely to affect the quality of the steel to be made. When the proportions are fixed upon the iron to be melted is placed in the tops of the large cupolas. The fused metal flows from the cupolas into a large ladle, where it is weighed, and when ten thousand pounds are fused, the whole mass is poured into a large iron pot about fifteen feet deep, into the bottom of which, through about eighty small tubes in the fire-clay lining, is forced cold air, by means of a powerful steam engine. The oxygen of the air burns out the silicon and carbon in the iron, and leaves it in the condition of pure iron, with a small amount of oxide of iron absorbed in its mass. At this state Spiegeleisen (iron with a small amount of carbon and manganese in combination) is poured into the converter, and the oxygen is absorbed by the manganese, producing a fluid slag, while the carbon goes into combination with the iron, producing Bessemer steel, which consists simply of pure iron, with about one-third of one per cent of carbon. The steel thus produced is then poured into moulds twelve inches square, and each large enough to hold steel for two rails. The ingots, when removed from the moulds, are carried to huge hammers, one of which—the largest in the United States—weighs fourteen tons, and strikes from a height of seven feet. The other hammer weighs nine tons. With blows from such hammers, it can readily be imagined that the heated metal is soon in as compact a form as it is possible to get it. The blooms thus formed are removed to another part of the building, after being heated in furnaces fired with gas made on the premises, are rolled into rails each thirty feet long. The time consumed in rolling a rail is about a minute.

Spiegeleisen, so necessary in the manufacture of this steel, is made from ores obtained from Spain. They are rich in iron and manganese, and particularly free from phosphorus. The Bethlehem, as well as the Cambria Iron Companies, are now making Spiegeleisen, but a large quantity is still imported.

Though the Bessemer steel industry in this country is comparatively a new one, it has become one of great importance. In 1867 the production of Bessemer steel, for all purposes in this country, was but 3,000 tons, while in 1874 it reached 204,-352 tons. The production of Bessemer steel rails in 1872 reached 94,070 tons, with an importation of 149,786 tons.

In 1874 the manufacture of these rails amounted to 144,944 tons, and the importation to 100,486 tons. During the past year but few steel rails were imported, and these were purchased the previous year, and it is thought that at least 250,000 net tons were produced in the few works yet established in various parts of the United States. Of the total amount the Pennsylvania Steel Works made for the year ending October 6, 1875, 29,811 tons of steel rails, being an increase of 48 per cent over the previous year, and in the sales there was an increase of 72 per cent. In addition to the rails $111,-705 38 worth of frogs, crossings and switches were made, besides steel blooms, scraps, etc.

During the past year this company has erected a new blast furnace, two open hearth furnaces, shop extensions, and a new additional rail mill boiler house, new tenement houses, etc. These improvements give a capacity of 200 tons of steel rails or about 60,000 tons annually, sufficient to lay 600 miles of track. By the introduction of new improvements, steel rails are now made at these works for about the same price paid for pig iron four years ago. In 1864 imported steel rails cost $150 per ton, gold, and they are now made of equal quality at about $61 per ton. The life of steel rails has not yet been determined, as they have not been in use long enough to show any appreciable wear.

Central (N. B.) Railway.

At a meeting of the stockholders of this road, held at Fredericton, New Brunswick, on the 10th inst., the following gentlemen were elected Directors: Alexander Gibson, E. R. Burpee, J. S. Covert, G. G. King, C. W. Wetmore, J. A. Fenwick, and G. H. White. Alexander Gibson was elected President, C. A. Hallet Engineer, and J. L. Inches Secretary-Treasurer. The *Fredericton Reporter*, from which the above is obtained, says:

This Company has been formed for some time to build a railway from the terminus of the Riviere du Loup at Gibson, to the Intercolonial somewhere in King's County, by way of the Grand Lake to the Intercolonial at Weldford in the County of Kent, thus connecting the coal fields of Queen's County with Fredericton, and the Intercolonial Railway, both on its Southern and Northern Division.

The importance of this Road cannot be overrated, and will work a revolution in this Province. The coal deposits near the head of the Grand Lake have not received the attention they deserve, and now that so much is required for railway purposes it becomes all-important to procure a supply at the lowest cost possible. This can be done from our own mines much cheaper than from any others.

There are many other points in connection with this project that we would wish to refer to, but space will not permit us at present. But we cannot refrain calling the attention of our people to the absolute necessity of a bridge over the St. John, at this city. The building of the Central Railway renders this imperative, unless we want to move Fredericton over to Gibson.

☞ The track layers on the Scioto Valley Railroad reached Ashville, 21.7 miles from Columbus, on the 19th inst. The next station is Circleville, a further distance of 7 miles. It is now believed that the road will be completed to Circleville by the 1st of March.

Bessemer Steel in Russia.

We find in the St. Petersburg *Gazette* an account of the inauguration of the first Bessemer steel works in Russia, which, according to the *Annales Industrielles*, is an event of great importance to that country, inasmuch as although exceedingly rich in excellent iron ores, she could until that event only turn out 12,000 tons of finished iron yearly for want of wood; but now with a consumption of fuel reduced to about one half, she will be able to produce double the quantity, and thus be less dependent on other countries.

The first Bessemer plant in the Oural was laid down at the Nijni-Salda works on the Taguil property, and, according to ancient custom, was solemnly baptised. It is true that, since the year 1859, a few attempts at producing Bessemer steel had been made, with the result of proving that a higher class metal could be made from the Oural pig; but at that period there was no market for the article in Russia. When, however, the rapid development of railways in that country, and the general use of Bessemer metal showed that the demand warranted such an outlay, the management at Taguil decided on laying down a complete set of plant, availing themselves of the services of M. Valton, manager of the Terre-Noire works.

Part of the machinery was ordered in France, and the other part was made at Nijni-Taguil, the whole of the work being completed in two years. The works at Nijni-Salda are provided with converters on the English system, each capable of dealing with five tons of metal running direct from blast furnaces specially constructed for the purpose; so that 700,000 pounds—11,000 tons—may be produced yearly. The blowing engine has four horizontal cylinders driven by four turbines, with vertical spindle, which together are equal to a power of 80 horses. All the converters, ladles, cranes, etc., are worked by hydraulic power.

Census of Michigan.

The population of Michigan was taken in April and May, 1874, and the number of inhabitants found to be 1,334,031. This is the third enumeration under the State Constitution which declares that "the Legislature shall provide by law for an enumeration of the inhabitants in the year 1854, and every ten years thereafter."

The Manitou and Fox Islands, which in 1870 contained 211 inhabitants, and the sparsely settled towns in the north of Ogemand county which in that year had 58 inhabitants, made no returns. It is supposed that in neither instance any increase has been established. Adding, therefore, without alteration, the numbers as cited in the real aggregate will be 1,334,300.

The following are some of the results of the enquiries of the several census years:

	1854.	1864.	1874.
Total population	507,521	803 661	1,334,031
Total males	267,472	412,208	697,184
Total females	240,049	391,453	636,847
Proportion of males	52.70	51.29	52 26
Proportion of females	47 29	48.70	47.73
Males aged 21 years and over	124,190	198,830	362,026
Proportion of males 21 and over	24.46	24.74	27.13
Married	173,246	291,325	518,493
Proportion of married	34.13	36.24	38.86
Blind	176	272	548
Deaf and dumb	206	263	615
Insane and idiotic	428	645	1,706
Colored persons (including above)	3,336	8,244	11 032

The occupations of males, aged 21 years and over, and the numbers employed in each class are enumerated in the annexed form:

Agriculture	166,614	=46 51 p. c.
Professional and personal service	83,886	=23.41 "
Trade and transportation	28,973	= 8.09 "
Manufactures	70,581	=19.70 "
Mining	5,782	= 1.61 "
Miscellaneous	2,444	= 0.68 "
Total	358,280	=100 p. c.

The population of each county in 1874 was as follows:

Alcona	1,214	La Peer	25,140
Allegan	32,381	Leelanaw	5,031
Alpena	4,807	Lenawee	46,084

Lake	1,813	Wexford	3,001

There are thirty-eight cities in Michigan with a total of 324,771 inhabitants. The larger number of these have less than 5,000 inhabitants. In 1864 the State had 19 cities with 130,158 inhabitants. In 1854 there were only five cities with 55,605 inhabitants. In the following list are given all cities which have over 5,000 inhabitants:

	1854.	1864.	1874.
Detroit	39,426	53,170	101,255
Grand Rapids	4,244	9,770	25,928
East Saginaw	....	5,725	17,084
Jackson	....	5,544	13,859
Bay City	....	....	13,690
Saginaw City	....	3,203	10,064
Adrian	4,799	7,044	8,863
Muskegon	....	....	8,505
Port Huron	....	4,025	8,240
Flint	....	3,297	8,197
Lansing (Capital)	....	3,573	7,445
Ann Arbor	3,301	5,731	6,692
Monroe	3,835	4,214	5,782
Battle Creek	....	3,856	5,323
Marquette	....	....	5 242
Ypsilanti	....	4,189	5,211

The remaining cities and their population in 1874 were as follows: Manistee, 4,894; Ishpeming, 4,692; Marshall, 4,623; Niles, 4,592; Grand Haven, 4,363; Coldwater, 4,330; Alpena, 3,964; Negaunee, 3,741; Hillsdale, 3,684; Pontiac, 3,651; Wyandotte, 3,338; Ionia, 3,251; Greenville, 3,140; Big Rapids, 3,103; Lapeer, 2,882; Charlotte, 2,631; Holland, 2,469; Owosso, 2,448; Leedington, 2,177; Hastings, 2,075; St. Clair, 2,003; Caruona, 1,845. Many of these embrio cities are destined to hold a favorable position among the cities of the world, and in a short century hence will be household names in the mouths of our successors. In the first year of the present century the whole State had only 551 inhabitants!

The urban and rural population compares as follows in 1854, 1864 and 1874:

	1854.	1864.	1874.
Urban population	55,605	130,158	824,771
Rural population	451,916	673,503	1,009,260
Total population	507,521	803,661	1,334,031
Percentage of urban	10.95	16.19	24.53

This table exhibits the gradations of a State from agriculture, as its chief employment, to the birth and growth of manufactures and commerce. In 1839 the first railroad was opened in Michigan; there are now 3,400 miles in the State. This is the great secret of the movement illustrated by our figures.

Poughkeepsie Bridge Company.

From the contract entered into by the Special Committee of the Poughkeepsie Bridge Company with the American Bridge Company, of Chicago, the following description of the bridge is obtained:

The main river bridge will be composed of five spans, of 525 feet each, from centre to centre of piers, each span having a clear width of 500 feet at water line. The river spans and approaches are to be built for two tracks, with sidewalks and iron hand-rails throughout, and when completed the structure will be what is termed an undergrade or deck bridge. The five river spans are to have each two trusses, 25 feet from centre to centre, on the rectangular plan with double intersections, constructed of iron and steel combined. The base of the rails, which will be of steel, will be 198 feet above high side, and the top of the piers 135 feet, giving a depth of trusses of 58 feet. Approaching from the west there will be a short span of 160 feet, composed of two trusses 30 feet high and 25 feet apart from centre to centre. Leaving the river spans on the east the tracks will be supported by iron trestling, consisting of three post-bents properly braced, and four lines of iron lattice stringers in spans from 20 to 60 feet extending to Water street, Poughkeepsie. Water street and the grounds of the Hudson River Railroad Company, and also Dutchess avenue, are to be crossed by two spans having three trusses of 26 feet in height, and the remaining distance to the easterly side of Talmadge street will be upon iron trestling, except at Delafield and Talmadge street crossings, where the spans will be 90 feet each. The total length of the bridge and its approaches will be 4,500 feet.

The river piers are to be built on wooden caissons, 40x80 or thereabouts at the base, with working chambers from 9 to 10 feet in height, the same to be sunk in the bed of the river by the pneumatic process, similar to the mode followed on most of the Missouri bridges, the St. Louis, and on the East River bridges. It will be so arranged on scientific principles that all of the water, mud, etc., will be forced out of the working chambers, and in their stead the chambers and caissons will be closely packed with concrete. The pressure on the timber platform will not exceed five tons per square foot. The piers are to be first-class ranged masonry, and will finish at the top 11x87 feet.

Maps have been drawn of a route which must command the attention of the commercial and business men of New York city. The construction of the bridge, and the building of the following new pieces of road to be used in connection with lines now in operation, will open up between New York and Chicago a new route of only 921 miles in length, which will be 59 miles shorter than via New York Central and Lake Shore. This saving of distance, and the opening of a new mail route from the West to Manhattan Island, is a matter of the greatest import to nearly all of the interests of

New York city. The new line, as mapped out, is as follows: From New York to Poughkeepsie on the Hudson River Railroad, 72 miles; west end of Poughkeepsie bridge to Summitville on the New York and Oswego Midland Railroad, 28 miles; Summitville to Hancock over the New York and Oswego Midland, 69 miles; Hancock to Elmira over the Erie Railway, 110 miles; Elmira to Warren, Penn. (new road), 141 miles; Warren, Penn., to Warren, Ohio, via the Atlantic and Great Western Railway, 101 miles; Warren, Ohio, to Mansfield, Ohio, via the Atlantic and Great Western Railroad, 107 miles; Mansfield to Centreville, Ohio, via the Baltimore and Ohio Railroad, 22 miles; Centreville to Chicago, via the Baltimore and Ohio Railroad, 271 miles; total, 921 miles.

Self-Acting Car-Coupler.

The Philadelphia and Reading Railroad Company have purchased the right to manufacture and use on their road the Lahaye automatic car-coupling, after giving it a thorough trial of 15 months on 25 freight cars. The company previously adopted the Miller Platform and the Westinghouse Air Brake, with a view of preventing accidents and saving time, and the same object was had in adopting the automatic car-coupling. In coupling cars by hand many accidents happen on each road every year. Many have been the inventions in the car-coupling line, and the Philadelphia and Reading Railroad Company have tried the best of them, but rejected all except Mr. Lahaye's, which alone stood the severest tests and gave entire satisfaction. Mr. Wootten, General Superintendent, and Mr. Paxon, Engineer of Machinery, have closely watched the workings of the various couplings, and the adoption of an automatic arrangement to connect cars and prevent numerous accidents to employees is only another evidence of the enterprise of the Philadelphia and Reading Railroad Company. It is the only railroad that has adopted a self-acting car-coupler.—*Pottsville Miners' Journal.*

The Central Underground Company.

The property and franchises of the Central Underground Company were sold at the Exchange Sales Room, 111 Broadway, on the 8th inst., under a decree of foreclosure. By the terms of the decree the sale embraced the right of way for a railway from the Battery to the Central Park, except that part of Broadway between the City Hall and Union Square; for a railway under the Fourth avenue south of Forty-second street, down to Eighth street. The above are in addition to the right of way in streets, avenues and public places from the City Hall, via Mulberry and other streets, to Union Square, Madison Square, and Madison avenue, to and along the Harlem River for the main line. It was adjudged that the branch to the Central Park and connections with other railroads authorized by the charter, and embracing portions of the above routes, had been legally located, and that the company and its successors had become seized and possessed of the right to enter upon contract and maintain the railway or railways therein for the period granted by the charter—one hundred years. All the conditions to give effect to the grant had been complied with. It is thus adjudicated that this grant, being prior to the grants made to the Vanderbilt and Beach underground companies, has priority over the latter companies where their lines are located in the same streets and avenues as those thus adjudged to be duly located by the Central Underground Company. Origen Vandenburgh, the plaintiff in the foreclosure, became the purchaser. It is understood the sale relieves the property and franchises from embarrassements which have restrained their use for years, and it is claimed by the purchaser that the construction of this railway will be commenced during the Centennial year and be pushed to an early completion.

Oakland, Berkeley and Contra Costa, and Northern Railroads.

The San Francisco *Call* says that the question of granting the right of way through the streets of Oakland to two railroad companies, was recently before the City Council, and then adds:

The new railroad incorporations referred to are what are known as the Oakland, Berkeley and Contra Costa, and the Northern Railroad Companies. The former road is proposed to extend from the San Antonio Creek front of the city of Oakland to Walnut Creek, in Contra Costa county, and to ultimately connect with the Texas Pacific and Union Pacific, while the latter—the Northern Railway Company—has been incorporated for the purpose of constructing a track from the same water front of Oakland, via the Straits of Carquinez, Suisin and Woodland, to Tehama, a portion of which road is to be used in connection with the Bantas and Bay Shore Railway, connecting with the Central Pacific and Southern roads at Bantas Station. On behalf of the Northern Railway Company its President, Leland Stanford, petitioned the Council to permit his corporation to construct their road on Cedar street, from Lincoln street to the workshops of the Central Pacific Railroad Company, with a double track from Lincoln to Short street, and a single track from Short to Atlantic street. The prayer of General Thomas H. Williams, President of the Oakland, Berkeley and Contra Costa Company was for the right to construct a railroad from the northern limits of the city along San Pablo avenue to Market street, and thence down Market street to the water front. When our report closed, the Council had recommended the granting of the petition from the Northern road, as two-thirds of the property owners had consented. This consent had not been secured by the other applicants, and the matter was under discussion.

Liability of Stockholders in National Banks.

A decision of much importance to Stockholders in National Banks has been rendered by Judge Blatchford in the United States District Court, in Bankruptcy, in the case of Edwin L. Stanton, receiver of the First National Bank of Washington, D. C., against Catherine C. Wilkinson. The plaintiff was appointed receiver of the bank named, which suspended in September, 1873, and defendant was the holder of 100 shares of the stock of the bank of the par value of $10,000. An assessment of sixty per cent was made on the stock to pay the "debts and liabilities" of the bank, which assessment defendant refused to pay, and this suit was brought to compel payment. On behalf of defendant a demurrer was filed on the grounds, first, that plaintiff had no right to sue under the New York code, which must govern in this case, not being a party in interest. This was overruled. The second ground of demurrer was that the Court had no jurisdiction. The Court holds that the Court has jurisdiction in common law suits brought by officers of the United States, that this is such a suit, and plaintiff an officer of the United States. Thirdly, it was urged that the proper remedy for plaintiff was not in suits of law against individual stockholders, but in a suit at equity, the view being taken that if the 60 per cent assessed in this case should turn out too much there was no provision for refunding it, and if there were one insolvent stockholder who did not pay, those who could pay must be assessed again, and so be compelled to pay more than their share of the debts of the bank. On this point the Judge holds that the individual liability of stockholders in National Banks is a liability for debts contracted by the bank up to the amount of the par value of their stock; that this liability is general and not for a pro rata share of the debts. If too much is collected, the surplus can be claimed by the stockholders. The criticism that the liability applies to the "debts" and not the "liabilities" of the bank, is pronounced unsound, and the demurrer is dismissed with costs, with leave to defendant to answer within twenty days.

Boston, Lawrence and Haverhill Railroad.

The following description of the route of the proposed narrow gauge railroad from Boston to Lawrence and Haverhill, is from the Boston *Journal*:

Commencing at the Lowell depot in Boston, the road will run parallel with the Eastern tracks to the crossing of the Mystic road, thence by the latter to Mystic River and across it just above the Malden bridge; thence across the Eastern road near Broadway in Everett and close to the post-office in the square, past the junction of Summer and High streets in Everett, along just east of Ferry street; thence through Maplewood in Malden, crossing the Saugus Branch Railroad near the depot; thence past Swain's Pond through the land of the Home Building Association in Melrose, across Upham street just west of School street, near the house of Charles Porter; thence across Howard street near the house of Mr. Corcoran; thence in a northerly direction a little to the east of Main street and into Wakefield, across Oak street near the house of Mr. Savage, through the gap in the hills, across Bennett street near Traverse street and across the Newburyport Railroad near the rattan works; thence by a northerly route to North Reading, running through the corner of Lynnfield, crossing the Salem and Lowell Railroad just east of the station, across the Ipswich River and through the centre of the village of North Reading near the high school building; thence parallel to and east of Haverhill street through the corner of Andover to North Andover; thence bearing a little to the east of Woodchuck Hill, across the Essex Railroad near Swan's Corner; thence by direct line to West Boxford, a little west of the church and near Porter's mill; thence through Bradford, near the town farm, across Salem street and around the hill to Bradford Centre, stopping at the end of the new bridge which connects Haverhill with Bradford.

Spurs are projected from the main line as follows: Leaving the main line just east of Boston Hill, in North Andover, through North Andover village, past Sutton's Mills to Lawrence, the terminus to be at the end of the Union street bridge; another spur runs from this branch to Andover, entering the village near the Post Office; a branch three-fourths of a mile, leaving the main line near the town farm in Bradford, and extending to Groveland; another spur from the main line in Wakefield across Lake Quannapowitt to Reading; a branch leaving the main line near Woodlawn in Everett, and connecting with the Revere Beach road near the Pavilion.

It is proposed that the track shall be three feet gauge. The length of the main line will be about 30 miles and the grade is nowhere in excess of 60 feet.

☞ Advices from Madison, Wis., state that the Vance bill, repealing the obnoxious provisions of the Potter law, passed the Senate substantially in the form in which it came from the Assembly, and now awaits signature. The vote stood in the Senate 20 to 7.

☞ The bondholders of the New Orleans, Mobile and Texas Railroad Company have reorganized into a new company named the New Orleans and Texas Railroad Company.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, February 26, 1876.

Financial and Commercial Affairs.

Money has been in liberal supply through the week, and borrowers in good standing have experienced no difficulty in making prompt and adequate provision for their wants at the ruling figures, which have been within the range of 2½@5 per cent on call, and 4½@7 per cent per annum in the discount line. The inquiry for accommodation has not been particularly urgent from any source. The Treasury cash movements tended toward the close to strengthen the City bank reserves. The disbursements of the local office were gaining on the receipts. The Sub-Treasury balances at the close of last week indicated a slight increase on both the coin and currency items. National Bank notes were redeemed last week to the amount of $3,580,000. The City Banks have had their deposits reduced $796,800; and their legal tender reserve increased $1,072,000. The specie average has been diminished $2,459,700, but this has been only temporary, through the Syndicate payments into the Treasury office. The loan and discount item was increased $1,454,700. The circulation was diminished $110,400. The U. S. Sub Treasury in this city closed the week with a currency balance of $37,620,792 against $37,078,726 the preceding week; and a coin hoard of $47,197,865 against $46,952,108 on the previous return. The City bank exchanges in currency reached $444,910,718, or a daily average of $74,151,786. The customs revenue of the port during the week was $2,876,000. The City banks reported their average of gold last week at $22,044,900, and their greenback average at $48,967,800. Their deposits stood at $224,762,200. The loan

item was $268,011,400. The circulation was $17,183,100.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $14,822,150.

The aggregate of the outstanding U. S. currency, of all denominations, February 1st was $417,205,989. The outstanding amount of legal tender notes is $371,273,140. The National bank circulation is now $341,557,911, including $2,099,280 of national gold bank notes.

On Monday of this week the cash balances of the Treasury Department at Washington were: of Currency $10,106,384; special deposit of legal tenders for the redemption of certificates of deposit, $44,550,000; Coin, $75,051,625; Coin certificates, $33,786,900.

The week's import entries of Foreign Merchandise at New York were $9,018,213, including $3,585,640 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 74 millions; and from Customs, 97 millions.

The specie shipments from San Francisco, by rail for New York, Jan. 1 to Feb. 10th, were $1,336,170.

Gold has been more active, and decidedly stronger as to price. The speculative inquiry has been more animated, and the export drain has been on a more extensive scale. The recent Syndicate payments into the Sub-Treasury, on account of the Funding Loan, temporarily diminishing the available supply of specie in the market. The customs call was increasing. The extremes of the price during the week have been 113½@114⅛, closing on Wednesday at 114⅛ as against 113⅝, on Wednesday of the preceding week. The specie outflow last week was up to $2,331,946 against $954,204 the previous week. The imports of specie at this port last week were $123,852, and since January 1, $557,467, as against $159,102 same time last year. The customs demand for gold last week averaged $396,000 per day. Foreign Exchange has been moderately sought after at about steady rates. Bankers' sixty day bills on London closed on Wednesday at $4 85½@$4 86, sight bills on London at $4 89¼@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $1,651,625. The week's imports of Dry Goods and general merchandise were to the specie value of $9,018,213 as against $7,974,703 the corresponding week of 1875.

Government Securities have been actively inquired for on investment account, and have been quoted rather higher, and at the close buoyant in price. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $358,428,560.

U. S sixes of 1881 closed on Wednesday of this week at 123¼@123½; U. S. Five-Twenties of 1864, at 115@115½; U. S. Five-Twenties of 1865, 118¼@118½; U. S. Five-Twenties of 1865, consolidated, 119⅞@120⅛; U. S. Five-Twenties of 1867, 122½@122¾; U. S. Five-Twenties of 1868, 123¾@124; U. S. Ten-Forties at 121¼@121½; U. S. Fives of 1881, (Funding Loan) 118⅞@119; Six per cent. currency Sixes, 126¾@27.

State and Railway bonds have been in moderately active demand, and generally firm in price. And in the line of Railway and Miscellaneous share property the dealings have been up to a fair average as to amount most of the week, but at irregular prices, closing about steady.

General business has been moderate, checked to some extent by the recurrence of Washington's Birthday, which was observed as a close holiday in financial and commercial circles. Domestic Produce has been unsettled in price, on a restricted movement. Foreign merchandise quiet, as a rule, at about late figures. The Metal trade has been quite limited. Eglinton Pig Iron quoted here at $29 50@$30; Glengarnock $31@$32; Coltness $33; No. 1 American Pig at $23@—; No. 2 do. at $21@—; Forge, $17@20; English Rails (in bond) $35@$36 gold; American Rails at works, $45@$48; Old Rails $20@$22 Wrought Scrap, $30@$31. Ocean freights have been rather quiet, with room for Cotton, Flour, Grain, Petroleum and Provisions in less request, closing weak as to rates.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Illinois Central Railroad.

During the month of January, 1876, 1,735.06 acres of land were sold for $12,511 86. The cash collected on land contracts during the same time was $20,360 28. The traffic on the main line in Illinois was $461,283 21, against $490,190 72 in January, 1875. The traffic of the Iowa lines (leased at 35 per cent of gross receipts) was $127,163 35, against $107,030 81 in January, 1875.

☞ The United States Supreme Court having decided that the foreign stockholders of the Illinois Central Railroad Company could not be taxed on bonds held by them, arrangements are being perfected by the Internal Revenue Bureau to refund the tax paid by them. The amount is nearly $180,000.

☞ The Governor has recommissioned Thomas L. Nelson of Worcester Commissioner to examine the accounts of the Providence and Worcester Railroad.

Car Building at Wilmington, Del.

The Wilmington (Del.) *Commercial* says that the car building industry in that city is quite active. Considerable new work is being done, and not a little repairing. The near approach of the Centennial Exhibition is attributed as the immediate cause of the activity, but the builders state that their orders are such as indicate more than a mere spasmodic demand. They express the opinion that the bottom has been reached in the depression of their business, and anticipate better times in the future. The factories are not yet running up to their full capacity, but the prospects are that they will do so within a limited period of time. The heaviest orders on hand at present are from the Philadelphia, Wilmington and Baltimore Railroad Company, and the new line between Philadelphia and New York.

At the annual meeting of the Delaware, Lackawanna and Western Railroad Company held in this city on the 22d inst., the following officers were unanimously elected for the ensuing year: President, Samuel Sloan; Secretary, Andrew J. Odell; Treasurer, Fred. H. Gibbons; Managers, William E. Dodge, Moses Taylor, George Bulkley, John I. Blair, Rufus R. Graves, Simon B. Chittenden, John Brisbin, George Bliss, Percy R. Pyne, William Walter Phelps, James Blair, Wilson G. Hunt, M. Massey and A. L. Dennis.

☞ The numerous conferences which have recently been held in Pittsburg between the iron and steel workers have resulted in the adoption of a constitution and by-laws for the government of an organization to be known as the International Amalgamation Union of Iron and Steel Workers of the United States. Heretofore the iron and steel workers have had their separate organizations for different branches of the trade. The new society embraces all the iron and steel workers in one common society, and will make a formidable organization, including puddlers, heaters, rollers, etc.

☞ The Edgar Thomson Steel Works will commence, on Monday next, the manufacture of 600 tons of steel rails, to be used by the Pennsylvania Railroad Company in extending their tracks to the Centennial buildings in Philadelphia. After this order has been finished the works will make a steel rail 150 feet in length, for the Centennial Exposition, which will be the largest ever made.

A bill has passed both branches of the Pennsylvania Legislature requesting the attorney general to proceed by writ of quo warranto to forfeit the franchises of the State Line and Juanita, now known as the Baltimore, Philadelphia and New York Railroad.

☞ Wm. B. Strong, General Superintendent of the Michigan Central, has resigned that position, and returned to the Superintendency of the Chicago, Burlington and Quincy. President Joy has appointed H. D. Ledyard, now Assistant General Superintendent, to take his place, with headquarters in Detroit.

☞ The track of the Denver and Rio Grande Railway reached Cucharas on the 22d inst. Cucharas is fifty miles south of Pueblo, and is the point from which the San Juan and Del Norte trade will leave the railway. The track laying will be pushed rapidly from Cucharas to Trinidad, forty miles further.

☞ In the United States Senate, on the 21st inst., a report was presented from the Conference Committee on the bill to pay the interest on the 3.65 bonds of the District of Columbia, and passed by a vote of 31 to 25. A motion was, however, entered to reconsider, which will prevent final action by that body until Wednesday, to which day the Senate adjourned. The report has then to go to the House, so that it is not improbable that the owners of the bonds will not get their February interest until about the first of March.

☞ Messrs. Maitland, Phelps & Co. advertise that they will pay the coupons of the fifth mortgage bonds of the New York and Erie Railroad Company due June 1 and Dec. 1, 1875, on presentation at their office, No. 47 Exchange Place.

Eastern Railroad.

The following is an extract from the Annual Report of the Directors of the Eastern Railroad Company, presented at the Annual Meeting of the Stockholders held in Boston on the 7th inst.:

The Eastern Railroad Company was incorporated by an Act of the Legislature of Massachusetts, dated April 14, 1836, to build and operate a railroad from Boston to the southerly line of New Hampshire, and with a capital stock limited to twenty thousand shares, at one hundred dollars each, or two millions of dollars. The Act was accepted on the 10th of May, 1836, and preparations made for the immediate prosecution of the enterprise.

Among the first questions that engaged the attention of the new company was the election between two proposed routes of location; the one, which was finally adopted, from East Boston to Salem, through the Salem tunnel, over the Beverly bridge, and so northwards; and the other, from a point in Boston near where the American House now stands, over the old Charlestown bridge, through what is now Peabody, to the northwesterly part of the City of Salem, and so northwards, avoiding both the tunnel and the Beverly bridge. The decision of this question has entered vitally into the life and history of the railroad, and is one of the most potent factors of its present condition. Elaborate surveys were made, and a candid and thorough investigation had; the masterly report of the distinguished engineer, Mr. John M. Fessenden, the gift of land a mile in length and about four rods wide for the track, the fact of two miles shorter distance by this location, and the wholly inadequate estimate, as we are now able to see it, of the future extent and business necessities of the road, led to the choice of the East Boston location, and the road was constructed upon that route.

Since that time, as is well known, the passenger traffic and much of the freightage has, at great expenditure for grounds, station and freight houses, been removed from East Boston to the present location in Boston and Charlestown. Simply calling attention now to the very greatly enhanced cost of these terminal facilities, compared with what it would have been at the time of the original location of the road, and to the consideration that we have been compelled to maintain two termini in Boston, we leave this matter to be further adverted to in subsequent portions of this Report.

The road was first built and operated to Salem; then extended to Ipswich; then to Newburyport; and finally completed to the State line Nov. 9, 1840.

On the same day the Eastern Railroad in New Hampshire completed their road from the State line, where it connected with the road of this company, to Portsmouth. Passenger traffic over the extended line was shortly after commenced.

The next movement of the company in 1840 was the building and equipment of the road known as the "Marblehead Branch," from Salem to Marblehead, at a cost of about $55,000. Previous to the establishment of this branch the communication between Marblehead and Boston was by means of stages to Lynn, and thence to Boston; the competition by this stage route continued about four years and then entirely ceased. This branch was never remunerative to the company, and as an independent road, scarcely at this day returns to us more than the current expenses of its maintenance. Its importance has been only as a feeder in furnishing business to be done on the main trunk; and in this view it may now be considered a judicious investment.

In 1845 the "Gloucester Branch," so called, or the road from Beverly, thirteen miles, to Gloucester, was built at a cost of about $383,000, and has always been a satisfactory investment.

In the same year the "Salisbury Branch," running from Salisbury to Amesbury, four miles, was built, at a cost of about $70,000; and although not remunerative in itself, yet, regarding it both as a line and a feeder, it has probably occasioned no serious loss to the company.

In 1847 the branch was built from Salem to Peabody, about two miles; and afterward the Essex Railroad, which extended seventeen miles further to North Andover, was purchased by this company, the whole road being now known as the "Lawrence Branch." This branch has been at the best a heavy burden upon the company, never having been in any sense remunerative, and has occasioned an actual loss to the company of not less than $350,000. There is a mortgage outstanding upon the road, originally for $300,000, but now reduced by payments by this company to $194,000, bearing interest at six per cent. This balance becomes due during the coming autumn, has been once extended, and can probably be again extended if desirable or necessary.

In 1860 the company purchased the "Rockport Branch" for $91,000, making an extension of our Gloucester Branch to that place. We had previously operated this extension for five years without charge, and without any marked loss. The quite considerable business furnished by it passes mostly over our main line, and this investment has always been regarded with favor.

In the year 1873 a branch was built from Swampscott to Marblehead, a distance of about five miles. In our present light, the expenditures for this road, amounting to $175,000, were wholly ill-advised. There are no villages to afford passengers, nor industries to afford freight, at any points between the two termini; and the question when there may be such is one of the problems that rest entirely with the future. All the business now done by this branch would be legitimately done by the old Marblehead Branch, without any additional expense, and is, in so far, a weakening of that branch, making the original cost and the expenses of separate equipment and maintenance of the Swampscott Branch a useless and unproductive outlay.

Four matters of extension successively engaged the attention of the company as works of defense, as follows:

In 1850 the South Reading Branch Railroad was built from a point on the Boston and Maine road to Peabody, making a continuous line possible from Salem and Beverly to Boston over that route. The objections felt at that time in the popular mind against crossing the East Boston Ferry, and the advanced point at which passengers could be landed in Boston by the Boston and Maine road were causing a heavy diversion of our business, both passenger and freight, from our main road to this competing line. It was estimated, and was doubtless true, that we were losing by this diversion about $70,000 a year; certainly a very large part of our Salem and Peabody business and very much of our Eastern travel was thus diverted. This was one of the difficulties entailed upon us by our original location; for it must be obvious that had the other route prevailed and our road run through Peabody, Danvers and Georgetown, centres of business, no inducements would have been held out for the construction of any competing branches through this whole section of the country. The loss, however, was at once perceptibly serious, and threatened an indenflite increase; and some action became requisite to stop the leakage.

Accordingly, first, a controlling interest in this branch was purchased by this company in 1851, for which advanced rates were obliged to be paid; and subsequently we were compelled to purchase the residue of the road by action of the Legislature at its par value, amounting to $380,000. The first cost of this branch was a complete loss to the company, so far as any value in the road itself for passengers or freight was concerned; and the only benefit it has ever been to us has been to stop the diversion of business from our main line: and even this benefit became of short duration; for in the year 1854 most if not all the potential reasons of this expenditure were deprived of force by the establishment of our business stations where they now stand, within the city proper; so that this branch road, before that time of only negative value, has since then become and continues a burden, without the hope of relief, costing us about $10,000 to $15,000 a year, over and above all receipts, to run it as required by the Commonwealth. Repeated and persistent efforts have been made to get the Commonwealth to relieve us from this constant burden and drainage, but without any success.

About the year 1851 the Saugus Branch Railroad was built from Lynn to Edgeworth, and there connected with the Boston and Maine Railroad, again opening and repeating the opportunities for depletion effected by the branch to South Reading. The same dangers were imminent, and the same remedies applied, as in the previous case; but with this important difference in results, that since 1854 the Saugus Branch has been a property steadily increasing in value, and may perhaps now be considered as self sustaining.

The purchase of the Essex Branch Railroad, running from Essex to Wenham, was effected in 1874. This road was built by the town of Essex, and its purchase was contested between the Boston and Maine road and our road. Its importance may be measured by the following considerations: By constructing only three or four miles of a perfectly level road from Bradford to Wenham, the Boston and Maine road could unite Wenham with their Georgetown Branch, and so open a diversion again from our main line to Boston; and again, by the construction of about seven miles of road to Rockport, it would come into competition, not only for all the business done over our road from that thriving place, but also be in the possession of a line of road running directly across our track, and breaking in upon a district of country which ought to have been sacredly covered by our original franchise. For this branch road we paid about $95,000. The hopes entertained of the success of this road have proved a delusion, and it has never been remunerative.

The remaining matter of defence was the leasing by this company of the Newburyport City Railroad for a period of twenty years (eighteen remaining), at an annual rental of six thousand dollars. This was a railroad then having connection only with the Eastern, and extending from our tracks to the wharves just below the crossing of the Newburyport Road, and touching them all. There was no spur connecting it with the Boston and Maine Road; and the question of its control became

a matter of spirited controversy. Subsequently, however, connections were effected with the Georgetown Branch Road, and the larger proportion of the business from these wharves was carried off from us to the Boston and Maine Road—especially the large coal business of Lawrence. The road is not remunerative to us, and we probably lose by it something more than the annual rental.

In 1854, in response to what seemed to be the demand of our own stockholders, and to accommodate the then present and prospective business of Northern lines of railway, the terminus of our passenger traffic was removed to its present location in Boston. The removal was effected by building a new road from North Chelsea—now Revere—about two miles to Cary Cut, so called, thence to Somerville by the Grand Junction Railroad (now owned by the Boston and Albany Railroad), and from Somerville to Causeway Street, about one and seven-eighth miles, by building a new road with the two necessary bridges. The expense of the removal was, in round numbers, $1,300,000, including the land purchased at that time. But the station house was not erected till the year 1862, and cost the sum of $88,500.

In 1874, finding it necessary for the convenience of access to our station and car accommodations, and to prevent the inconvenient encroachments and incumbrance of other roads, to obtain possession of a strip of land, 29 feet in width, extending from Causeway street to the water, upon the extreme Eastern side of our location, we, in the exercise of rights given us by the law, took the land, and became liable to pay therefor such damages as should be legally assessed. This amount was first adjudicated at $125,000 by a jury, but by subsequent proceedings that sum was finally reduced to about $118,000, including all costs. The value of this land probably never exceeded $50,000 at the highest possible appraisement; and the balance of the cost must be set down to loss. Other small improvements, such as car-sheds and extensions, have been from time to time made; and the whole cost of the removal can be safely estimated at $1,500,000.

The Eastern Railroad in New Hampshire, running from the State line to Portsmouth, was leased by the Eastern Railroad Company in 1840, and has always been virtually a part of this road. In 1860 a supplementary contract of lease between the two companies was also made and ratified. The lease of the road and property is for the term of ninety-nine years from June, 1840, by which we are bound to pay to the stockholders of that road, as rental, precisely the same dividends per share of their stock that we pay to the stockholders of the Eastern Railroad Company.

The only question that has risen between the two companies under these arrangements was a claim by the Eastern Railroad Company, made under the original contract, that moneys which had been expended by us for the extension of our tracks to Boston should have been accounted for as earnings to pay dividends. The claim was finally compromised, and harmonious relations preserved, by our paying in full settlement of the claim the sum of $12,000.

In the year 1847 the Portland, Saco and Portsmouth Railroad was leased by the Eastern and Boston and Maine Railroads jointly, at a rental of three dollars a share semi-annually—that is, six per cent per annum on $1,500,000, the capital stock of that company; and the receipts of the road were divided between the two roads, lessees, in the same proportion that the business was carried by them. This lease was for an indefinite time, and contained a provision that if the lease should be broken by either of the lessees, the road so making the breach should pay the lessor, as damages, $100,000. If the breach should be made by the lessor, it should pay to each of the other roads, lessees, the sum of $100,000, or in all $200,000. In January, 1870, the Portland, Saco and Portsmouth Railroad decided to break the contract and pay the penalty. And then began a contest which unfortunately has given rise to much private and public feeling. Precisely where and how it commenced will perhaps never be satisfactorily known. The motives and views which were operative on the part of this company need not be concealed.

In the year 1869, conferences were held between the Eastern Railroad Company and the Maine Central Railroad Company, with a view to the control of all the business of the latter by or in the interest of the Eastern Road. Nothing, however, was done, further than to make clear the views of each party respecting the matter in discussion. One thing became evident to both: that the control of the P., S. and P. Road was essential to any party who proposed to take and maintain the business of the Maine Central Road. If it could be controlled by the Maine Central Road it would hold the key to the through business to Boston, and could turn it to that company which could be induced to carry the business on terms most profitable to it.

About this time—1869 or 1870—and in consequence of these conferences, the Maine Central, as we believe, promoted the annulling of the said joint lease by offering a rental of five per cent in gold, instead of six per cent in currency, as reserved in the lease. The Portland, Saco and Portsmouth now put themselves into the market to excite competition between the three roads—the Maine Central, the Boston and Maine and the Eastern. Six, eight, and finally ten per cent was offered; at length the Eastern Railroad Company, with hesitation and reluctantly, also offered the ten per cent, and the new contract was awarded to it, in consequence of no secret maneuvering, but from the simple fact that the parties then in control of the Portland, Saco and Portsmouth Road happened to be more interested pecuniarily in the Eastern Railroad Company than in its competitor, the Boston and Maine.

Another inciting cause to the breach of this contract existed within the Portland Road itself, and should perhaps be stated. During the war great dissatisfaction had been felt—first on account of its depreciated currency rentals, and, secondly, because the taxes imposed by the Government were deducted from the rentals before payment; and it was therefore natural that the desire should become prevalent for a rental that should be gold and free from taxes. Thus, at all events, it resulted; the contract was broken, the penalty paid, and a new contract of agency made by which the Eastern Railroad Company obtained control of the road to Portland, in perpetuity, at a rental of ten per cent per annum in gold on a capital cost of one and a half million of dollars—that is, a rental of $150,000 yearly. These rates were unduly high and excessive. At the present reduced rate of six per cent, viewed in the light of furnishing business to our trunk line to Boston, the contract is a possession whose value remains to be proved by the results of coming years. It is certainly clear that the Eastern business will never warrant a greater rental than the present reduced rate of six per cent.

Having, in 1871, possession and control of the Portland, Saco and Portsmouth road, the question of availing ourselves of the business of the Maine Central road became one of interest and importance; and it manifested itself in two ways—first, in relation to the Boston and Maine, our competitors for the Portland, Saco and Portsmouth road; and, secondly, in relation to the Maine Central road itself. In regard to the first, it is perhaps sufficient to say that the measures taken proved neither highly creditable nor profitable.

In the year 1871, a contract was effected with the Maine Central, by which the whole of its businass was transferred to the Eastern Railroad Company, that road to furnish suitable facilities to receive and transact the same in Boston. Large anticipations were apparently entertained by the management of both roads, and the immense aggregates of business were spoken of in language we now think somewhat exaggerated. By this first contract, freight was to be transported from Portland to Boston for $1 75 a ton, and passengers at $1 50 each, with a car demurrage of $1 50 a day upon each car of the Maine Central while remaining upon the Eastern road. Practically, under this contract, our cars (entitled to the same demurrage upon the Maine Central road) seldom passed beyond Portland; while the cars of the Central, by the usual course of business, seemed to find a very free and easy access to our road.

It was soon discovered that this, a supposed trifling matter, was fast becoming one of great moment, amounting to a tax of about seventy thousand dollars each year, to be paid by this road for car demurrage alone. Thus arose one of the first difficulties under this new railway consolidation. Negotiations were instituted to abrogate the demurrage clause in the contract; but they proved wholly abortive, and it became apparent that a matter involving so important an interest could not be settled by the ordinary means of mutual compromise and agreement; and yet it was evident that the continuance of the contract imposing this heavy burden was incompatible with the prosperity, and perhaps safety of our road. The relief that seemed most feasible was to get control of a majority of the stock of that road, and then by means of that control to amend the contract.

In 1872, therefore, steps were taken to that end; and, in February of 1872, about 7,619 shares were purchased at an average cost of about seventy dollars a share, amounting to $533,330—a number sufficient to give this corporation or its interests a control in the election of the Maine Central Directors in March, 1873. A contract to complete the purchase of a majority of shares was then made, by which the permanent control of that road was to be made effective to us; accordingly 3495 shares more were secured during the years 1873 and 1874, at prices steadily advancing; and in the former year 1160 shares were purchased at the par value of $116,000; making the whole number of shares then in our control 12,000; and costing about $925,000.

The car-demurrage, which had continued from 1870, was annulled in June, 1873, and a new and second contract substituted. This contract contemplated a union of the Maine Central, the Eastern, and the Portland, Saco and Portsmouth roads, practically into one body, and a division of the net profits in a stipulated ratio between them. It subsisted until 1874, when it gave place to a third contract—dated Jan. 1, 1875—which is now in force. A somewhat similar contract, but differing in important particulars, was made Dec. 28, 1874, between the Maine Central and the Boston and Maine road. The principal object of the third contract made between the Maine Central and the Eastern roads was to secure to the Eastern Railroad

Company the exclusive right of running its passenger cars over the Maine Central road. Under this contract, which contained the usual stipulation for demurrage of freight cars, it was early discovered by the present administration that demurrage was being paid to the amount of $2,000 per month. Attention was forthwith given to the matter; and the demurrage has since almost wholly ceased, promising a net saving to the corporation, in the usual courses of business, of about $24,000 yearly.

Meanwhile the efforts under the contract to secure the control of the Maine Central corporation by owning or controlling an actual majority of its shares were continued. Two thousand other shares having been employed statedly in consonance with the interests of this road, it remained necessary to secure only three thousand shares to effect the object in view; and these having been previously purchased, were paid for in 1875, making the whole actual purchase of control (namely, 15,274 shares) cost, including interest to September 30, 1874, $1,220,583 31.

Schuylkill Navigation Company.

The Schuylkill Navigation Company contemplates some important changes in the management of the Canal in this city. Mr. Edwin F. Smith will become the Resident Engineer of the Company, and Mr. James F. Smith will retain his position of Chief Engineer. Mr. Z. T. Galt, of this city, the present Chief Clerk and Paymaster of Canals, will be transferred to Schuylkill Haven, with his office at that place, and reside at Pottsville. Mr. Howard Royer, of this city, will be appointed Paymaster upon the removal of Mr. Galt to Pottsville, and occupy Mr. Galt's residence. Mr. G. A. Nicolls, of Philadelphia, takes the place of Mr. Charles W. Wharton, of Philadelphia. He will be the General Superintendent of the Company.—*Reading Times.*

☞ The directors of the Little Miami Railroad Co. elected on the 25th ult., are: H. J. Jewett, J. R. Swan, Wm. H. Clement, Henry Hanna, Edmund Dexter, Abraham Hirling, Charles P. Cassilly, L. B. Harrison, Joseph H. Rogers, Henry E. Spencer, A. D. Bullock and R. A. Holden. The Directors organized by the election of H. J. Jewett President, Henry Hanna Vice President, Chas. P. Cassilly Secretary, S. E. Wright Treasurer.

☞ At the annual meeting of the Lowell and Andover Railroad Co., held in Lowell, Mass., on the 9th inst., the following board of directors was elected: James C. Ayer, Gustavus V. Fox, Horace J. Adams, E. O. M. Sargent, George Ripley, Josiah Gates, Frederick Ayer, Jacob Nichols, Arthur P. Bonney and Benjamin Walker. Frederick Ayer was elected President, and Benjamin Walker Clerk and Treasurer. This road is leased by the Boston and Maine Railroad Company.

☞ The directors of the Boston, Clinton and Fitchburg Railroad Company, elected at the annual meeting of the stockholders held on the 8th inst., are: Lyman Nichols, Nathaniel Thayer, Harrison Bliss, Hale W. Page, Wm. J. Rotch, Solomon H. Howe, H. N. Bigelow, Nathaniel Thayer, Jr., George A. Torrey, Thomas Rice, Jonathan Holbrook, Francis B. Fay, Wm. D. Peck and Cyrus Gale.

☞ The General Superintendent of the Michigan Central railroad has issued a circular, dated the 1st inst., saying: "From this date no person will be admitted to the service of this company until he shall have secured a policy of insurance against accident and death in some responsible company."

Commerce of New York.

The foreign imports at New York for the month of January, 1875, are officially stated as follows:

	1875.	1876.
Entered for consumpt'n.	$11,530,339	$12,343,984
Do. for warehousing....	5,716,038	6,283,594
Free goods.....	7,438,591	10,730,484
Specie and bullion.....	146,282	398,197
Total entered at port...	$24,831,250	$29,756,259
Withdrawn fr. wareh'use	7,778,404	5,989,607

The foreign imports at New York for seven months ending January 31, were:

	1875.	1876.
Entered for consumpt'n	$94,773,670	$79,106,546
Do. for warehousing...	45,437,383	40,444,635

Specie and bullion.....	41,722,887	19,067,711
Total exports.....	$201,552,814	$175,812,537
Do. exclusive of specie.	159,799,927	156,744,826

☞ A movement is on foot to construct a railroad from Jerome Park station to Jerome Park race course. It is thought that the Harlem Railroad Company will run special steam trains on race days over the proposed branch road. On other days horse cars will be run over the branch for the accommodation of persons living in the neighborhood of Jerome Park.

☞ At a meeting of citizens of Rockbridge county, Va., on the 14th inst., resolutions were adopted in favor of building a railroad from Buchanan, the terminus of the James River and Kanawha canal, to Clifton Forge, on the Chesapeake and Ohio Railroad.

LAWRENCEVILLE
CEMENT COMPANY.
ROSENDALE
HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York. This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

WM. N. BEACH, Pres't,
96 Wall Street, New York.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

KINGSTON, N. Y. 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER
CEMENT COMPANY.
MANUFACTURERS OF HIGH FALLS
ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT**, (equal to any) put up in new barrels made by themselves, and well papered, and average **300** lbs. Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.

The Coal Trade.

The Philadelphia *Ledger* of February 21st says: The trade for the week ending on the 12th inst., was moderate. The quantity sent from all the regions of which we have report is 138,075 tons, against 132,298 tons for the corresponding period of last year, showing a decrease of 5,785 tons. The total amount of anthracite sent for the year is 2,035,655 tons, against 1,495,600 for same period last year, an increase of 540,065 tons. The quantity of bituminous coal sent to market for the week was 48,252 tons, against 40,868 tons for corresponding week last year, an increase of 7,384 tons. The whole bituminous tonnage from the beginning of the coal year to the 12th inst., is 309,880 tons, against 255,222 tons in corresponding time last year, an increase of 44,658 tons. The total tonnage of all kinds of coal for the week is 186,327 tons, being an increase for the week of 13,169 tons, and the total tonnage for the coal year is 2,345,545 tons, against 1,750,822 tons to same date last year, being a total increase of 594,723 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last three days of January was 27,345 tons, 22,611 tons of which were coal and 4,734 tons coke. The total carried this year is 318,193 tons, of which 255,911 is coal and 62,782 coke. These figures embrace all the coal and coke carried over the road east and west. At Port Richmond for the week ending the 19th inst., there were receipts of 125 tons of coal and shipments of 4,500 tons, leaving 136,000 tons on hand. The receipts of coal at Perth Amboy for the week ending on the 12th instant were 397 tons; total received during the season, 97,274 tons; shipments for the week, 6,695 tons; total shipments for the season, 63,091 tons; leaving on hand 91,942 tons.

☞ Mr. Isaac D. Barton, General Superintendent of the Consolidated Long Island Railroads, has resigned, and will be succeeded by Mr. G. W. Snyder.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, March 4, 1876.

Northern Central Railway.

At the annual meeting of the stockholders of this company, held in Baltimore on the 24th ult. the following named gentlemen were re-elected directors for the ensuing year: Thomas A. Scott, A. J. Cassatt, Wayne MacVeigh, J. C. Bullitt, J. N. Hutchinson, S. M. Felton, Wistar Morris, H. P. Borie, S. M. Shoemaker, M. B. Sellers, M. B. Greensfelder, R. Oppenheimer and George Small. Thomas A. Scott was re-elected President, A. J. Cassatt Vice President, and R. S. Hollins Secretary.

The annual report for the year ending December 31, 1875, was submitted, from which we learn that the revenue of the main line, with its leased and controlled roads, was as follows: from passengers, $816,006 21; freight, $3,691,762 48; express, $85,726 22; mails, $47,480 00; miscellaneous sources, $285,272 81—total, $4,926,247 72. And the operating expenses were: for conducting transportation, $1,070,244 59; motive power, $863,727 60; maintenance of way, $1,079,024 55; maintenance of cars, $275,568 38; general expenses, $73,558 56—total, $3,362,123 68; leaving as net earnings, $1,564,124 04.

In comparison with the year 1874 there was an increase in gross earnings of $249,747 27, equal to 5.34 per cent.; and a decrease in the operating expenses of $21,430 27, equal to .63 per cent. The increase in the net earnings was $271,177 54, or 20.97 per cent.

The operating expenses were 68.25 per cent. of the gross earnings, which, in comparison with 1874, shows a reduction of 4.15 per cent.

In addition to the net earnings of $1,564,124 04, there was received from dividends and interest $59,632, and contribution for operating Elmira, Chemung and Canandaigua divisions (from Pennsylvania Railroad Company,) $82,883 27—total $1,706,639 31; $1,247,176 50 was applied to paying rentals, dividends, &c., leaving net income for 1875 $459,462 81, equal to 7.86 per cent. upon the capital stock. Deducting $173,950 for extraordinary expenses in replacing rolling stock, and adding $82,704 80 to credit of net income December 31, 1874, the total to credit of net income December 31, 1875, was $368,217 61, equal to 6 3-10 per cent. for dividend purposes.

A reduction of the bills payable having been secured, and means provided for necessary improvements at Baltimore, and there being, in the judgment of the board, a reasonable certainty, under the proposed modification of the bonded debt, that the payment of regular semi-annual dividends can now be commenced and continued, it has been determined to pay in April next, out of the amount of $368,217 61 standing to the credit of net revenue, and which is equal to 6.03 per cent. upon the share capital, a dividend of three per cent., leaving a surplus of $192,957 61 to credit of net earnings. The bills payable of the company, January 1, 1875, were $639,821 47; on January 1, 1876, $466,420 95; showing a decrease of $173,400 52; assets on hand January 1, 1876, in securities that may be sold, $641,802 82; real estate in the city of Baltimore, off the line of road, and not required for its purposes, which has been estimated, at current market rates, to be worth $300,000—$941,802 82. These two items at low valuations being more than equal to all bills payable.

The total number of passengers carried was 1,568,186 in 1875 and 1,847,001 in 1874; net increase 221,185. The amount received for the transportation of passengers in 1875 was $816,008 21; in 1874, $864,618 64; decrease in 1875, $48,612 43, owing to the fact that the average distance traveled by each passenger was less. In 1875 5,793,635 tons of freight were moved, and in 1874 5,210,591 an increase of 583,044 tons. Revenue from tonnage in 1875, $3,691,672 48; in 1874, $3,360,217 98, increase $331,544 50. The coal tonnage in 1874 was 762,023 tons, and in 1875 1,077,121 tons. The total coal tonnage to Baltimore was 267,935 tons, an increase of 61,717 tons in 1875. A steady improvement in the condition of the track and of the equipment was made during the year. In the track, 6,628 tons of steel rails were used for repairs, the entire cost of which was charged in the expenses.

The improvements in Baltimore and at Canton have not progressed as rapidly as was expected. They are now, however, all practically completed, with the exception of the grain elevator and the warehouse for rolling freight, the foundations for which are finished. The superstructure of the grain elevator is contracted for, and by the terms of the contract is to be finished and ready for use within five months—being in time for the next crops. The warehouse for rolling freight will also be completed within that time. The coal wharf at Canton, the extension of the car shops at Baltimore, and the new building for the general office of the company in Baltimore are now ready for use. The real estate necessary for the increased business in Baltimore has been secured by the purchase of the two entire blocks of ground between Madison street, North street, Monument street and the falls, and between Buren, Madison and Monument streets and the falls. In addition to which there has been purchased the large lot on the southwest corner of Monument street and the falls, with the brick buildings on it, suitable, with small expenditure, for a delivery freight warehouse, and the lot on the northeast corner of Buren and Monument streets, for the purpose of laying a connection by an easy curve from the track of the Western Maryland railroad on Buren street to connect with the company's Monument street track; thus avoiding the necessity of hauling cars with Monument street freight over the

crowded part of the North street track. These purchases of real estate were made upon favorable terms.

Although more real estate has been purchased than was at first contemplated, the estimated expenditures for this purpose and for the work of construction required will be exceeded but little, if at all. The entire amount of the estimate was $600,000; the outlay to this time has been $374,519 14, and the amount required to complete the improvements, basing the revised estimates upon contracts actually made, is placed at $312,071 45, making a total cost of $687,590 59. Between four and five hundred men are now employed at the shops, but they have a capacity for the employment of a much greater number when needed, and for keeping in repairs a largely increased equipment.

Under the contract with the Western Maryland Railroad Company to use the main tracks of the Northern Central in gaining access to the Hillen station, the trackage receipts will be another source of income to the Northern Central, besides giving to the Western Maryland Railroad Company all the advantages to be derived from its new and central location.

The board has agreed to purchase $100,000 of the first mortgage 7 per cent. bonds of the Elmira State line road, to aid in the construction of the Tioga road from the Pennsylvania State line to Elmira, about twenty miles in length.

A proposition was made in the report for converting the 7 per cent. income bonds of the company into obligations, secured by mortgage, bearing a lower rate of interest.

Under the authority given at the general meeting of the stockholders, held February 25, 1875, one million dollars of bonds under the consolidated mortgage created and executed May 26, 1874, were sold through the house of Drexel & Co., realizing 87½ per cent. net, clear of commissions. The proceeds are being used in expenditures for terminal facilities, real estate and construction in Baltimore, and to reduce the bills payable of the company.

The board expressed acknowledgments to the officers of the company and the employees in the several departments for their prompt performance of duty.

A. J. Frey, of New York, offered a series of resolutions, which were adopted.

The first resolution approves of the report and the action of the board as therein set forth.

2. That the execution and delivery of the second general mortgage of the company to secure its bonds to the amount of $5,000,000, mentioned in the report, is ratified, and the board is authorized to exchange the bonds secured by said mortgage to the amount of $3,000,000, bearing five per cent. interest, for a like amount of its income bonds, dated January 1, 1872, bearing seven per cent.

3. That an additional $1,000,000 of bonds be authorized, secured by said mortgage, interest not to exceed six per cent., optionally convertible into stock at par, for a like amount of seven per cent. income bonds, and the remaining $1,000,000 of bonds under the mortgage to be issued only under authority of the stockholders.

☞ The receipts of wheat at Chicago for 1875 amounted to 81,087,302 bushels, against 95,611,713 bushels in 1874, a decrease of 14,544,411 bushels.

Western Pennsylvania Railroad.

The report of the board of directors, which was presented at an adjourned meeting of the stockholders held in Philadelphia on the 23d ult., states that the total earnings were $626,990 21; total operating expenses, $444,930 99; other expenditures, $226,406 79, showing a deficiency of $40,402 32. The net receipts for the past year show a deficiency in meeting the interest on the bonded debt, and expenditures properly chargeable against the income of the current year of $33,121 76, whilst there have been also expended for betterments, $7,280 56, showing a total deficiency in receipts of $46,462 32.

The bonded debt of the company at the present time amounts to $3,000,000, $1,800,000 of which bears an interest of six per cent, and $1,200,000 seven per cent, giving a total interest account to meet coupons of $192,000 per annum, or about $9,000 in excess of the net receipts of the year 1875.

As the balance of cash on hand as represented in the annual report of the Treasurer, viz., $48,344 73, may give a false impression as to the operations of the road, we would state that this balance was of December 31, 1875, while the coupons of bonds secured by the $1,000,000 mortgage placed on the Pittsburgh branch fell due on the 1st of January, 1876.

At the last annual meeting the board of directors were authorized to make provisions for liquidating the bonded debt by creating a sinking fund for its extinguishment, but the business during the year soon gave evidence that all the earnings that could be realized would be insufficient to meet the current expenses and the interest on the bonded debt, and therefore no action in the matter has thus far been taken.—*Pittsburg Chronicle.*

Cumberland Valley Railroad.

The earnings of this road for the years ending September 30, 1874 and 1875, were as follows:

	1874.	1875.
From passengers	$203,876 47	$186,422 75
" freight	369,495 40	315,653 50
" mails	6,300 00	6,919 67
" express	7,047 24	6,855 39
" miscellaneous	16,590 94	10,224 83
	$603,310 05	$526,076 14
Expenses, viz:		
Conducting transp.	$74,243 05	$69,053 00
Motive power	72,299 36	62,005 30
Maintenance of way	93,835 35	107,074 79
Maintenance of cars	17,133 86	15,383 28
General expenses	16,749 25	11,965 02
	$274,260 87	$265,481 34
Net earnings	$329,049 18	$260,594 80
Cash, October 1, 1874		276,342 21
Balance, 1874		77,747 35
Sale of real estate in Harrisburg		20,000 00
Materials used		16,577 22
Total receipts		$651,261 58
Disbursed as follows:		
Dividends		$177,480 33
Interest on bonds		26,181 25
State tax		11,553 46
Construction		49,186 41
Trustees contingent fund		144,666 07
Balance of accounts		71,331 34
Cash, October 1, 1875		170,862 72
Total, as above		$651,261 58

The operating expenses were 50.46 per cent of the receipts. Compared with the previous year the gross earnings show a decrease of $77,233 91, with a decrease in expenses of $8,779 53, making a decrease in the net earnings of $68,454 38. The gross earnings per train mile were $1 85, operating expenses $0 95.35, net earnings $0 89.65. The number of passengers carried during the year was 376,133; the number carried previous year, 392,354—decrease, 16,221. The report says:

As will appear from the foregoing condensed statements, there has been a falling off in business of all kinds, the continued financial depression affecting every source of your revenue. The general result, however, has been more favorable than we had reason to expect.

A reduction in the rates of freight, especially upon the article of grain forwarded to Philadelphia, has contributed somewhat to the decrease in revenue. This reduction was rendered proper, by a regard for the interests of the people, upon whose patronage your road is largely dependent. The low rates of freight, from the wheat growing States of the far West would, otherwise, have placed the agricultural interests of the Cumberland Valley at a decided disadvantage in the general competition.

The shipments of iron ore last year amounted to 88,233 tons, and this year to 59,404 tons, a decrease of 22,829 tons, or 28 per cent.

Of anthracite coal, there was shipped last year, from Harrisburg and Bridgeport, to stations on Main Line and branches, 112,447 tons, and this year 103,220 tons, exhibiting a falling off of 9,227 tons, or 8.2 per cent.

The percentage of operating expenses is somewhat increased; but it would have cost comparatively little more to have carried the same number of passengers, and moved the same amount of freight as in the preceding year. The item of maintenance of way, also, is largely in excess of last year, by reason of the purchase of 1,005 tons of steel rails, at a cost of $72,943. The difference between the cost of steel and iron rails, in comparing the result with previous years, might properly be classed among extraordinary expenditures. Deducting from the item of maintenance of way such difference, say $25,000, the operating expenses would be reduced to $240,481 34, or 45 76 per cent of the gross earnings.

During the year we have laid 1,005 tons of steel rails; 83 tons of re-rolled iron rails, and renewed 21,654 cross ties.

The amount of steel rails now in main track is 1,553 tons, laying seventeen and one-half miles.

In the Summer of 1867, the company purchased and laid 100 tons of 56 pound English steel rails, and the year following another 100 tons. They were placed in the main track between Harrisburg and White Hill, where our rails are subjected to much harder service than in any other part of the road. These rails have been in use ever since, and are still in good condition, whilst iron rails in the same locality, had only given a service of about three years.

About 800 tons additional will be required to keep and maintain our track in good condition during the coming year. These, when laid, will give us twenty-seven miles of steel rail. Rails of this quality can now be purchased at much lower price than was paid last year.

The operations of the leased lines exhibit the following results:

SOUTHERN PENNSYLVANIA RAILWAY AND MINING COMPANY.

The gross receipts of the railroad of this company were	$23,231 17
Expenditures	20,620 71
Net earnings	$2,610 46

MARTINSBURG AND POTOMAC RAILROAD.

Gross receipts	$13,813 08
Expenditures	12,974 96
Net earnings	$838 12

MECHANICSBURG AND DILLSBURG RAILROAD.

Gross earnings	$20,659 65
Expenditures	12,198 20
Net receipts	$8,461 45

The Mechanicsburg and Dillsburg Branch shows an increase in the business and net earnings over the last year. This is mainly attributable to the increased shipments of iron ores from the mines of the Philadelphia and Reading Coal and Iron Company.

The other lines, owing to the continued depression in the iron business, make a still more unfavorable exhibit than last year.

The South Mountain and Mont Alto Railroads, which have heretofore been valuable feeders to our road, have suffered from the same cause. Valuable ores abound on all these roads, and only await renewed activity in the iron business, to make them available, and a source of profit to their respective companies.

A slight accident to a freight train, is the only one we have to record; none having occurred to passenger trains during the year.

Substantial and necessary improvements are being made on the Main Line. Among them, may be enumerated, an addition to the passenger depot at Carlisle; also, the erection of a new passenger station at Chambersburg. This latter became desirable to avoid the inconvenience and delay of backing trains in to the old depot.

We are also building a large paint shop at Chambersburg; there having heretofore been no suitable place for that work.

New stations, at Newville and Shippensburg, are necessary to provide proper accommodations for the traveling public, and will be erected early next year. When these improvements shall have been completed, our road will then be amply supplied with all the shop facilities, and all the conveniences necessary for the present business of the road.

The construction account is made up of the following items:

James March, contractor	$4,762 68
W. T. Powell, stone for Potomac bridge	461 70
Settlement right of way and real estate at Potomac bridge	580 00
Dwelling house for watchman at Potomac bridge	1,309 70
Real estate for passenger station at Chambersburg	2,668 86
Other real estate at Chambersburg	3,918 36
New passenger station at Chambersburg	4,686 19
Oil house at Chambersburg	69 68
New tools	174 95
Furniture, Harrisburg ticket office	40 73
Scales at Mechanicsburg	314 41
Station house at Greason	485 81
Two new passenger cars	6,706 22
Fifteen new freight cars	7,093 53
Old cars purchased from individuals	3,326 00
New sidings, platforms, etc.	5,840 00
Locomotive purchased	6,748 09
	$46,186 41

The first item is a balance, on final settlement with the contractor, for work done on the Franklin Railroad extension, in the year 1872.

The cars were all built in our own shops. Work of all kinds, on the road and in the shops, is done in the best manner, and the materials are purchased at the lowest price for cash.

The rolling stock and roadway are in excellent condition.

The company does not owe one dollar of floating debt, and the bonded indebtedness is only $352,300. We have, in the hands of the Trustees of the Contingent Fund, over $1 000,000 in securities, being principally the first mortgage bonds of roads assisted by us.

It is expected, that our passenger business, next year, will be largely increased, by the attendance upon the Centennial Exposition at Philadelphia, and we are making such additions to our equipment, as will enable us to meet it.

We invite your attention to the annexed statement of E. M. Biddle, Treasurer, giving the financial condition of the company, and the tables of J. F. Boyd, Superintendent, detailing the operations of the road.

The almost entire exemption from accident during the year, and the prompt and systematic dispatch of business, sufficiently attest the excellent management of the transportation department by Superintendent Boyd. The varied duties of Chief Engineer have been performed by Mr. Lull, in his customary skillful and satisfactory manner. The Board take pleasure in recognizing the faithful services of these gentlemen, and the zealous co-operation of all the officers and employees of the company.

It is, also, a matter of no little gratification to the Board, that we have been able to retain all our employees during this season of unusual depression, and our efforts to do so have been rewarded by faithful service.

The company have 21 locomotives. The number of miles run on passenger trains was 164,769; on freight trains, 168,220; on construction and other trains, 8,340—a total of 341,329, against 389,152 in 1874, showing a decrease of 47,823.

STATEMENT, October 1, 1875.

Cost of road and equipment	$1,842,509 73
Materials on hand	83,557 80
Trustees of contingent fund	1,032,559 97
Balance of accounts	71,331 84
Cash, October 1, 1875	170,862 72
	$3,190,821 56
First preferred stock	$241,900 00
Second preferred stock	243,000 00
Common stock	1,292 950 00
First mortgage bonds	161,000 00
Second mortgage Bonds	109,500 00
Common bonds	81,800 00
Due for dividends	89,795 00
Due for interest on bonds	13,879 20
Balance	956,997 36
	$3,190,821 56

President.—THOMAS B. KENNEDY.

Directors.—Thomas B. Kennedy, Frederick Watts, Thomas A. Biddle, Thomas A. Scott, Wistar Morris, Josiah Bacon, Edmund Smith, George B. Roberts, Strickland Kneass, John Stewart, Daniel O. Gebr.

Secretary and Treasurer.—E. M. BIDDLE.

Superintendent.—J. F. BOYD.

Chief Engineer.—O. N. LULL.

Union Pacific Railroad.

DECISION OF THE UNITED STATES SUPREME COURT.

In the case of the Union Pacific Railroad Company vs. Hall and Morse—error to the Circuit Court for the District of Iowa—the Court hold that Hall and Morse, residents of Council Bluffs, as citizens, bore sufficient interest to give them standing in Court to demand the performance of its obligations by the company, and that it is the duty of the latter, under the acts of Congress, to operate its whole road as one connected continuous line, and that the bridge over the Missouri River, between Omaha and Council Bluffs, is a part of the road to be used in connection with and as part of their entire line. It is said that if Congress did not intend to require the construction of the road from the imaginary line in the middle of the channel, which would be an impossibility, and which is the legal boundary of Iowa, the intention must have been that the initial point should be either on the Iowa or on the Nebraska shore, and if the Nebraska shore was intended, why was it not designated? It is impossible to give a satisfactory answer to the question by the Court, or to the question why the Iowa boundary was designated if the eastern, on the Iowa shore of the river, was not intended to be the terminus of the road. The authority of the company to build the road to the Iowa shore was within itself power to build a bridge over the Missouri River.

No express grant to bridge the river was needed, as whatever bridges were needed on the authorized line were as fully authorized as the line itself; all authority that was given to the company was as a railroad company and not as a bridge company. The bridge was to enable the road to connect with other roads, and it was to be built for no other's use. They were not allowed to charge rates of toll over it which they did not charge upon other portions of their line. The acts chartering the company manifest no intention to distinguish between the bridge over the Missouri River and other bridges on the line of the road if it is not a part of their road. Neither is any bridge between the Missouri and the western boundary of Nevada, for the power to build bridges was given in the same words. Affirmed.

Mr. Justice Strong delivered the opinion. Mr. Justice Bradley dissenting, is of the opinion that the Missouri River is generally understood to be the Western boundary of Iowa, and that the fair construction of the charter of the Union Pacific Company is that their road was to extend from that river westwardly.

Lehigh and Eastern Railway.

The long-talked-of Lehigh and Eastern Railway, which is to extend from Tomhicken, near Hazleton, to a connection with the Erie at Port Jervis, N. Y., is to be built soon. At a meeting of the directors and stockholders, held last week, President Kase stated that the right of way had about all been secured, and that the work of grading would be immediately begun, and that the road would be in running order during the coming Summer. The road will cross the Pocono Mountain a few miles north of Stroudsburg, thence pass up the Pennsylvania side of the Delaware River, crossing the same near the point of connection. It is intended principally for coal transportation.—*Easton Express.*

☞ The Easton (Penn.) Express, of February 23d, says: "Our townsman, Mr. Peter Brady, Civil Engineer, has been appointed to make a railroad survey from West Point, at the head of York River, Virginia, to Hanover Junction, there to connect with the Chesapeake and Ohio Railroad. His assistant engineers, Mr. Mason and J. Marshall Young, with their instruments for field operations, left here yesterday. At West Point they will be joined by balance of two large parties, in order to make a careful exploration of the country between those points."

☞ At the recent annual meeting of the Quicksilver Mining Company the following-gentlemen were elected directors for the ensuing year: Hon. Sir Alexander T. Galt, K. C. M. G.; Abraham B. Baylis, John T. Martin, James H. Banker, Samuel W. Boocock, George W. Butts, James D. Smith, George A. Hoyt, Charles Friel, Edward Brand, William H. Hayes. Subsequently, at a meeting of directors, the following officers were elected: A. B. Baylis, President; G. W. Butts, Vice President; D. Mahany, Treasurer and Secretary.

☞ The earnings of the Philadelphia and Erie Railroad in January, 1876, were $231,193 49, the expenses $150,841 69, and the net earnings $80,351 80. In January, 1875, the earnings were $195,606 61, the expenses $151,818 24, and the net earnings $43,788 37—showing an increase in earnings of $35,586 88, with a decrease in expenses of $976 55, making the increase in net earnings $36,563 43.

☞ The contractors have broken ground on the Dublin and Southeastern Railroad, at Jamestown, Green county, Ohio.

Wisconsin Railroad Law.

We give below the full text of the Vance Railroad Law of Wisconsin, modifying the Potter Act, as finally adopted by the Legislature and signed by the Governor:

AN ACT to amend chapter two hundred and seventy-three (273) of the laws of 1874, entitled "An act relating to railroads, express and telegraph companies in the State of Wisconsin," and to repeal other sections and acts named therein.

SECTION 1. Within ten days after the passage and publication of this act, the Governor, by and with the consent of the Senate, shall appoint a Railroad Commissioner, who shall hold his office for the term of two years from the 15th day of February, and until his successor shall be appointed and qualified. Every two years thereafter the Governor, by and with the advice and consent of the Senate, shall appoint a Railroad Commissioner, who shall hold his office for the term of two years, and until his successor shall be appointed and qualified. And the nomination of Railroad Commissioner shall hereafter be sent to the Senate by the Governor during the month of January, immediately preceding the beginning of such Commissioner's term of office. The Governor shall have power to remove such Commissioner and appoint another to fill the vacancy at any time in his discretion. No person owning any bonds, stocks, or property in any railroad company, or who is in the employ of or in any way or manner pecuniarily interested in any railroad corporation, shall be so appointed.

SEC. 2. The Railroad Commissioner shall inquire into any neglect or violation of the laws of this State by any railroad corporation doing business therein, or by the officers, agents, or employes thereof, and shall also, from time to time, carefully examine and inspect the condition of each railroad in the State, and of its equipment, and the manner of its conduct and management with relation to the public safety and convenience. He shall also examine and ascertain the pecuniary condition and the manner of financial management of each and every railroad corporation doing business in this State.

SEC. 3. To enable said Commissioner to make the report and return required by section (12) of the act of which this is amendatory, the President or managing officer of each railroad corporation in the State shall annually make to the Railroad Commissioner, in the month of October, such returns, and in the form he may prescribe, as will afford the information required for their said official report. Such returns shall be verified by the oath of the officer making them, and any railroad corporation whose return shall not be made as herein prescribed, within the month of October, shall be liable to a penalty of one hundred dollars, ($100) for each and every day after the 31st day of October that such return shall be willfully delayed or refused.

SEC 4. No railroad corporation shall charge, demand, or receive from any person, company, or corporation, for the transporation of persons or property, a greater sum than it shall at the same time charge, demand, or receive from any other person or corporation for a like service from the same place; and no railroad corporation shall charge or receive a larger sum per car load from one person than any other shipping from the same place; but this last provision shall not apply to shipments from connecting points.

SEC. 5. No railroad corporation shall charge, demand, or receive from any person, company, or corporation, an unreasonable price for the transportation of persons or property, or for the handling or storing of any freight, or for the use of its cars, or for any privilege or service afforded by it in the transaction of its business as a railroad corporation.

SEC. 6. It shall be the duty of any railroad corporation, when within their power so to do, and upon reasonable notice, to furnish suitable cars to any and all persons who may apply therefor, for the transporation of any and all usual kinds of freight, and to receive and transport such freight with all reasonable dispatch, and to provide and keep suitable facilities for the receiving and handling the same at any depot on the line of the road.

SEC. 7. Any railroad corporation who shall violate any of the provisions of this act as to extortion or unjust discrimination, or the provisions hereof establishing rates, shall forfeit for each and every such offense to the company, person, or corporation aggrieved thereby, three times the actual damage sustained, together with the costs of suit, to be recovered in a civil action therefor, and all prosecutions shall be made at the expense of the State, and it shall be the duty of said railroad Commissioner on receiving complaint in writing from any citizen in this State, stating that any railroad corporation has violated any of the provisions of this act, and specifying the acts complained of, to investigate such alleged violation, and if on such examination he shall find such complaint well founded, he may, in his discretion, report the facts to the Attorney General, and thereupon it shall be the duty of the Attorney General to prosecute said complaint at the expense of the State for the benefit of the party aggrieved.

SEC. 8. No railroad corporation shall consolidate the stock, property, or franchise of such corporation with, or lease or purchase the works or franchises of, or in any way control any other railroad corporation owning or having under its control a parallel or competing line; nor shall any officer of such railroad corporation act as the officer of any other railroad corporation, owning or having the control of parallel or competing lines, and the question whether such railroads are parallel or competing lines shall, when demanded of the complainant, be decided by a jury as in other civil issues: provided, that the provisions of this section shall not apply to any contracts now existing, where one corporation has become responsible for the liabilities of another, either by advances heretofore made, or by the guarantee of bonds previous to the passage of this act; nor shall it apply to any railroad corporation which, prior to the passage of this act, shall have been authorized to purchase or hold stock in any other railroad corporation.

SEC. 9. No President, Director, officer, agent, or employe, of any railroad or transportation company shall be interested directly or indirectly in the furnishing of material or supplies to such company, or in the business of transportation as a common carrier of freights or passengers over the lines owned, leased, controlled, or operated by such company.

SEC. 10. In the construction of this act, the phrase railroad shall be construed to include all railroads and railways operated by steam, and whether operated by the corporation owning them, or by other corporations, or otherwise. The phrase railroad corporation shall be construed to mean the corporation which constructs, maintains, or operates a railroad operated by steam power.

SEC. 11. The Chicago, Milwaukee and St Paul Railway Company shall file with the Commissioner, before the day when this act shall take effect, the regular published schedule of their tariff rates for the transportation of persons and property which was in force on their railroads on the 15th day of June, A. D. 1872, duly verified by the oath of the General Freight Agent of said company thereto attached, and that company and the Western Union Railroad Company, and the Chicago and North-western Railway Company, shall not demand, collect, or receive a greater compensation for the transportation of persons or property than is fixed in such schedule for corresponding distances. This provision shall also apply to such lines of railroads as have been built and put into operation by either of said companies and operated under lease or otherwise since the date above mentioned; provided that the Chicago, Milwaukee and St. Paul Railway Company, and the Western Union Railroad Company, and the Chicago and North-western Railway Company, shall sell at all ticket stations, on their respective lines, within this State, tickets for 500 miles, which shall be transferable; also round-trip tickets, good for first-class passengers to and from any station within this State, on their respective lines of road, at a uniform rate of three cents per mile; and provided further, that no railroad corporation shall be compelled to accept less than five cents for the transportation of any passenger between any points.

SEC. 12. All the powers, duties, and privileges conferred on the Board of Railroad Commissioners by the act to which this act is amendatory, and not herein repealed, are hereby conferred on the Railroad Commissioner to be appointed under the provisions of this act.

SEC. 13. Sections 1, 2, 3, 4, 5, 6, 7, 8, 13, and 14, chapter 273, of the laws of 1874, of which this is amendatory; chapter 341, of the laws of 1874, entitled "An act in relation to railroads;" chapter 334, of the laws of 1875, entitled "An act to amend chapter 573, of the laws of 1874, entitled 'An act relating to railroad, express, and telegraph companies, in the State of Wisconsin,'" and the first section of chapter 118, of the laws of 1875, are hereby repealed; provided, that nothing herein contained shall in any manner affect any litigation now pending in any of the courts of this State, or any court or courts of the United States.

SEC. 14. The Commissioner appointed under the provisions of this act shall receive for his services the sum of $3,000 per annum, payable monthly, at the end of each month, and three dollars per day for traveling expenses for each and every day actually traveled in the performance of the duties hereby required. He shall be furnished with all office furniture and stationery and necessary books and maps at the expense of the State; and the said Commissioner is hereby authorized and empowered to employ a clerk at an annual salary of $1,200, payable at the end of each month. The office of said Commissioner shall be kept at Madison, and all sums of money authorized to be paid by this act, out of the State Treasury, shall be paid only on the order of the Gorernor, provided, that the total sums of money to be expended by said Commissioner for office rent, furniture, and stationery, shall in no case exceed the total sum of $800 per annum.

SEC. 15. This act shall take effect and be in force from and after its passage and publication.

Approved Feb. 24, 1876.

Oil Creek and Allegheny River Railroad.

The earnings, expenses and net earnings of this road for the year ending December 31, 1875, as compared with the previous year, are as follows:

	1874.	1875.
Gross earnings	$846,851 72	$809,796 01
Expenses	562,119 68	570,875 86
Net earnings	$284,742 04	$238,920 15

Showing a decrease in the gross earnings of $37,055 71, an increase in the expenses of $8,756 18, and a decrease in the net earnings of $45,821 89.

The capital stock of the company is	$5,000 000
First mortgage 7 per cent bonds	2,580,000
Consolidated mort. 7 per cent bonds	1,150,000
Income bonds, 6 per cent	340,000
Total stock and bonded indebtedness	$9,070,000

Alabama State Debt.

A bill has passed the Alabama Legislature ratifying the settlement of the State debt made by the commissioners. All direct State bonds, except those in aid of railroads, are to be taken up and new ones issued, to bear interest from July next, at two per cent. for five years, three per cent. for five years, four per cent. for ten years and five per cent. for ten years. All past due in-

terest coupons are to be given up and cancelled. The bondholders of the Alabama and Chattanooga railroad surrender the bonds issued and endorsed by the State in aid of the road, and take the road, property and franchises, and receive in addition one million of bonds, to bear interest as the other new bonds. The remaining railroad bond matters are yet unadjusted. The settlement will bring the entire indebtedness of the State inside of $10,000,000.

Census of Wisconsin.

The results of the census of 1875 show that Wisconsin contained in that year 1,236,729 inhabitants. The population by the State census of 1865 was 868,325, and by that of 1855 it was 562,109. These figures show that the increase in the ten years from 1865 to 1875 has been 368,404 or 42.43 per cent, and in the twenty years from 1855 to 1875, 684,620 or 124 per cent. The increase from 1855 to 1865 was 306,216 or 57.28 per cent.

Wisconsin has 60 counties, with the population enumerated below:

Adams	6,502	Lincoln	895
Ashland	750	Manitowoc	38,456
Barron	3,737	Marathon	10,111
Bayfield	1,032	Marquette	8,597
Brown	35,373	Milwaukee	122,927
Buffalo	14,219	Monroe	21,026
Burnett	1,456	Oconto	18,812
Calumet	15,065	Ontonagon	25,558
Chippewa	13,995	Ozaukee	16,545
Clark	7,282	Pepin	5,816
Columbia	28,803	Pierce	15 101
Crawford	15,035	Polk	6,736
Dane	52,798	Portage	14,856
Dodge	48,394	Racine	28,702
Door	8,020	Rockland	17,358
Douglas	741	Rock	39,039
Dunn	13,427	St Croix	14,956
Eau Claire	15,991	Sauk	26,932
Fond du Lac	50 241	Shawano	6,635
Grant	39,086	Sheboygan	34,031
Green	22,027	Taylor	849
Green Lake	15,274	Trempeleau	14,992
Iowa	24,133	Vernon	21,524
Jackson	11,339	Walworth	26,259
Jefferson	34,908	Washington	23,862
Juneau	15,300	Waukesha	29,425
Kenosha	13,907	Waupaca	19,646
Keewaunee	14,405	Waushara	11,523
La Crosse	23,945	Winnebay	45,033
Lafayette	22,169	Wood	6,048

The cities of Wisconsin, large and small, number 33 corporations. Of these Milwaukee contains 100,975 inhabitants; Oshkosh, 17,015; Fond du Lac, 15,308; Racine, 13,274; La Crosse, 11,012; Janesville, 10,115; Madison (capital), 10,093; Watertown, 9,524; Green Bay, 8,037; Sheboygan, 6,728; Manitowoc, 5,724; Chippewa Falls, 5,050; Kenosha, 4,959; Beloit, 4,605; Portage, 4,337; Neenah, 4,023; Fort Howard, 3,610; Ripon, 3,501; Beaver Dam, 3,455; Steven's Point, 3,363; Berlin, 3,341; Menasha, 3,170; Mineral Point, 3,054; Prairie du Chien, 2,948; Wausau, 2,820; Oconomowoc, 2,121; Columbia, 1,903; New London, 1,882; Grand Rapids, 1,418; Centralia, 800; Shawano, 789; and Buffalo, 275.

It thus appears that the State has one city of 100,000 and upwards; six cities of 10,000 and less than 18,000; five cities of 5 000 and less than 10,000; four of more than 4,000 and less than 5,000; seven of more than 3,000 and less than 4,000; three of more than 2,000 and less than 3,000; three of more than 1,000 and less than 2,000; and three of under 1,000. The total urban population is 269,229, or 21.94 per cent of the total population.

Detroit and Milwaukee Railroad.

In lieu of the customary annual report and accounts printed by the company, the following comparative results of the operations of the year 1875, and condition of the company at the 31st December, 1875, is published for the information of the creditors:

RECEIPTS AND EXPENSES FOR THE YEAR 1875, EXCLUSIVE OF LAKE MICHIGAN PROPORTION.

Receipts:	1874.	1875.
From passengers	$448,625 66	$371,500 04
" freight and live stock	641,938 71	478,318 71
" mails and sundries	41,647 30	33,815 78
	$1,132,211 67	$888,634 53
" rents	18,995 03	14 012 16
	$1,151,206 70	$902,646 69
Net revenue for the whole year brought down		$34,185 41
Balance		36,932 98
		$71,118 39

Expenses:	1874.	1875.
Maintenance and renewal of way	$248,785 68	$251,620 35
Locomotive power	213,969 56	208,514 36
Passenger and freight car repairs	135,583 03	104,412 80
Passenger transit expenses	110,049 26	90,076 37
Freight transit expenses	156,843 05	129,910 71
General charges	36,881 22	27,989 18
Total working exp.	$902,111 80	$812 223 77
Taxes and insurance	42,360 45	*56,237 51
Total revenue expenditure	$944,472 25	$868,461 28
Balance, being net revenue for the whole year	206,734 45	34,185 41
	$1,151,206 70	$902,646 69
Interest on Detroit and Pontiac Railroad bonds		$37,500 00
Interest on Detroit River front and mechanical shop bonds		10,326 66
Discount and exchange		5,918 55
Construction		17,373 18
		$71,118 39

* The taxes and insurance for the year 1875 include the State tax for a year and a half, $37,757 10.

Liabilities of the company, exclusive of principal and interest on mortgage bonds, at 15th April, 1875, at which date the receiver took possession	$566,724 55
Accrued and outstanding interest to 15th April, 1875, on Detroit and Pontiac Railroad bonds, and mortgages on Detroit river front property, and mechanical shops at Detroit	16,200 44
	$582,924 99
Less assets at 15th April, 1875	110,772 57
Excess of liabilities over assets at 15th April, 1875, excluding principal of all bonds and mortgages, and interest on general mortgages	$472,152 42
Liabilities at 15th April, 1875, reduced at 31st December, 1875, to $301,584 44, and consisting of—	
Steel rails	$207,602 68
Wood and ties	14,465 14
Other supplies	20,184 22
Other companies, etc	59,332 40
	301,584 44
	$170,567 98

Reduction of old liabilities by the receiver (see note at foot), viz:		
Wages		$95,567 67
Wood and ties		46,485 69
Other supplies		13,934 71
On State tax		19,927 36
Insurance premium notes		6,500 00
Interest on Detroit and Pontiac bonds and mortgages on river front and shops at Detroit		10,582 97
		$192,998 40
Less collections on account of assets at 15th April, 1875, deducting accounts paid other companies, etc.		22,430 42
		$170,567 98
Accomplished thus:		
Gross receipts, 16th April to 31st December, 1875		$689,017 98
Less working expenses, taxes and insurance, 92.50 per cent of gross receipts		637,380 59
Net revenue, 8½ months		$51,637 39
Interest paid by receiver on Detroit & Pontiac bonds, & Detroit river front and mechanical shop mortgages, by order of court	$19,037 29	
Construction expenditure	14,719 12	
		33,756 41
		$17,880 98
Fuel and stores on hand at 15th April, 1875	$168,136 52	
Ditto on hand at 31st December, 1875	94,404 47	
		73,732 05
		$91,613 03
Due by the receiver:		
For wages for November and December, 1875	$88,282 52	
Stores, mileage, etc., for December, 1875	15,782 31	
Bills payable (insurance premiums)	7,021 86	
Accrued State tax, since 1st July, 1875	12,585 70	
To Commissioners Pontiac Asylum for Insane	6,643 66	
	$130,316 05	
Less due to receiver:		
For sundry accounts and traffic balances	$45,163 37	
Cash in bank 1st January, 1875	6,197 73	
	51,361 10	
		78,954 95
		$170,567 98

NOTE.—It is to be observed that while the liabilities at 15th April, 1875, were reduced $170,567 98, at 31st December, 1875, it was only by incurring a balance of new debt of $78,954 95, for wages, etc., and by the absorption of $73,732 05 of fuel and stores on hand at the former date, as appears above.

C. C. TROWBRIDGE, Receiver.

Detroit, February 9, 1876.

☞ Instructions have been issued to superintendents of the several divisions of the Chesapeake and Ohio Canal to have that highway open for traffic by the 10th of March. It is understood that the canal is being put in excellent condition for freighting.

☞ The United States Rolling Stock Company has declared a dividend of $2 94 gold, payable March 1.

American Railroad Journal.

Saturday, March 4, 1876.

Financial and Commercial Affairs.

Money has been fairly active. Speculative dealings at the Stock and Gold Boards have been the main source of the demand for call loans, rates on which have been quoted at from 2½@5, generally at 3@3½ per cent to responsible Street houses. At these figures, the offerings of capital have been liberal—in excess of the actual requirements of borrowers. The discount market has been comparatively quiet, with strictly choice to prime commercial credits quoted at 4½@6 per cent per annum. The movements in Produce and Merchandise, thus far, have been moderate, and have yielded only a limited supply of strictly first class mercantile paper, which has been in very good request at the current quotations. The U. S. Sub Treasury business of the week had but little influence on the course of Money, either as to offerings or price. The last City Bank statement indicated a falling off in the net reserve of over a million dollars. The most important change in the bank averages was the decrease in the Specie line. Further sales of U. S. Five Twenties, on European account, tended to depress the public funds, which on the Five Twenty bonds yet outstanding yielded in price, but the later dealings were on a firmer basis as to values. Rumors from Washington, as to funding legislation also excited a disturbing influence early in the week. National Bank notes received at the Treasury Department, last week for redemption were to the amount of $3,868,000. The City Banks have had their deposits reduced $424,800; and their legal tender reserve increased $45,300. The specie average has been diminished $1,338,700. The

loan and discount item was increased $468,600. The circulation was diminished $161,100. The U. S. Sub Treasury in this city closed the week with a currency balance of $37,336,123 against $37,620,792 the preceding week; and a coin hoard of $44,729,068 against $47,197,876 on the previous return. The City bank exchanges in currency reached $365,839,784, or a daily average of $73,167,957. The customs revenue of the port during the week was $2,297,000. The City banks reported their average of gold last week at $20,706,200. and their greenback average at $49,013,100. Their deposits stood at $224,337,400. The loan item was $268,480,000. The circulation was $17,022,000.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $13,634,950.

The aggregate of the outstanding U. S. currency, of all denominations, March 1st was $416,584,372. The outstanding amount of legal tender notes is $371,273,140. The National bank circulation is now $340,127,911, including $2,099,280 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $8,836,457; special deposit of legal tenders for the redemption of certificates of deposit, $45,470,000; Coin, $70,814,449; Coin certificates, $33,994,100.

The U. S. Sub Treasury receipts from all sources in February were $62,743,989, including $9,610,464 from customs; and the disbursements on all accounts were $66,284,522, including $63,909 of coin interest.

The week's import entries of Foreign Merchandise at New York were $5,078,878, including $1,956,888 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 76½ millions; and from Customs, 100 millions.

Gold has been quite active, and generally firm as to price. The speculative demand has been animated. The export call fair, and the customs drain moderate. Included in the week's exports of Specie were $250,000 in American Gold coin for Havana, representing part of the recent purchases here on account of the Spanish Government. The extremes of the price during the week have been 113¾@114⅛, closing on Wednesday at 114¼ as against 114⅜, on Wednesday of the preceding week. The specie outflow last week was $819,849 against $2,331,946 the previous week. The imports of specie at this port last week were $13,991, and since January $571,458, as against $1,331,828 same time last year. The customs demand for gold last week averaged $382,833 per day. Foreign Exchange has been in fair request and quoted about steady. Bankers sixty day bills on London closed on Wednesday at $4 85½@$4 86, sight bills on London at $4 89@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,498,987. The week's imports of Dry Goods and general merchandise were to the specie value of $5,078,878 as against $9,658,790 the corresponding week of 1875.

Government Securities have been less active and have been variable in price. The offerings of Five Twenties on European account tended early in the week to depress values. The market, however, closed with more firmness, under a better investment inquiry. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $356,998,650.

U. S sixes of 1881 closed on Wednesday of this week at 123¼@123½; U. S. Five-Twenties of 1865, 117⅝@118; U. S. Five-Twenties of 1865, consolidated, 119¼@119½; U. S. Five-Twenties of 1867, 121½@121¾; U. S. Five-Twenties of 1868, 123⅜@123⅝; U. S. Ten-Forties at 121¾@122; U. S. Fives of 1881, (Funding Loan) 118¾@119; Six per cent. currency Sixes, 127@127¼.

State and Railway bonds have been in fair request, chiefly on investment account, and generally quoted firm. And in the line of Railway and Miscellaneous share property business has been on a restricted scale most of the week, and prices have been depressed and unsettled, closing weak and feverish in the instances of the speculative favorites.

General business has been rather tame. Domestic Produce has been moving rather more freely, but at irregular prices. Cotton, Breadstuffs, and Provisions closed heavy. Foreign merchandise has been comparatively quiet. Sugars, Teas, and Coffee closed easier in price The Metal trade has been slow, with values quoted nominally unchanged. Eglinton Pig Iron quoted here at $29 50@$30; Glengarnock $31@$32; Coltness $33; No. 1 American Pig at $23@—; No. 2 do. at $21@—; Forge, $17@20; English Rails (in bond) $34@$36 gold; American Rails at works, $45@$48; Old Rails $19@$22 Wrought Scrap, $30. Ocean freights have been somewhat brisker, with room for Grain, Petroleum and Provisions in most request, closing firmer as to rates.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New Orleans and Texas Railroad.

At an adjourned meeting of the bondholders of the New Orleans, Mobile and Texas Railroad Company, held at the office of Messrs. Morton, Bliss & Co., on the 25th ult., it was unanimously agreed to organize the New Orleans and Texas Railroad Company with a share capital of $2,000,000. The company is to take over the road from the trustee who purchased it for account of the bondholders. Every bondholder has the right to join the new company and to receive $250 in stock for each bond. The following persons constitute the first Board of Directors: John B. Laffite, L P. Morton, Charles Moran, George Jones, Henry Morgan, Oliver Ames, 2d, Thomas N. Hunt, J. F. Terry, William Mertens, Joseph Seligman. Bondholders desiring to join the new organization can do so by subscribing to the articles of association.

Always in Season.

There is never a time when somebody is not buying FAIRBANKS' SCALES! We learn that, notwithstanding the general stagnation in business during the year just closed, no year has witnessed such a demand for Fairbanks' Scales. The fact is that they are an article of manufacture to which national importance attaches. Our business men all over the country have long since come to regard these scales as indispensable, and the endorsement of the United States Government in the award of another contract for supplying thousands of post-offices throughout the country with scales of Fairbanks' manufacture, gives a fresh emphasis to the character of the firm and the quality of their work. The Fairbanks standard is not only universally recognized here, but also throughout the world, and no special American manufacture holds a higher rank than the Fairbanks' Scale. With improved machinery of their own invention, and ample facilities for keeping pace with the increasing demand, an abundance of skilled labor and thorough management, the Messrs. Fairbanks enter upon the year 1876 with the prospect of a business that shall completely eclipse that of any preceding year in the history of the firm.—*Chicago Tribune, Jan. 15th, 1876.*

☞ A dispatch dated Pueblo, Colorado, February 26, says: "The track of the Atchison, Topeka and Santa Fe Railroad was completed to this city this evening, and now Southern Colorado has a direct broad gauge railroad connection with the Eastern States. The track of the Denver and Rio Grande Road is being pushed rapidly south, and soon these two roads will monopolize the carrying trade to New Mexico and Arizona. Tuesday, March 7, has been designated as the day for a grand celebration in this city in honor of the event."

☞ In the House of Representatives, on the 25th ult., Mr. Buckner, from the Conference Committee on the bill to pay the interest on the 3.65 bonds of the District of Columbia, made a report, which was debated at considerable length, and then postponed for one week.

OFFICE OF THE HANNIBAL AND ST. JOSEPH R. R. Co., No. 78 BROADWAY, NEW YORK, Feb. 24, 1876.

THE INTEREST MATURING MARCH 1, 1876, on the fifteen-year eight per cent convertible bonds of this company will be paid on presentation of the proper coupons at the Bank of North America, No. 44 Wall st., New York, on and after Wednesday, March 1, 1876. JOHN P. ACKER, Treasurer.

☞ Application was to have been made during the present week to the Supreme Court, General Term, Kings county, for the appointment of commissioners to designate the route of the projected railroad from Prospect Park to East New York. The work will be commenced without delay. Points in Flat Lands and New Lots that now occupy over one hour to reach from Brooklyn City Hall will be brought within half an hour's ride of it by the rapid transit contemplated.

Eastern Railroad.

The following is a continuation of the history of the Eastern Railroad Company, a portion of which was given in our last issue :

We have already adverted to the fact that the first contract with the Maine Central Railroad, dated in 1871, was made dependent upon the matter of suitable terminal facilities in Boston; and this consideration was so persistently urged, that unless arrangements and provisions satisfactory to the management of that road were made by us, they openly stated their determination not to contract with us, but to arrange elsewhere for the better accommodation of themselves and their customers. A committee of the management of that road, appointed for the purpose, came to Boston and made an elaborate and careful examination of our freight facilities at East Boston, and of the facilities apparently available to us at Boston and Charlestown. They were of opinion that our East Boston facilities would be quite insufficient for the large business which would be sure to follow upon the making of the contract.

Negotiations were therefore forthwith commenced, through the instrumentality of reputable agents, for the purchase of what is known as the Charlestown Mill Pond, lying between the junction at Somerville and the State Prison in one direction, and Canal street in Charlestown and land of the Boston and Maine Railroad in the other. It had an area of about fifty-eight acres; and it was then predicted that this entire surface would be needed for the accommodation of coarse freight, such as hay, timber, wood, etc., etc. The purchase was made of various parties, and was completed in May, 1873, at a cost of $1,158,000. About seven acres have been filled and are ready for use. About fifty-one acres will require to be filled up before they can in any manner be utilized.

In pursuance of the same design, and to secure the same general end, with particular reference to the accommodation of general domestic and merchandise freight, all that tract of land covered with buildings, and known as the Austin Street Estate, lying between Austin, Lynde, Bow and Front streets, and extending from the State Prison on its westerly side to the Waverly House, was purchased in August of the same year, 1873, and, including the erection of a freight house and some slight improvements, has cost us about $1,310,000.

But an "island" has been left between our two purchases, which was owned and occupied by the Commonwealth for the State Prison and grounds, and across which it became necessary to have a passage. Accordingly, a purchase was made of a narrow strip for the purpose of accommodating tracks to connect our two freight areas, for which we were compelled to pay the Commonwealth the extravagant sum of $45,000.

After this purchase, it was discovered that the connection had not after all been effected, but that a narrow neck of flats still intervened; and for this the sum of $5,000 was exacted.

As a part of the consideration of these last two purchases, the railroad was obliged also to come under obligations to purchase the State Prison estate, whenever it should be given up by the Commonwealth, at a valuation to be fixed by referees.

Thus the accommodations purchased for freight facilities to effect the contract with the Maine Central Road have cost us to-day, aside from interest, something near two and a half million of dollars.

The single freight-house now standing on the Austin street property has abundant capacity for all the freight we are now receiving there, and for all that can reasonably be expected to arrive there for a term of years. If, however, all our freight now received at East Boston should be delivered at this depot, it would probably require some enlargement; and the entire lot of land will unquestionably be needed for the company's use.

The results of the enterprise have not, however, met the sanguine expectations of its projectors. Without this investment it is reasonable to presume that the freight coming over the Maine Central would, from natural causes, be very nearly equally divided between the Eastern and Boston and Maine roads. At all events, this is not an unfair supposition. Now the net income from freight received per year in consequence of this outlay has not exceeded $160,000; one-half of which, viz. : $80,000, therefore, is all that can be justly credited to these new freight terminal accommodations.

It is but just that other reasons should be stated which were influential in determining the precise form finally taken in the purchase of the Mill Pond lot. It was proposed to purcase only a right of way across this pond; but certain mill privileges existed, and were held valuable, which would be disturbed, perhaps destroyed, by the building of the road, and would expose the company to be mulcted in heavy damages. It was also suggested that if events should prove that the whole area should not be needed for the purposes of the road, a strip of land one hundred feet in depth, and running the length of Canal street, might be sold as house lots, and possibly for a sum that would go far to reimburse the company for its expenditure in the purchase of the whole. Other considerations may have had influence; these suggested are, so far as now known by us, the thoughts and motives that determined the action finally taken.

The relations that the several parts of the Maine Central bear to each other are so intimate, and the consequences which might result upon any radical change of those relations are so important and vital, that the whole matter requires to be treated with the most far-sighted care and the most comprehensive judgment.

The Mill Pond considered as property merely, upon which we are paying interest and taxes, and which is lying unimproved and prospectively unneeded for a term of years, must prove either a serious burden, or, if sold, a heavy loss. For it is evident that this estate cannot be at present sold for any price that will reasonably approximate its cost; and, if retained, the interest and taxes will exceed any income we are likely to derive from it.

Another of the unhappy results of this Maine Central enterprise has been the ruinous competition for Eastern business that has prevailed between the Boston and Maine and this company, during the whole period from 1870 to the first of November last, at which time the present administration effected an amicable arrangement with the rival road. Competition has now ceased, securing, it is believed, a saving to each road of from $10,000 to $12,000 per month.

The next foreign enterprise in which this company became involved was that of the Portsmouth, Great Falls and Conway Railroad. It may not be amiss to give a brief account of the progress of the construction of this road. The road divides itself naturally by its history into four portions: first, that part which extends from Brock's Crossing, now called Conway Junction, at the line of the Portland, Saco and Portsmouth Road, a distance of six miles, to Great Falls, and was known as the Great Falls and South Berwick Branch; second, that which extends from Great Falls to Union Village, a distance of twenty miles, and was called the Great Falls and Conway Road; third, that part which extends from Union Village to West Ossipee, a distance of twenty eight miles; and fourth, that which extends from West Ossipee to North Conway, a distance of seventeen miles.

In 1849 the Great Falls and Conway road was built from Great Falls to Union Village, and mortgaged to secure the bonds of that company to the amount of $100,000. A second mortgage was subsequently made to secure bonds to the same amount, $100,000, which were guaranteed by the Eastern Railroad in New Hampshire; and the moneys obtained thereby were expended in relaying its tracks. A third mortgage was also made to secure bonds to the amount of $75,000. These mortgages, and the bonds secured by them, became the property of the Eastern Railroad Company at a total cost of $307,560. Proceedings were taken to foreclose the third mortgage, and we thereby acquired the absolute ownership of the property itself.

In 1851 and 1852 the Great Falls and South Berwick Branch was built, and mortgaged to secure bonds guaranteed by this company to the amount of $60,000. This mortgage, and the bonds belonging with it, were held for the security of this company, for advances made on account of this Branch. They had also advanced about $40,513 21 in cash, for which they had received the stock of the Great Falls and South Berwick Branch Railroad. Proceedings were also commenced to foreclose this mortgage.

In 1865 the Portsmouth, Great Falls and Conway Railroad was incorporated, with power to purchase both the Great Falls and Conway road and the South Berwick Branch. The intention was to make the purchase and to construct a road from Union Village to West Ossipee, and there to stop. In 1866 they purchased the stock we held of the South Berwick Branch, and the mortgage interest of our company, under the South Berwick mortgage, and the third mortgage upon the Conway road, for the sum of $208,173 94, and made payment for the same in the stock of their company, the Portsmouth, Great Falls and Conway Railroad, at par.

The foreclosures were perfected, and they became the owners of the whole road, from Block's Crossing to Union Village, and thus accomplished this part of their intention. The rails between Union Village and West Ossipee were laid in June, 1870, and passenger trains commenced running to West Ossipee in July, 1870. The cost of this part of the road was about $767,200, and was paid for in stock of the company, and, as we understand, exhausted that stock, $168,200 of which was received by the Eastern Railroad Company for moneys advanced toward the building of this part of the road, and the balance, $599,000, by the individual stockholders of the Eastern Railroad Company.

The stock was at that time worth $107 a share in the market, in other words, stood at a premium of seven dollars; and by arrangement with this company our stockholders had the preference to take the stock at its par value, in the ratio of one share of the Conway for every five shares owned in the Eastern. So rare a privilege was eagerly availed of by a large number of the Eastern stockholders; and the Eastern Railroad Company itself, having transferred its interest in the above mortgages and bonds to the Portsmouth, Great Falls and Conway Road, as above stated, were the owners of about $375,000 worth of this stock.

From Ossipee it was proposed that the large travel to the mountains should be transported over the intervening seventeen miles to Conway by stage; but it was soon decided that with such arrangements the whole railroad scheme must be a failure.

Plausible it then seemed, if not perfectly clear, that if the railroad could be now extended to North Conway, then the whole, or nearly all the mountain travel, could be secured, and connections could be made there with the Portland and Ogdensburg road, so as thereby to secure a reasonable proportion of the travel and freight through from Montreal, the Canadas, and the Lakes, to Boston and the East, as it would afford a route to Boston shorter by twenty seven miles than that over the Boston and Maine road. The extension was undertaken and completed, so that connections were actually established with the Portland and Ogdensburg road at North Conway, as proposed, in September, 1874. About four miles of track remain to be laid on the Portland and Ogdensburg road, between North Conway and Upper Bartlett; and it is promised that the same shall be completed in April next.

The whole cost of the road from Union Village to North Conway was $1,250,600 99; the cost of that part between West Ossipee and North Conway was $483,400 99, and the money for this extension was furnished by this corporation; and also about $220,000 more expended in widening and finishing the entire road between Brock's Crossing and Union Village. The final cost of the entire road from Brock's Crossing to North Conway was about $2,105,689 59.

By the year 1874 the Portsmouth, Great Falls and Conway Road had taken of this company the first and second mortgages upon the Great Falls and Conway Road, with the bonds and stock, at what they had cost us, and for these amounts, and the amounts advanced for widening and improving the road, and for building the extension to North Conway, it paid us about $174,000, in its stock at par, then selling at par or more, and $1,000,000 in its bonds, payable Dec. 1, 1892. These bonds were payable to the Eastern Railroad Company, without words of negotiability, were guaranteed by this company, and the payment of the interest upon them was guaranteed by the Eastern Railroad of New Hampshire.

The Conway bonds were sold in the market for eighty cents on the dollar; and many were bought at that rate, in the open market, by some of our own stockholders—in some instances they were given at the rate of eighty cents on the dollar in exchange for our own bonds, due in 1874 at par value—the road thereby sustaining the loss of the twenty per cent. discounted. $514,000 of these bonds have been thus sold and exchanged, and there now remain in the hands of the treasurer, $486,000 of the bonds, and 5510 shares, or $551,000 of the stock of the Portsmouth, Great Falls and Conway Railroad Company. The real value of this stock will be measured by the future business of the road; its market value, instead of $107, at which it at first freely sold, is now about two and a half dollars a share.

The Portsmouth, Great Falls and Conway Railroad is leased to the Eastern Road in New Hampshire, and is operated by us as that is. It does not yet pay for itself as an independent road; it however, pays more than its current expenses, say $50,000 or $60,000 per annum. It gives this company its whole business from Brock's Crossing to Boston, a distance of 67 miles; the amount of this business is not yet sufficient to make it, considering its cost, a profitable investment as a feeder; still the income derived from this road, in both its capacities, with its increasing business will yet render it a profitable possession.

In 1869-70 the road from Wolfborough to Wolfborough Junction, a distance of twelve miles, was built to connect with the lake travel. The cost of this road was $337,900; of which $289,400 were advanced by this company, and payment taken in stock, which is still held by our company. The stock is nearly or quite worthless to day, the road a failure, and its operation an expense. Perhaps judicious summary measures would be expedient for the purpose of giving pause to this continuous leakage.

One other extension of this road, outside of the State, with its attendant adventures, remains worthy of attention. In the year 1872 the Eastern, N. H., engaged to become lessees of the Portsmouth and Dover road on its completion, for the term of sixty five years, at an annual rental of six per cent. on the cost of construction, and to keep the bridge over the Piscataqua river in repair and good condition. The road was built by and under the supervision of the two cities of Portsmouth and Dover, it is said, with great care and reasonable economy. It cost, including the bridge, which from the depth of water is a necessarily expensive one, the sum of $763,000, and was paid for in bonds which have been converted into stock, of which the city of Portsmouth owns $300,000 and the city of Dover $225,000.

In the way of business this road has not accomplished all that was expected of it. Although having one terminus at Dover, a station of the Boston and Maine Road, it has not, and probably will not, effect any considerable diversion of the business of that road. It is an important possession for us, as preventing the diversion of business from our through line, and in case of any accident to the Piscataqua Bridge on our main line, it will also prove of great value as an alternative route to Portland, over which our freight and passengers can be transported with but little delay. As a whole, even in the absence of special expenditures, it cannot reasonably be expected for many years to become self sustaining. Last year it paid a trifle more than its current expenses, leaving its rental almost a total pecuniary loss to our company. The bridge in about ten years will require a thorough renovation at a heavy expenditure, and this outlay will make more distant the time when the earnings of the road shall return a profit.

Upon the completion of the Portsmouth and Dover road, it became necessary for us to have some place of deposit for coal and water-borne freight, that might require transit over that road. It was estimated that 100,000 tons of coal per year at least would require transportation to Dover and intermediate stations. To accommodate this freight, we made purchase of Noble's Island, so called, at a cost of about $40,000. The road runs very near to the island, and is at present connected with it by a spur-track. The Reading Coal Company promise to erect upon the island, in the course of the current year, coal pockets. The business for which this purchase was effected has not been remunerative; indeed, except in saving freight on coal used by our road, it has scarcely yielded anything of profit.

In the year 1872 it became necessary to repair the bridge at Portsmouth; and it was found desirable to construct at the same time a double track there, and to fill it solid across what was known as the mill pond. Finding upon investigation that the whole pond could be bought, and certain millrights which were liable otherwise to subject us to suit and damages extinguished, at but a little greater expense than would be required to repair the existing single track bridge as it then stood, the company concluded to purchase the whole pond, and paid for it, including the filling of the same, $50,000. The improvements desired, viz., a second track and a solid road, were secured, all danger of suits for mill obstructions prevented, and adequate room for an engine house and additional freight accommodations obtained.

Having now followed, step by step, the various enlargements of our enterprise abroad that are of moment in explaining the present history and condition of the corporation, we pass to the consideration of events within the State that may be considered in any degree explanatory of our present status.

In 1849 occurred the collision at the Marblehead Junction, which cost the corporation about $88,000, and which was met by the reduction of two successive dividends one half per cent. each.

In 1851 a collision at Wenham cost about $18,000, and a second collision on the same branch in 1857 cost about $16,000.

In 1855 the defalcation of William S. Tuckerman, the Treasurer of the road, became public, and resulted in a loss to the corporation of $232,780. The circumstances of that misfortune were widely published, and are well remembered.

In 1865-68 a new bridge was built over the Merrimack river at Newburyport and the line of the roadbed straightened from Salisbury to Newburyport, the whole cost amounting to about $334,000.

Pittsfield and North Adams Railroad.

The annual meeting of this corporation was held in Boston on the 24th ult. The meeting had under consideration the contract between the Pittsfield and North Adams Railroad Corporation and the Western Railroad Corporation, dated January 30, 1846, and the following vote was passed.

That the Directors of the Pittsfield and North Adams Railroad Company are hereby authorized to unite with the Boston and Albany Railroad Company in procuring legislation required for a purchase of the franchise and property of the Pittsfield and North Adams Railroad.

The following Directors were then chosen and the meeting adjourned for one week: C. W. Chapin, W. W. Tucker, W. S. Bullard, F. H. Bradlee and Edward Jackson.

☞ At a meeting of the stockholders of the Chicago, Burlington and Quincy Railroad held in Chicago on the 23d ult., the following were elected Directors for the ensuing year: John M. Forbes, Sidney Bartlett, John W. Brooks, Charles J. Paine, T. Jefferson Coolidge of Boston; John Q. A. Griswold of Newport, R. I.; Wm. J. Rotch of New Bedford, Mass.; Peter Geddes, J. M. Walker and Robert Harris of Chicago, and Charles E. Perkins of Burlington, Iowa.

☞ The Wheeling and Lake Erie Railroad Company invite proposals until March 20, 1876, either separately or combined, for the construction and equipment of its line of road, between Martin's Ferry and Sandusky, Ohio, or for parts thereof. Also, for railway materials. Particulars furnished on application to Joel Wood, President, Martin's Ferry, Ohio.

The Winchell Car Ventilator.

This ventilator, which has been on trial for some time on the Cincinnati, Hamilton and Indianapolis Railway, consists of an air-chamber attached to the roof of the car and extending its entire length. Each end is furnished with a hood protected by very fine wire gauze screens, through which the air and nothing else is admitted to the chamber. Each drum is furnished with a cut-off, operated by a lever within the car, by means of which the supply of air may be regulated. A number of registers in the bottom of the chamber admit the air to the car. When the train is in motion, the cut off in the forward end of the car is opened, and the air enters, passes down through the registers into the car, and, having served its purpose, makes its exit through the rear hood, or through the windows, if they are open. In connection with this air-chamber, and for summer use only, are deflectors on the outside of each window, whose purpose is to act as an exhaust, and not only draw out the impure air from the car, but prevent the admission of smoke, dust, cinders and rain through the open window. These deflectors, which are made of glass, so as not to impede the view from the windows, are operated simultaneously by means of an iron rod running along the side of the car.

☞ The United States Senate, on the 25th ult., passed the bill reported by the Finance Committee on the 23d, to amend the acts of July 14, 1870, and January 20, 1871, to authorize the refunding of the National debt. The bill as passed amends the acts named so as to provide that the amount of bonds bearing 4½ per cent. interest authorized to be issued be increased from $300,000,000 to $500,000,000, and that they be payable at the pleasure of the United States after thirty years from the date of their issue, instead of after fifteen years. It also provides that the act shall not be construed to authorize any increase of the total amount of bonds provided for by the acts named, nor to authorize any increase whatever of the bonded debt of the United States.

☞ The *Herald* is informed that in the reorganization of the Erie Railway Company the plan which is to be submitted to the English committee, now in the city on business relating to the affairs of this company, is understood to be about as follows: first, ten millions consolidated gold bondholders to be asked to fund four coupons; the five millions gold convertible bondholders to fund six coupons, and the seven ten million consolidated gold bonds to fund eight coupons. They will not be asked to pay any money, and this, it is claimed, is all that is needed to put the road in a prosperous condition, providing for steel rails and the narrowing of the gauge.

☞ At a town meeting held in Winthrop, Mass., on the 28th ult., a proposition, made by Mr. J. L. Batman, to give one dollar for the interest of the town of Winthrop in the Winthrop Horse Railroad, and to provide hourly connections with the Lyon and Revere Beach Railroad, the fare to be the same pro rata as on the latter road, was accepted on condition that after the proper preliminaries are arranged and the proper sureties are given for the building of a steam road from the Boston, Revere Beach and Lynn Railroad to Point Shirley, all the franchise interest acquired by the town of Winthrop in the Winthrop Horse Railroad Corporation, under their mortgage, should be transferred to Mr. J. L. Batman.

☞ The holders of a majority of the first and second mortgage bonds of the Lake Superior and Mississippi Railroad of Minnesota, have agreed to the plan of a reorganization of the company as proposed by a committee of the bondholders in January.

☞ At a meeting of the stockholders of the Wiscasset and Moosehead Lake Railroad Company held at Wiscasset, Me., on the 26th ult., it was unanimously voted to change the name of the corporation to the Wiscasset and Quebec Railroad Company.

☞ The Dominion Finance Minister presented his financial statement to the Parliament on the 25th ult. He stated that during the year ending June 30th last, the receipts were $24,608,715 and the expenditures $23,713,071.

LAWRENCEVILLE CEMENT COMPANY.

ROSENDALE

HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York.

This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

WM. N. BEACH, Pres't,

96 Wall Street, New York.

HUDSON RIVER CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

W. M. Brigham, KINGSTON, N. Y. **J. H. Butts, Ag't,** 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER CEMENT COMPANY,

MANUFACTURERS OF HIGH FALLS ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

J. B. JAMES, President.

W. G. JAMES, Treasurer.

The Coal Trade.

The Philadelphia *Ledger* of February 28th says: The anthracite coal trade presents no feature of general interest. Production in all the several anthracite coal regions is nearly or quite at a standstill. Some of the larger carrying and producing companies have made no report of tonnage for the past two weeks. The return of the trade, as we have received it, shows that the quantity sent from all the regions for the week ending 19th inst. is but 57,064 tons, against 154,324 tons for the corresponding week last year, showing a decrease of 97,260 tons. The total amount of anthracite sent for the year is 2,092,829 tons, against 1,649,731 for same period last year, an increase of 443,098 tons. The quantity of bituminous coal sent to market for the week was 46,622 tons, against 43,843 tons for corresponding week last year, an increase of 2,779 tons. The whole bituminous tonnage from the beginning of the coal year to the 19th instant is 339,299 tons, against 299,165 tons in corresponding time last year, an increase of 40,134 tons. The total tonnage of all kinds of coal for the week is 103,686 tons, being a decrease for the week of 90,481 tons, and the total tonnage for the coal year is 2,432,128 tons, against 1,948,896 tons to same date last year, being a total increase of 483,232 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last week was 80,458 tons, 65,605 tons of which were coal and 14,845 tons coke. The total carried this year is 398,643 tons, of which 321,516 is coal and 76,627 coke. These figures embrace all the coal and coke carried over the road east and west. At Port Richmond for the week ending the 26th instant there were receipts of 241 tons of coal and shipments of 6000 tons, leaving 121,700 tons on hand.

Phœnixville Bridge Works

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

New York, Saturday, March 11, 1876.

Elkton and Delaware Junction Railroad.

The Elkton (Md.) Democrat states that the recent agitation of a railroad connection between Elkton and Middletown, Del., has assumed such shape that it is hardly over sanguine to promise that in a little while the thing will be accomplished. It says:

Men of capital, experience and enterprise have taken hold of it, and have not only the will but the way. A bill has been prepared and forwarded to the Legislature providing for the re-enactment of a law passed in 1867, incorporating the Elkton and Delaware Junction Railroad Company, which conferred the power to lay off and construct a road not exceeding one hundred feet in width, from a point not more than three fourths of a mile from the town of Elkton, to the boundary line between Delaware and Maryland so as to connect with a railroad to be built from either the Delaware railroad or the New Castle and Frenchtown railroad, to the said State line, and also conferred other privileges ample for all purposes. The corporators mentioned in the revived act are Jacob Tome, Wm. J. Jones and H. H. Brady, of this county, and Enoch Pratt, Thos. Donaldson, Samuel M. Shoemaker, Thomas Whitridge, Benjamin H. Latrobe and Wm. J. Hooper, of Baltimore. A glance at these names will not only show that there is an abundant capital representing the enterprise, but also that the Philadelphia, Wilmington and Baltimore Railroad Company favor it, Messrs. Tome, Pratt, Donaldson, Shoemaker and Whitridge are at present directors in that company; Mr. Latrobe is an eminent civil engineer, also connected with or frequently employed by the company, and Messrs. Donaldson and Jones are among its regularly retained legal advisers. We are further advised, however, that the Philadelphia, Wilmington and Baltimore Company not only favor this measure, but deem its early construction an absolute necessity, in order to secure to the peninsula equal market facilities to Philadelphia and Baltimore, and to that end will endorse bonds of sufficient amount to effect the completion of the road. The promoters of this work do not seek State aid and will not accept it. They propose to build the road as a paying investment, and have no doubt that it will pay from the start. There is a well founded hope that another year will witness the extension of the straight line from Dover through Middleton to Elkton, of the trunk line of peninsular travel.

New Narrow Gauge Route.

A certificate of incorporation was filed in the office of the Secretary of State of Ohio on the 1st of March, of the Jeffersonville, Mount Sterling and Columbus railroad. The incorporators are: Theodore Comstock and F. C. Sessions, of Columbus; E. Manning, of Harrisburg; H. D. Marcy and G. W. Boler, of Mount Sterling; Dr. O. W. Marshall and Isaac Glaze, of Jeffersonville.

This is to be a narrow gauge road, and its incorporation completes a contemplated chain of a narrow gauge route through to Cincinnati from Columbus.

The Miami Valley railroad, narrow gauge, has been laid out from Cincinnati to Waynesville, via Lebanon, a distance of 37 miles, and is under contract. The Waynesville, Port William and Jeffersonville railroad, also narrow gauge, has been incorporated, and the route laid out from Waynesville to Jeffersonville, a distance of 30 miles. Then comes the Jeffersonville, Mt. Sterling and Columbus Railroad, from Jeffersonville to Columbus, a distance of 36 miles, which completes the chain from Cincinnati to Columbus.

The capital stock of the second section, from Waynesville to Jeffersonville, is $200,000, the most of which has been taken, and the books will be shortly closed.

The capital stock of the third and last section, the Jeffersonville, Mt. Sterling and Columbus road, is $400,000, in shares of $50 each, books for which will be opened in due time after the same is advertised, etc.

This route runs through one of the richest sections of the State, and traverses a country wholly devoid of railroad communication, and makes several excellent connections. It crosses the Springfield, Jackson and Pomeroy railroad at Jeffersonville; and about seven miles southeast from that point crosses the Dayton and Southeastern road, thus providing an inlet to Columbus for the cheapest coal that is carried into the city of Cincinnati.

The country through which this new road runs is generally very level, making the construction easy and comparatively cheap. When the three sections are completed an early consolidation of the whole is looked to, and it is claimed will make a direct route from Columbus to Cincinnati, shorter by from eighteen to twenty-three miles, than any route now in existence.

The Waynesville, Port William and Jeffersonville Railroad company will hold a meeting for the election of Directors at Port William on the 21st of March.—*Ohio State Journal.*

Velocity of Electricity.

Prof. Lovering, of Cambridge, in his admirable paper on measuring the velocity of electricity, presents the following facts, which may answer the frequent inquiry how fast electricity can move over the wires. Eliminating the somewhat unscientific character of the query, Mr. Lovering states that in 1869 Prof. Winlock, of Harvard, sent electric signals from Cambridge to San Francisco, and thence by other lines to Canada, and back again to Cambridge, over a loop of wire measuring 7,200 miles. This long journey was performed by electricity in about two thirds of a second, and no small portion of this brief interval was lost in bringing into action the thirteen repeaters which were interpolated into the circuit. The total transmission time between Brest, France and Duxbury, Mass., by way of St. Pierre, was .816 of one second. The total distance by cable is 3,329 nautical miles, the distance from Brest to St. Pierre being 2,580 nautical miles, and that from St. Pierre to Duxbury 749 nautical miles. By calculation, then, the transmission time between Brest and St. Pierre was .639 of a second, and between St. Pierre and Duxbury .177 of a second. So that the two branches were traversed—one at the rate of about 4,000 nautical miles a second, and the other at the rate of 4,230 nautical miles a second.

Long Island Railroads.

The concentration of the management of the existing railroads of Long Island into one company has had the effect of reviving interest in certain other franchises already granted by the Legislature. One of these authorizes the construction of a road from the mouth of Bushwick Creek, at the foot of North Thirteenth street, Williamsburg, to Glendale, on the line of the present Southern road, to be known as the Glendale Railroad, and another from Richmond Hill, the next station on the Southern road, touching at Jamaica, passing through a cut in the hills north of that village and skirting the north shore of Long Island to Orient, touching all the Sound shore villages on the route, to be known as the North Shore Railroad of Long Island. There is talk now of a consolidation of these franchises and the immediate construction of the road, with a branch from Jamaica to the South ferry by means of a sunken track from the junction of Atlantic and Flatbush avenues, and running through the old tunnel in Atlantic street. Eastward, for the present, it is contemplated to construct the road only as far as Huntington, but eventually along the entire north shore.—*N. Y. Herald.*

Baltimore and Ohio Railroad.

The following is a comparative statement of the earnings and working expenses of the Main Stem of the Baltimore and Ohio Railroad for the years ending September 30, 1874 and 1875, including the Winchester and Potomac, Winchester and Strasburg, the Strasburg and Harrisonburg, the Washington County, and the Metropolitan Branch Railroads, and the Washington City and Point Lookout Railroad:

Earnings:	1874.	1875.
From passengers...	$1,518,522 68	$1,613,239 24
" tonnage.....	10,175,432 87	8,900,939 73
Total.....	$11,693,955 55	$10,514,178 97
Expenses:		
General expenses....	$122,742 22	$123,775 76
Losses by accidents..	55,374 33	53,108 56
Expenses of transportation.....	2,291,900 77	2,137,781 51
Repairs of railway...	1,540,223 58	1,234,209 83
Repairs of water stations.....	34,974 99	19,416 51
Repairs and construction of depots.....	140,759 75	124,031 93
Repairs of bridges...	245,822 24	116,984 71
Repairs of telegraph line.....	38,913 13	21,225 26
Repairs of stationary machinery.....	155,720 12	131,920 69
Watching cuts.....	57,654 37	52,276 41
Watching tunnels....	6,334 25	4,005 10
Watching bridges....	23,257 57	23,456 73
Pumping water.....	32,951 53	33,858 12
Repairs of locomotives.....	598,384 30	629,086 81
Repairs of passenger cars.....	167,391 26	220,782 78
Repairs of burden cars.....	542,199 58	637,197 84
Cleaning engines and cars.....	131,874 30	132,562 84
Contingent expenses of the machinery department.....	8,282 45	7,022 88
Fuel.....	423,119 16	423,717 18
Preparing fuel and filling tenders.....	58,015 36	50,379 67
Total.....	$6,675,895 26	$6,176,801 12
Net earnings.....	$5,018,060 29	$4,337,377 85

The working expenses were 58.74 per cent of gross earnings; in 1874 they were 57.08 per cent.

In comparison with the fiscal year 1874, the gross earnings show a decrease of $1,179,776 58; and the working expenses a decrease of $499,094 14—making a decrease in the net profits of $680,682 44.

During the year the remainder of the first mortgage loan, redeemable in 1875, which was originally $1,128,500, viz., $840,250, has been paid. Of the next mortgage loan, which is redeemable in 1880, $120,500 have been anticipated, leaving $579,500 to be paid. Of the loan redeemable in 1885, which was originally for $2,500,000, $790,000 have been paid in anticipation, leaving to be paid of this loan $1,710,000. Of the bonds endorsed by the Baltimore and Ohio Railroad Company, under contract of July, 1864, of the Northwestern Virginia Railroad Company, due in 1885, the original amount having been $500,000, $360,000 have been anticipated, reducing the sum unpaid to $140,000.

The sinking fund for the payment of the loan of the city of Baltimore, which was originally $5,000,000, increased during the year $99,220 22, making the payment in advance on account and in reduction of that loan $1,746,973 42.

The payments on account of the sinking funds for the redemption of the sterling loans due in 1895, 1902 and 1910, during the year amounted to $405,760, which, at $4 84 per pound sterling, make £83,834.

The surplus fund of the company on the 30th September, 1875, was $34,069,791 98. The entire mortgage indebtedness in currency and sterling is $28,716,334 58. It is thus shown that the surplus fund, representing capital derived from net earning invested in its branch and connecting roads, and in the great improvements that have been continuously constructed on the main stem, which is not represented by either stock or bonds, exceeds the entire mortgage indebtedness of the company $5,353,457 40.

During the year $685,069 12 of the second series of preferred stock, bearing interest at six per cent per annum in currency, have been issued at par.

Semi-annual dividends of 5 per cent upon the capital stock were paid on the first of November, 1874, and on the 1st of May, 1875, respectively.

The profit and loss account shows an increase for the past year of $1,925,631 83.

It is shown by the report of the transportation department that there has been a continued expansion of tonnage of through merchandise east and west, viz: from 752,256 tons in the preceding year to 872,101 tons. For 1873 this traffic was 640,265 tons; for 1872, 557,609 tons, and for 1871, 435,260 tons. Nine hundred and twenty-nine thousand one hundred and forty barrels of flour and 7,342,920 bushels of grain were brought to Baltimore during the fiscal year. The traffic in live stock has been 93,709 tons, showing an increase of 4,437 tons over 1874, and of 6,049 tons over 1873.

The coal trade shows an aggregate of 1,972,087 tons, which includes 452,198 tons for the company's supply. The quantity transported for the public is 1,519,889 tons, showing a decrease compared with 1874 of 258,739 tons, and compared with 1873 of 499,829 tons.

Statement of profit and loss for the years ending September 30:

Balance from previous year....	1874. $29,038,131 18	1875. $32,144,160 15
Net earnings.....	5,018,060 29	4,337,377 85
Straitsville Division	648 71	.....
Chicago Division..	27,195 39	.....
Lake Erie Division	.....	88,957 84
Dividends upon Washington Br. stock owned by the Main Stem..	102,780 00	102,780 00
Increment from the sinking fund....	108,900 00	99,220 22
House rents.....	14,310 97	15,277 19

WASHINGTON BRANCH.

Statement of earnings and expenses for the years ending September 30:

Earnings:	1874.	1875.
Passengers	$295,178 45	$276,070 11
Tonnage	78,144 86	71,747 46
Total	$373,323 31	$346,817 57
Expenses:		
Repairs of railway	$111,354 70	$100,601 17
" depots	5,074 13	6,078 04
" water station.	982 79	305 39
" bridges	1,606 70	2,942 17
Pumping water	7,016 04	7,368 70
Total	$126,034 36	$117,295 47
Net earnings	$247,288 95	$229,522 10

The earnings of 1875 show a decrease as compared with those of the previous year of $26,505 74; the expenditures charged are $8,738 89 less—showing a decrease in net earnings of $17,766 85.

A dividend of five per cent was paid on the 21st of October, 1874, and a similar dividend on the 17th of April, 1875.

Statement of profit and loss for the years ending September 30:

	1874.	1875.
Balance from prev. yr.	$737,753 23	$715,199 05
Net earnings	247,288 95	229,522 10
Total	$984,942 18	$944,721 15
Dividends on stock	$165,000 00	$165,000 00
Judgment, interests and costs, in Capitation Tax case		424,645 67
Purchase of real estate	103,493 13	
Payment on account of annuity	1,250 00	1,000 00
Balance carried to next year	715,199 05	354,075 48
Total	$984,942 18	$944,721 15

Statement of the liabilities and assets of the Washington Branch, September 30:

Liabilities:	1874.	1875.
Stock	$1,650,000 00	$1,650,000 00
Annuity (principal)	20,000 00	20,000 00
Profit and loss	715,199 05	354,075 48
	$2,385,199 05	$2,024,075 48
Assets:		
Road, real estate, &c.	$1,650,000 00	$1,650,000 00
Amount due by the B. & O. R. R. Co.	735,199 05	374,075 48
	$2,385,199 05	$2,024,075 48

PARKERSBURG BRANCH RAILROAD.

The following is a comparative statement of the earnings and expenses for the years ending September 30:

	1874.	1875.
Passengers	$198,201 48	$181,753 41
Tonnage	703,865 05	458,556 46
Total	$802,066 53	$640,309 87
Expenses:		
Transportation	$236,265 63	$208,586 43
Rapairs railway	438,262 22	283,106 01
" water stations	9,025 33	2,988 76
" telegraph	1,375 35	1,343 72
" stationary machinery	15,841 55	8,072 47
" locomotives	64,329 16	65,312 13
" burden cars	39,415 17	35,618 36
" passenger cars	9,753 26	9,479 00
" bridges	49,407 68	63,055 79
" depots	4,878 97	9,956 94
Pumping water	3,344 80	3,927 30
Losses by accidents, etc.	2,688 85	9,500 29
Fuel, preparing, etc	46,241 63	37,840 03
General expenses	4,261 71	1,585 00
Cleaning engines & cars	8,210 16	9,182 08
Contingent expenses	180 91	195 11
Taxes	8,770 60	16,468 45
Total	$942,252 98	$766,217 87
Deficit	$140,186 45	$125,908 00

It will be seen that the earnings were $161,756 66 less than in 1874, while the expenses decreased $176,035 11—showing an improvement, as compared with 1874, of $14,278 45.

The aggregate earnings of the Main Stem (including the Winchester and Potomac, Winchester and Strasburg, the Strasburg and Harrisonburg, the Washington County, and the Metropolitan Branch Roads, and the Washington City and Point Lookout Railroad) of the Washington Branch and Parkersburg Branch, for the years ending September 30, 1874 and 1875, were as follows:

	1874.	1875.
Main Stem, etc	$11,693,955 55	$10,514,178 97
Washingt'n Branch	373,323 31	346 817 57
Parkersb'g Branch	802,066 53	640,309 87
Totals	$12,869,345 39	$11,501,306 41

The aggregate expenses of operating and repairs were as follows:

	1874.	1875.
Main Stem, etc.	$6,675,895 26	$6,176,801 12
Washington Branch.	126,034 36	117,295 47
Parkersburg Branch	942,252 98	766,217 87
Totals.	$7,744,182 60	$7,060,314 46

And the aggregate net earnings, after deducting the cost of operating and repairs, as follows:

	1874.	1875.
Main Stem, etc	$5,018,060 29	$4,337,377 85
Washington Branch.	247,288 95	229,522 10
Parkersburg Branch	*140,186 45	*125,908 00
Totals	$5,125,162 79	$4,440,991 95

* Deficit.

—showing a decrease in the gross earnings of $1,368,038 98; with a decrease in expenses of $683,868 14—making the decrease in net earnings $684,170 84.

The earnings of the Chicago Division for the fiscal year were $959,164 23, and the expenses $1,169,331 69, showing a deficit of $210,167 46.

The earnings of the Lake Erie Division for the same time were $871,348 34, the expenses $608,086, and the net earnings $263,307 34.

The earnings of the Central Ohio Division were $880,772 31, the expenses $865,574 39, and the net earnings $15,197 92.

The earnings of the Wheeling, Pittsburg and Baltimore Railroad were $48,321 48, the expenses $47,784 96, and the net earnings $536 52.

The earnings of the Newark, Somerset and Straitsville Railroad were $183,330 79, the expenses $157,623 60, and the net earnings $25,707 19.

The gross revenue of the Main Stem and Branches, including the Central Ohio, Chicago and Lake Erie Divisions, the Wheeling, Pittsburg and Baltimore, and the Newark, Somerset and Straitsville Railroads, is thus shown to be $14,444,238 56, the expenses $9,908,665 10, and the net earnings $4,535,573 46. The aggregate working expenses were 68.59 per cent of the whole revenues, being 5.60 per cent more than the preceding year.

During the year 295,039 new cross ties, 4,677 tons of iron, and 5,526 tons of steel rails were used in repairing and constructing additional tracks on the Main Stem; 21,543 cross ties, 350 tons of steel and 113 tons of iron rails on the Washington Branch; 65,792 cross ties, 295 tons of steel and 2,390 tons of iron rails on the Parkersburg Branch; 77,259 cross ties, 3,457 tons of iron and 1,042 tons of steel rails on the Central Ohio Division; 42,082 cross ties, 2,934 tons of iron and 47 tons of steel rails on the Lake Erie Division; and 18,665 cross ties, and 749 tons of iron rails on the Newark, Somerset and Straitsville division.

At the commencement of the fiscal year 1875 there were in service on the Main Stem and Branches 509 locomotives. During the year 9 locomotives were purchased and built, making the total number at the close of the year 518—of these 95 were passenger and 423 freight locomotives; 479 were first class, 32 second class and 7

third class. On the Central Ohio Division there were 31, and on the Lake Erie Division 9—making a total of 558.

The number of cars in service at the commencement of the year on the Main Stem was 11,559; to which there were added in 1874, 214—making the total at the close of the year, 11,803; of these 203 were passenger, 40 baggage, etc., 13 postal, 2 pay, 10 officers,' 6 palace, 1 compartment, 6 sleeping, 9 emigrant, 6 combination, 11,507 tonnage, stock, coal and other cars. There were also on the Central Ohio Division 19 passenger, 8 baggage and 341 freight cars; and on the Lake Erie division 10 passenger, 9 baggage, and 210 freight cars—making a total of 12,400.

The mileage of engines in 1874 and 1875 was as follows:

	1874.	1875.
Main Stem	9,858,751	9,671,791
Washington Branch	649,107	745,148
Parkersburg Branch	1,270,279	1,195,760
Total	11,778,137	11,612,699

Boston and Maine Railroad.

The Massachusetts Supreme Court has just rendered a decision for the Boston and Maine Railroad against the Portland, Saco and Portsmouth Railroad Company, by which the former company will be benefited to the extent of upward of $500,000.

The case was an action of contract brought to recover the sum of $566,194 84, alleged to be due from the defendant to the plaintiff, under the provisions of a contract in writing made by the defendant, as party of the first part, and the plaintiff and the Eastern Railroad Company party of the second part. The plaintiff alleged that on the first day of April, 1847, the plaintiff and the Eastern Railroad Company entered upon and undertook the agency under the contract, and continued to carry on the same until the contract was terminated under the provisions thereof, on January 31, 1871.

It was further alleged that the plaintiff and the Eastern Railroad Company in all respects fully kept and performed the terms of the contract, and at all times kept the railroad and property of the defendant in good order and condition, and that at the termination of the contract there was no deterioration in said railroad and property or any part thereof.

It was claimed that the plaintiff and the Eastern Railroad during the continuance of the contract made great additions, improvements and betterments, into and upon the defendant's railroad and property giving an additional value thereto at the time the contract was terminated, and paid the cost thereof at the amount of $963,731 90, no part of which has been reimbursed under the provisions of the contract.

Since the termination of the contract the plaintiff claims that a settlement has been made with the Eastern Railroad by the defendant, and subsequently a new contract was made between the defendant and the Eastern road by which the latter had the exclusive management of the Portland, Saco and Portsmouth Railroad, and enjoyed all its receipts and earnings. Under the new contract the plaintiff claimed that the defendant had settled all claims of the Eastern Railroad upon the contract declared on; or that said Eastern Railroad had thereby waived all such claims.

The full amount claimed by the plaintiff for its share of the improvements, &c., made on the P. S. and P. R. R. under the contract of 1847 was $481,867 95, with interest since January 31, 1871, the time when the contract was terminated, this sum being one half the additional value given to the defendant's railroad and property at the time the contract terminated.

The defendant set up in answer that the plaintiff could not maintain this action without joining the Eastern Railroad as plaintiff in the suit, and thereupon the plaintiff filed a replication alleging that before the action was brought it had requested the Eastern Railroad to join in the suit as party plaintiff, but that the Eastern Railroad refused so to do.

At a hearing before Judge Devenes it was agreed that the case should be sent to the full bench on the question whether the plaintiff could alone maintain an action for its share of any sum found to be due under the contract; and with an understanding that if the action could be maintained then it should stand for trial, after having been sent to an auditor.

The rescript of the full Court has been sent down and is as follows: "Case referred to an auditor. The defendant having settled with the Eastern Railroad Company, this action may be maintained by the plaintiff alone."

Quincy Mining Company.

From the report of this company for the year 1875, we learn that the shipment of the season was 3,409,395 pounds of mineral, which has been smelted at Detroit, and yielded about 82 per cent, or 2,798,281 pounds of refined copper.

The product of the mine for the year, as prepared for shipment, was 3,527,315 pounds, or 1,768 1315-2000 tons of mineral of the following descriptions, namely: stamp copper, 3,435,395 lbs; mass copper, 91,920 lbs; total, 3,527,315 lbs—for which, estimating only the product left over at the mine at 80 per cent yield, and 19 cents per pound, has been realized the gross sum of $652,397 86; realized from sales of silver, $770 22; total, $653,158 08.

The expenses of the year are as follows:

Running expenses at mine	$371,564 02	
Building and construction account	15,251 43	
Other expenses	70,001 21	
	$456,816 66	
Which, deducted from gross earnings	653,168 08	
Leaves as mining profit	$196,351 42	
There has also been realized during the year, from interest on loans	6,716 30	
From sales of real estate, "Hancock"	9,574 07	
From account against Holmes & Lisberger, being 15 per cent received in settlement	4,323 00	
	$216,964 79	
The statement of assets and liabilities in our last report showed a balance of assets on hand, as of date Jan. 1, 1875	$488,044 35	
Add earnings of 1875	216,964 79	
	$705,009 14	
Deduct dividend of February 15, 1875	$160,000 00	
Deduct dividend of August 1, 1875	60,000 00	
	220,000 00	
Making balance of assets Jan. 1, 1876	$485,009 14	

Pittsfield and North Adams Railroad.

At an adjourned meeting of the stockholders of the Pittsfield and North Adams Railroad Corporation, held on the 2d inst., it was voted that the directors of the company be authorized to sell the property and franchise of the corporation to the Boston and Albany Railroad Company for a sum equal to 95 per cent. of the capital stock of the company, provided said sum is paid on July 1, 1876, in addition to the dividend of 3 per cent. due. Provided also that the Boston and Albany Railroad Company give up all claims for charges, taxes and effects of every kind against the company.

It was also voted that if further legislation should be found necessary to carry the above vote into effect, that the directors have power to extend the lease for one year from July 1, 1876, on the same terms.

Statement of the Public Debt of the United States, March 1, 1876.

DEBT BEARING COIN INTEREST.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, February 29, 1876.

B. H. BRISTOW,
Secretary of the Treasury.

☞ Workmen are now engaged at the shops of the Philadelphia and Reading Railroad Company, at Pottstown, in making models of the bridges which have been erected by the company on their road. The models are 17 feet long and about two feet high. One is a truss bridge of Foreman's patent, and the other is a "bow spring." When completed, the models are to be placed on exhibition at the Centennial.

☞ The Baxter Steam Canal Boat Transportation Company's report to the State engineer of New York of their business in 1875 place their freight receipts at an average of $883 86 per round trip of twenty five days, and the running expenses per boat at $305 per month. The average running time per round trip was thirteen days.

☞ The Virginia House of Delegates on the 28th of February passed to engrossment the James River and Kanawha bill. It provides for the extension of the canal from Buchanan to Craig's creek and the construction of a railroad from Craig's creek to Clifton Forge. Convict labor is to be largely employed in the proposed extension.

☞ The annual meeting of the stockholders of the Pennsylvania Railroad Company will be held in Musical Fund Hall, Philadelphia, Tuesday, March 14, 1876.

Census of Massachusetts.

Massachusetts makes an enumeration of its population every ten years, and intermediate with the United States enumerations. The census for 1875 has been recently published and shows the following results:

POPULATION, ETC., BY COUNTIES.

Counties.	Dwellings.	Families.	Inhab'nts.
Barnstable	7,840	8,333	32,144
Berkshire	12,023	14,167	68,265
Bristol	19,723	28,557	131,052
Duke's.....	1,070	1,135	4,071
Essex	36,231	50,148	223,332
Franklin.....	6,877	7,854	33,696
Hampden.....	18,028	19,987	94,393
Hampshire.....	8,254	9,594	44,813
Middlesex	49,772	60,714	284,072
Nantucket	1,008	938	3,201
Norfolk	16,287	19,456	88,239
Plymouth.....	14,447	16,362	69,352
Suffolk.....	47,006	75,461	364,880
Worcester	33,057	46,245	210,242
Total.....	267,223	358,951	1,651,652

Of the dwelling houses 255,518 were occupied and 11,705 unoccupied. Of the population 794,284 were males and 857,368 females. The number of legal voters was 449,633, of which 69,267 were naturalized foreigners. The number of aliens was 78,691. The excess of females over males is remarkable, being 63,084, or 7.9 per cent.

POPULATION OF CITIES.

There are nineteen cities in the State aggregating 836,781 inhabitants. The cities rank as follows:

Boston	341,919	Somerville	21,868
Lowell	49,677	Chelsea	20,695
Worcester.....	49,265	Taunton.....	20,429
Cambridge.....	47,838	Gloucester	16,754

The proportion of urban population to the rural is 50.66 per cent.

☞ The Revere and Everett Railroad Company has been organized under the general laws. The route for the proposed road is to commence at the Boston, Revere Beach and Lynn Railroad in Revere, at or near the easterly end of Beach street, and run westerly to the town of Everett, near Woodlawn Cemetery, there to connect with the proposed Boston, Lawrence and Haverhill Railroad. The gauge is to be three feet, and the capital stock is fixed at $20,000. The length of the road is about three miles. Ensign Kimball was elected President; William T. Hall, Treasurer; and James O. Young, Clerk, all of Revere. A portion of the stock has already been subscribed.

☞ The construction of the Royal Albert bridge across the St. Lawrence, near St. Helen's Island, is looked upon by many in Montreal as a necessity. Several prominent gentlemen in that city have decided to form a company to carry out the work. It is claimed that the North Shore, and the Ottawa and Western Railways, should have continuous connection with lines south of the river.

☞ The tracklayers on the Scioto Valley railroad were within about three miles of Circleville, on the 4th inst. They expected to reach Circleville by the 10th.

James Gordon Bennett's Special Train.

The Rochester Express of March 1st says that Mr. Bennett's special train passed through that city at 43 minutes passed 9 that morning at a lively rate of speed, and then adds:

The locomotive, 110, which drew the special was in charge of Jas Wood, one of the best engineers on the road. It will be seen by the following that the average running time between the Falls and Syracuse was nearly one mile a minute. The distance is 157 miles, and it was made in 165 minutes—158 minutes running time. The distance from Niagara Falls to this city is seventy six miles. It was made in one hour and nineteen minutes, including a stop for water at Eagle Harbor of three minutes, and at Palmyra of four minutes. The running time from the Falls was exactly one mile a minute. The time made from Rochester to Syracuse was eighty two minutes. The engineer was to get $1,000 if he made the distance in sixty two minutes, which would have been the best time ever made.

☞ At a recent meeting of the Kingston and Pembroke (Ca.) Railway Co., Mr. Gildersleeve was re-elected President, and J. Fraser Vice President. The report gave the expenditure of last year as $128,559, which with what was formerly incurred makes the total outlay up to the close of December $916,916. The line is now completed to the north side of Sharbot Lake over 45 miles from Kingston, and it is intended to open it for regular traffic some time in the spring. The directors are eager to extend the road to the Mississippi river; and to aid 16 miles of this part the Legislature has granted $3,750 per mile.

☞ The annual report of the Pennsylvania Railroad Company for 1875 shows that the gross earnings of the company (all lines) were $58,096,865 91; gross expenses, excluding rentals, interest, dividends, etc., $36,574,140 91; net earnings $21,522,724 95. The report states that the company is now, for the first time in its history, (twenty-nine years,) without any floating debt, and had on deposit to its credit on January 1, 1876, a total of $4,924 298 58.

☞ The Supreme Court of the United States having decided that the assessment upon dividends of the stock of the Illinois Central Railroad Company was illegal, so far as the non-resident and alien stockholders were concerned, the Government will refund the tax collected, amounting to $173,000. There will be deducted from the amount, however, over $50,000, still due for back taxes.

☞ Riehle Bros. have opened warerooms on 4th st., above Chestnut, Phila., with a large assortment of scales, beams, etc., to meet the requirements of their customers who cannot visit their works. See advertisement.

☞ A certificate of incorporation of the East Toledo Street Railway Company has been filed with the Secretary of State of Ohio by J. M. Lewis and others. Capital stock $60,000, in shares of $50.

☞ The earnings of the Rome, Watertown and Ogdensburg Railroad Company in January, 1876, were $80,727 92, against $67,504 48 in January, 1875, an increase of $13,223 44.

☞ The first train passed over the Delaware and Bound Brook Railroad, from Philadelphia to New York, on the 6th inst.

American Railroad Journal.

Saturday, March 11, 1876.

Financial and Commercial Affairs.

A very liberal offering of Money has been reported all through the week on the basis of 2¼@5, generally 3@3½, per cent on call, and 4½@7 per cent per annum in the discount line. At these figures responsible borrowers have experienced no difficulty in making prompt and ample provision for all the current needs, which have not been particularly urgent in any instance. Washington reports and rumors, otherwise sufficiently discouraging, have made no impression of moment on the course of the Money market. The City Banks gained largely in the line of specie averages, chiefly through the heavy coin disbursements of the Sub Treasury office on account of the called Five Twenties, and of March coin interest on the public debt. The deposit average was also augmented handsomely, in part through receipts of national bank notes. The legal tender reserve fell off materially, and apart from a million dollars invested in United States and New York State bonds, by one bank, nothing like a satisfactory explanation of this change was afforded by the last weekly bank statement. The percentage of gold and legal tender notes to the deposits on the last exhibit was 30.75 against 31.08 on Feb. 26, 31.59 on February 19, and 32.24 on February 12. Deducting the specie item in full, the remaining deposits are represented by a legal tender reserve of 23.04 per cent, as against 24.07 on the statement of February 26. The banks increased their loan and discount line to a fair amount, while contracting their item of circulation moderately. The U. S. Sub Treasury reported a falling off in the coin and currency bal-

ances of the office, as the result of the week's business. National Bank notes received at the Treasury Department, last week for redemption were to the amount of $3,062,000. The City Banks have had their deposits increased $2,089 000 ; and their legal tender reserve diminished $2,067,900. The specie average has been enlarged $1,995,400. The loan and discount item was increased $1,682,-800. The circulation was diminished $189,500. The U. S. Sub Treasury in this city closed the week with a currency balance of $36,384,494 against $37,-336,123 the preceding week; and a coin hoard of $44,561,737 against $44,729,068 on the previous return. The City bank exchanges in currency reached $458,072,743, or a daily average of $76,-345,457. The customs revenue of the port during the week was $2,487,000. The City banks reported their average of gold last week at $22,701,600. and their greenback average at $46,945,200. Their deposits stood at $226,426,400. The loan item was $270,162,800. The circulation was $16,-832,500.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $13,040,-200.

The aggregate of the outstanding U. S. currency, of all denominations, March 1st was $416,-584,372. The outstanding amount of legal tender notes is $370,943,392. The National bank circulation is now $345,415,456, including $2,099,199 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $7,930,181; special deposit of legal tenders for the redemption of certificates of deposit, $38,820,000 ; Coin, $69,503,788 ; Coin certificates, $35,271,800.

The week's import entries of Foreign Merchandise at New York were $6,639,654, including $2,713,044 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 78 millions; and from Customs, 103 millions.

Gold has been fairly active, opening higher but closing less buoyantly as to price. The speculative inquiry was less confident. The customs call was fair, and the export drain heavier. Included in the week's reported exports of Specie were further shipments of $500,000 in American Gold coin for Havana, representing part of the recent purchases here of two million dollars on account of the Spanish Government. The extremes of the price during the week have been 114⅛@115, closing on Wednesday at 114⅝ as against 114¼, on Wednesday of the preceding week. The specie outflow last week was $1,423,446 against $819,849 the previous week. The imports of specie at this port last week were $11,432, and since January $582,890, as against $2,421,692, same time last year. The customs demand for gold last week averaged $414,500 per day. Foreign Exchange has been less active and quoted toward the close less firm. Bankers sixty day bills on London closed on Wednesday at $4 85¼@$4 85¾; sight bills on London at $4 89@$4 89½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,226,840. The week's imports of Dry Goods and general merchandise were to the specie value of $6,639,-654 as against $10,819,858 the corresponding week of 1875.

The specie exports from San Francisco, January 1st to February 24th, were $3,828,666. The amount of gold coin forwarded from San Francisco, by rail, to New York, in February, (to the 24th) was $519,500, and since January 1st $1,-740,070.

The last public debt statement indicated a further liquidation of $3,272,733 in February, bringing the aggregate indebtedness, less the cash in the Treasury, on March 1, 1876, down to $2,114,-960,307. The reduction in the net aggregate in debtedness, during the eight months ending with March 1, 1876, was $13,738,420, or equal to $1,-716,052 per month.

Government Securities have been more active and generally steadier as to values. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $356,295,750.

U. S sixes of 1881 closed on Wednesday of this week at 123@123¼ ; U. S. Five-Twenties of 1865, 118@118¼; U. S. Five-Twenties of 1865, consolidated, 119¼@119½ ; U. S. Five-Twenties of 1867, 121¼@121½ ; U. S. Five-Twenties of 1868, 123@123½ ; U. S. Ten-Forties at (ex March coupons) 118¾@119¼ ; U. S. Fives of 1881, (Funding Loan) 118⅝@118¾ ; Six per cent. currency Sixes, 126¾@127.

State and Railway bonds have been more sought after on investment account, and generally held more firmly. And in the line of Railway and Miscellaneous share property business has been fairly active, but generally values have been lower and quite irregular, under speculative manipulations.

General business has been moderate for the season in most lines. Domestic produce has been moving to a fair extent, and has been quoted steadier as to values. A freer export movement has been noted, especially in Cotton, toward the close. Petroleum and Naval Stores rule stronger in price. Foreign merchandise has been in fair request, but at somewhat irregular figures. The Metal trade has been slow, in most instances. Copper and Tin, tame. Eglinton Pig Iron quoted here at $29@$29 50 ; Glengarnock $31@$32 ; Coltness $32 50@ $33 ; No. 1 American Pig at $23@— ; No. 2 do. at $20 50@$21 ; Forge, $17@ 20 ; English Rails (in bond) $34@$36 gold ; American Rails at works, $45@$48 ; Old Rails $20 @$21 50. Wrought Scrap, $30@$32. Ocean freights have been more active with room for Grain, Provisions, Cotton, and Petroleum most sought after. Rates have been quoted weaker, but at the close steadier.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Wealth and Resources of Texas.

From the Circular issued by Messrs. Forster, Ludlow & Co., Bankers, 7 Wall Street, for the ninth of March, we extract the following interesting items in connection with the progress of this prosperous state:

Taken as a whole, the new constitution is a very decided improvement on the organic law under which the people of Texas are now living, and as the amendment of it is easy, we feel certain any defects proven by experience will be promptly changed.

From the forthcoming report of the Comptroller of Public Accounts to the next Legislature we take the following important statistics:

Total value of taxable property assessed in the State for 1875	$250,853,798
State tax	1,254,354
Poll tax	198,322
County taxes	1,959,184
Miles of Railroad in the State assessed for taxes, 1875	1,487
Value of Railroads	16,605,122
Value of lands and town lots owned by Railroads upon which taxes are paid	1,443,547
Number of acres of land assessed in the State for 1875	66,637,920
Value of lots assessed in the State for 1785	44,666,937
There are 838,232 horses in the State, valued at	20,792,220
There are 3,184,904 head of cattle in the State, valued at	14,754,045
There are 2,601,071 head of sheep, valued at	3,342,469
Money on hand or at interest	9,287,485
Merchandise	11,942,469
Miscellaneous property	20,243,350
Western Union Telegraph Company	116,095
Texas Pacific Telegraph Company	18,228

We regret that the new constitution is not as liberal to railroads as the well-wishers of Texas could desire. The New Constitution enacts as follows:

"SEC. 2. Railroads heretofore constructed, or that may hereafter be constructed in this State, are hereby declared public highways, and railroad companies common carriers. The Legislature shall pass laws to correct abuses and prevent unjust discrimination and extortion in the rates of freight and passenger tariffs on the different railroads in the State; and shall, from time to time, pass laws establishing reasonable maximum rates of charges for the transportation of passengers and freight on said railroads, and enforce all such laws by adequate penalties.

"SEC. 4. The rolling stock and all other movable property belonging to any railroad company or corporation in this State, shall be considered personal property; and its real and personal property, or any part thereof, shall be liable to execution and sale in the same manner as the property of individuals; and the Legislature shall pass no laws exempting any such property from execution and sale." This has a good deal of the Wisconsin Potter law in it, and it remains to be seen what the effect will be. It is hoped by the friends of the State that this obnoxious law will be repealed as was the Potter Act. The State debt of Texas cannot be increased beyond $5,000,000, and her securities rank among the best investments in the market.

EDWARD MATTHEWS,

No. 71 Broadway.

☞ At the annual election for officers of the Chicago, Burlington and Quincy Railroad Company, held in Boston on the 2d inst., the following named gentlemen were chosen: President, Robert Harris; Vice President, C. E. Perkins; Counsel, J. M. Walker; Chairman of Board, J. N. A. Griswold; Clerk of Board, J. N. Dennison; Treasurer and Secretary, Amos T. Hall; General Superintendent, W. B. Strong; Western Executive Committee, Robert Harris, J. M. Walker and C. E. Perkins; Executive and Finance Committee, J. N. A. Griswold, Sidney Bartlett, J. M. Forbes and Charles J. Paine.

☞ The earnings of the Illinois Central Railroad Company for the year ending December 31, 1875, were $7,802,556 44, the operating expenses $3,989,447 05, and the net earnings $3,813,109 37. Deducting charter tax paid States of Illinois and Iowa ($439,100 23), and rent of leased lines in Iowa ($708,927 22), the net receipts from operation of the road amount to $2,670,081 92.

Brooklyn Elevated Railroad.

The directors of the Brooklyn Elevated Silent Safety Railroad Company announce that they will begin the construction of the road before June 1, as their charter requires. The route will be from Washington and Sands streets; thence through York street to Hudson avenue; Hudson avenue to Park avenue; Park avenue to Grand avenue; Grand avenue to Lexington avenue; Lexington avenue to Ralph avenue; Ralph avenue to Marion street; Marion street to Broadway, and thence to East New York, a distance of six miles, and thence to Woodhaven, a distance of two miles, making eight miles in all. It is said that written proposals have been received by the company to build the road for $240,000 to $275,000 per mile.

Eastern Railroad.

The following is a continuation of the history of the Eastern Railroad Company, a portion of which was given in our last and preceding issues:

The reports of 1866, 1867 and 1868 contain statements of expenditures of such magnitude as make it important that they should be again presented to the stockholders in order to fill out the historical view intended to be submitted in this report. The total income of the road for those years was nearly stationary, being in 1866 $1,422,000; in 1867 $1,447,000; and in 1868 $1,452,000. The expenditures of the road for the year 1866 were $973,044 47, an excess over those of 1865 of $186,737 44; those of 1867 over the same year were $136,109 23; and those of 1868 over the same year were $103,751 21. In these three years, as appears by the reports, a series of "extraordinary expenditures" were initiated and carried through, amounting in the aggregate to $1,646,618 85, composed of the following items, part of which "were properly chargeable" to capital account, viz:

For engines		$249,741 00
Passenger and freight cars		214,643 53
Improvements, etc., at East Boston	$96,890 31	
Improvements, etc., at Salem	78,386 60	
Lands, buildings, etc., at other places	170,244 64	
		345,521 55
Bridge at Newburyport	$333,910 47	
Bridge at Boston	38,146 82	
Bridge at Mystic river	7,468 13	
		379,525 42
Iron		227,408 36
Second track from Salem to Beverly		122,070 53
Rockport Branch Railroad		91,007 28
Snow-ploughs		3,622 43
Connection with Fitchburg road		2,426 81
Loan to South Reading Railroad		10,656 94
		$1,646,618 85

During this period there was nothing unprecedented in the history of the road—flood, collision, fire, or necessary enlargement—everything was running with the usual smoothness, with the ordinary wear, and at the ordinary expenses; indeed, those expenses seem to have been made, charged, and paid quite in the usual manner, and fully up to the usual amounts, as we have seen. The significant fact is, that in such a time it could have been thought politic to undertake unusual expenses to so large an amount. Sixty thousand dollars of the above sum were expended for the purchase of the establishment of the Salem Car Company, comprising car shops, machinery, tools, fixtures, and about two acres of land. During these years also, notwithstanding the constantly accumulating debt, the regular dividends were paid.

In 1871 double tracks were laid from Beverly to Wenham, at a cost of $118,471.

In August, 1871, occurred the notable accident at Revere, the circumstances of which having been at the time fully investigated by a committee of this corporation, and by the public officials of the Commonwealth, were widely disseminated, and are fresh in the public mind. That collision resulted in a loss to the corporation of $510,600 in round numbers. This amount includes personal damages, the destruction of cars and engines, and the cost of all replacements.

In November, 1871, the Company bought of the heirs of John Alley, 3d, a piece of land on the south side of the track, near Market street, in Lynn, for $216,000, valued by the assessors and taxed in 1870 for $4500, and since taxed for $20,000. The heirs and others at the same time gave the Company a piece of land on the opposite side of the track, about 700 feet in length by 50 in width, taxed in 1870 for $12,000 on condition that the Company would establish thereon a station for passengers, to be built by them, at the expense of the Company. The station was constructed at a cost of about $55,000, but in the mean time the passenger station at the old site had been rebuilt at a cost of about $130,000.

In order to avoid the supposed inconvenience of stopping the trains at the two stations now so near together, as it had been contracted to do, the company decided to annul the contract, and at a cost of $155,000 paid for the land and building, including costs of suit. Unfortunately, in 1873, by order of the President, the station building valued at $55,000 was thereupon demolished, and the debris sold for $1500, leaving the company, at a cost of $155,000, simply the ownership of the land, which had been originally given to it. The company expended in Lynn for station purposes about $500,000, sinking thereby over $300,000, and arousing a feeling of discontent and opposition which has culminated in the opening of a competing road to Lynn the success, of which, however, is somewhat problematical.

In 1872 a contract was made with a firm in this city to supply this corporation, at fixed times, with 3000 tons of steel rails; for which we were to pay $105 in gold a ton, about $123 in currency, amounting to $369,000. There were great delays in forwarding the rails and the contract by such delays was repeatedly broken. Advantage was taken by another road of a similar default to cancel and annul its unprofitable contract with this firm. This company, however, neglected to avail itself of the opportunity, and was compelled to pay the contract price, notwithstanding the same article was soon, and has since been, purchasable in the market at very greatly reduced prices, the road thus sustaining a probable loss of about $129,000.

Shortly after the Revere accident, to satisfy the public demand for increased safeguards against the perils incident to travel, and with a view to adopt all precautions that the public good or a wise economy and forcast might suggest, Hall's automatic electric signals were introduced upon our line of the road, at a cost of $80,000. Experience showed them to be only partially successful; effectual often for stopping and delaying trains when no dangers were present, they were not reliable to correctly report the condition of the tracks. This uncertainty was the occasion of much anxiety in the practical operation of the road. They were affected by the condition of the atmosphere, and were particularly unreliable in all damp or stormy weather.

The signals failed to be automatic; and sometimes the signal would be left by a train in such a position that a following train would be liable to run into the one preceding it. These signals have been reconstructed and greatly improved by our Superintendent of Telegraphs. The houses for signal stations and the seventeen original batteries have all been dispensed with as of no value. As now improved, the signals are worked by three powerful batteries, situated at Boston, Chelsea and Salem. Improvements similar to those introduced by us have been made by Mr. Hall, and are used by other roads. We had the misfortune to be the first to test the value of the signals in their original form.

The additional expense of the improvement was about $10,000, and the cost of operating the signals is now about $6000 a year. Notwithstanding they sometimes occasion inconvenience by delaying a train when no cause of detention exists, they are now a great safeguard to the patrons of our road.

In 1873, by requirement of the Legislature of Massachusetts, large expenditures were incurred for widening the draws over Charles river and at Prison Point; $40,000 were expended upon the former and $26,000 upon the latter; $69,000 were expended in the same year for the erection of a new bridge over the Saco river to replace the one destroyed by fire.

From as thorough an examination of the books and reports of the company as it has been possible to make during the three months since the organization of the present board of government, two singular and surprising facts must be noticed respecting the manner in which the debt of the company has been manipulated. Speaking in general terms, as fast as money has been received from capitalizing stock, which has increased from $1,300,000, the original capital accepted, to $4,997,600, it has been applied toward the payment of current expenses, dividends, interest and new extensions of the road.

Dividends have been paid to make this stock capitalization facile and seductive. Small and ineffective amounts have doubtless been applied from time to time toward the liquidation of the debt, but beyond these no real interest bearing debt of the company seems ever to have been paid. Extensions, enlargements, large outlays, and subsisting bonded debts have been met by long notes, or with new issues of bonds; when any of what we may call the floating debt has become due, its payment has been rolled over to the future, the debt being converted into notes having long periods to run, or funded in bonds maturing in still more distant years.

And so without actual payment, the real debt seems to have been aggregated by ever new accretions, till its swelling bulk has at last reached such colossal proportions that it has been only after the greatest exertions, and submission to extortionate rates, that the road has been able to meet its regular accruing interest, amounting now to almost one million dollars annually.

No prudent business house will so conduct its business; no business so conducted can long survive. An unliquidated interest paying debt is a source of delusion, a cancer that silently spreads until the whole system is corrupted by its poisonous influence.

The steady and rapid increase of the debt from the first, simultaneously with the increase

of the capital stock, and the corresponding increase of interest paid, present a peculiar state of facts, the whole morale of which would require a larger opportunity to fully understand or to explain. They may be tabulated as follows:

Year.	Stock Capital.	Debt other than Stock.	Interest.
1836...	$175,478 27	....	....
1837...	350,000 00	....	$20,283 00
1838...	470,575 00	....	25,000 00
1839...	879,436 07	....	17,416 55
1840...	1 364,190 12	....	19,500 00
1841...	1,877,200 00	....	25,000 00
1842...	1,600,000 00	....	25,000 00
1843...	1,800,000 00	$832,971 08	25,000 00
1844...	1,800,000 00	561,098 89	25,000 00
1845...	1,800,000 00	600,795 32	25,000 00
1846...	1,800,000 00	809,765 54	30,248 40
1847...	2,250,000 00	889,129 03	25,000 00
1848...	2,250,000 00	1,127,219 81	48,617 40
1849...	2,350,000 00	990,565 15	25,796 08
1850...	2,658,100 00	1,129,043 14	36,442 56

1861...	2,853,400 00	2,192,230 04	107,139 23
1862...	2,853,400 00	2,195,191 58	102,197 16
1863...	3,000,000 00	2,193,540 82	97,669 64
1864...	3,155,000 00	2,168,382 49	95,608 48
1865...	3,155,000 00	2,413,837 20	112,467 40
1866...	3,578,300 00	2,445,684 13	118,527 80
1867...	3,883,300 00	2,833,699 04	124,563 70
1868...	3,883,300 00	3,416,713 04	133,608 90
1869..	4,037,800 00	3,687,460 01	172,626 90
1870...	4,062,600 00	3,932,650 88	203 786 67
1871...	4,262 600 00	4,762,561 83	255,648 18
1872...	4,262,600 00	8,383,253 99	354,593 93
1873...	4,997,600 00	9,819,992 08	343,219 77
1874...	4,997,600 00	12,572,254 03	682 047 68
1875...	4,997,600 00	14,859,648 98	956,230 47

Until the year 1872 it was the practice to include in the interest account of the year, not only all the interest actually paid during the year, but also all the interest which had accrued to the close of the year, though it would not become payable till in the year following.

The accounts of 1872 and subsequent years included only the interest actually paid within the respective years, while all the interest that had not become payable, though really accrued, was thrown over to increase the amount of each succeeding year to that extent. Had the accrued interest of each year been properly charged, as had been the previous custom, the amounts of ifiterest from 1872 to 1875 would appear in round numbers as follows, instead of as in the above table, viz:

1872	$526,352 35
1873	569,412 23
1874	732,487 52
1875	955,556 58

The interest on the present debt on the road at seven per cent. per annum in a year to about $1,000,000.

The increase of the debt in 1875, namely, $2,287,394 95, arose chiefly from the settlement of claims which had been contracted in previous years, and which are indicated in the statement of the increase of the construction account, published in the appendix, which contains valuable information.

For the full and just understanding of the condition of the Eastern Railroad Company, one other matter relative to the internal management of the road should not pass without mention. It has been the occasion of much animadversion, public and private, and it is important for the road as a corporative body, and for individuals interested, that the facts, as nearly as they may be known, should be fully stated and rightly appreciated.

By a vote of the Board of Directors for the year 1872, a change was introduced into the department of the road under the keeping of the treasurer, and in the same year a change was made in the superintendence of the road. Mr. Charles F. Hatch, in view of his large experience on one of our Western roads, was elected "General Manager." Mr. John Colgate, also from the West, was elected "Auditor of the road. The former Treasurer of the road was retained, with his old title, while his duties were reduced to those virtually of a receiving and paying teller; he having however, full custody of the cash, and control of the stock, bond and note accounts.

All the other accounts of the road were transferred to Mr. Colgate, and the general account books of the road placed entirely under his control. He directed the method in which the accounts should be kept, he audited all the bills, and passed them to the general manager or president for final approval; then, on presentation to the treasurer, the bills thus certified and approved were paid. The number of clerks in the department was increased from three to ten, and finally to fifteen. He instituted a new set of books, and a new style of keeping them.

The whole system of placing and arranging the items of entry was entirely changed from the simple methods of former years, and a much more elaborate and complex method substituted—as a result of which, a fact which ought to be reached plainly, and in its entirety at once, and in one place, must be by this system traced through a complicated maze of relations, and eliminated out from cognate subjects, and related matters, and only perceived and understood after an elaborate research.

All the facts and accounts of the road are, it is presumed, entered in the books, and may be classified and summarized into shapes of easy and quick recognition. In the form employed they subject the road to the charge of obscure and uncertain accounting; for the conclusions drawn from chaotic records cannot be avouched as reliable. Upon the resignation of Mr. Colgate, a little more than a year since, the books were remitted to the custody of the treasurer; and it was determined to abandon this complex method of keeping accounts, and revert to the old simplicity, avoiding, however, by gradual changes, the disturbances which arise from a sudden disruption of method.

It will be obvious that the change itself is a source of embarrassment to any one investigating the accounts. Even with the improvements which have been made a further reformation of the system is imperative. The odium of the condition of the books must be borne by the road until arrangements can be made for their judicious amendment—a work that must be performed cautiously, and under the personal direction, if possible, of one acquainted practically with the elements of which the accounts are composed.

Previous to 1872 it was the practice to have all bills against the road, for any current month, presented forthwith for payment; so that by the middle of the month ensuing they were ready to be cashed, and were paid. It has been the experience of the present administration to have presented for approval and payment bills that have been running for two years and more, one of which aggregated over $50,000.

This non-payment of bills was not, in any proper sense, perhaps, due to the manner of conducting the Treasurer's department, but rather to the general management of the business of the road, and to the diversion of the funds which should have been applied to liquidate the operating expenses of the road to other purposes. What this vicious practice has cost the road can only be conjectured.

Prior, also, to 1872, it had been the practice of the road for many years to engage the services of an expert bookkeeper to examine and audit the accounts of the road, and report to the Board of Directors. No discrepancies or irregularities were ever reported during the term of service of our present Treasurer, and no suggestions were made that improvements in the method of keeping the books were desirable.

This auditor was Mr. J. Francis Kimball, who also for some years audited the books of the Boston and Maine Railroad Company. After Mr. Colgate entered upon his duties, no outside party was employed, and the whole service was performed by him to Dec. 1, 1874.

Mr. J. F. Kimball is engaged in auditing the cash accounts of the Treasurer, embracing all cash receipts and payments since Dec. 1, 1874, and has nearly completed the examination of the accounts to Jan. 1, 1876. Thus far he finds them correct and properly vouched.

From a review of the affairs of the road we gather the following table of actual and estimated losses:

Lawrence Branch	$350,000
Collision at Marblehead Junction..	88,000
Collisions at Wenham	34,000
South Reading Branch	650,000
Defalcation of William S. Tuckerman..	232,780
Removal of passenger station to Boston	500,000
Revere accident.	510,600
Lynn depot and lands	300,000
Newburyport City Railroad.	12,000
Portsmouth, Gt. Falls & Conway R. R..	650,000
do. discount on bonds	100,000
Swampscott Branch..	185,000
Wolfeborough Branch	300,000
Essex Branch.	100,000
Collision at Seabrook.	70,000
Portsmouth Mill Pond.	15 000
Noble's Island...	20,000
Portsmouth and Dover Railroad...	125,000
Excessive cost of steel rails...	129,000
Electric signals..	50,000
Fire at Boston Bridge, 1873	79,000
Fire at East Boston, 1873.	35,000
Mill Pond Lands in Charlestown...	500,000
Sterling loan, discount...	278,000
State Prison Land..	25,000
Land bought of Boston and Maine Railroad	68,000
Direct competition with Boston and Maine Railroad	1,200,000
Maine Central stock..	500,000
Austin street estates..	700,000
Ten year notes, discount..	159,600
Sinking fund loan, discount...	300,000
Total..	$8,245,980

☞ The principal office of the Pittsburg, Cincinnati and St. Louis Railway Company, heretofore located at Steubenville, Ohio, has, by virtue of a resolution of the Board of Directors, been removed to Columbus, in the State of Ohio, on the line of the Railway.

☞ The railroad from Malvern Station, on the St. Louis, Iron Mountain and Southern railway, to Hot Springs, Arkansas, has just been completed.

☞ Mr. A. R. Fiske, General Superintendent of Atkins Bros'. Iron Works, has resigned the office to take position as General Superintendent of the Long Island Railroads, embracing nearly four hundred miles of track. Mr. Fiske has had twenty years' experience as railroad superintendent in Penna., the last four years of which was as General Superintendent of the Northern Central Railway. He is also a practical mechanical engineer, having served an apprenticeship of six years at steam engine and boiler building in one of the largest shops in New England.

LAWRENCEVILLE CEMENT COMPANY.

ROSENDALE HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York. This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

WM. N. BEACH, Pres't, 96 Wall Street, New York.

HUDSON RIVER CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, light, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

The Coal Trade.

The Philadelphia *Ledger* of March 6th says: The very mild weather tends to lessen the demand for domestic uses, and production in all the several anthracite coal regions is nearly or quite at a standstill. Some of the larger carrying and producing companies have made no report of tonnage for the past two weeks. The return of the trade, as we have received it, shows that the quantity sent from all the regions for the week ending on the 26th ultimo is but 47,778 tons, against 148,262 tons for the corresponding week last year, showing a decrease of 100,484 tons. The total amount of anthracite sent for the year is 2,097,209 tons, against 1,852,467 for same period last year, an increase of 244,742 tons. The quantity of bituminous coal sent to market for the week was 47,422 tons, against 46,224 tons for corresponding week last year, an increase of 1198 tons. The whole bituminous tonnage from the beginning of the coal year to the 26th ultimo is 405,290 tons, against 341,025 tons in corresponding time last year, an increase of 64,265 tons. The total tonnage of all kinds of coal for the week is 95 200 tons, being a decrease for the week of 99,286 tons, and the total tonnage for the coal year is 2,502,499 tons, against 2,193,492 tons to same date last year, being a total increase of 309,007 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last week was 74,539 tons, 61,178 tons of which were coal and 13,361 tons coke. The total carried this year is 473,182 tons, of which 382,694 is coal and 90,988 coke. These figures embrace all the coal and coke carried over the road east and west. At Port Richmond for the week ending the 4th instant there were receipts of 400 tons of coal and shipments of 11,500 tons, leaving 102,500 tons on hand. We continue to quote freight charges to New York at 85 cents, Providence at $1 50@$1 55 and to Boston at $1 80@$1 85 per ton. At Perth Amboy for the week ending on the 26th ultimo the receipts of coal were 1082 tons and the shipments 3916 tons, leaving 90,022 tons on hand. The Lehigh Valley Railroad has issued a circular making rates from Mauch Chunk to Perth Amboy $1 85, and $1 75 to Philadelphia, or 30 per cent lower than the October circular of last year. The rates of the Reading Railroad are now $2 10 to this city, but a reduction is expected. The Lehigh Coal Exchange has adopted the same prices for coal at Mauch Chunk as existed last year.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, March 18, 1876.

Lake Erie, Alliance and Wheeling Railroad.

This company was organized in 1874 for the purpose of constructing a Narrow Gauge Railroad to run from Southington, Trumbull Co., Ohio, where it intersects the Painesville and Youngstown Railroad, also a narrow gauge railroad, southwardly through Alliance to Bridgeport, Ohio, opposite Wheeling, W. Va.

The contract for building was let in August, 1875, to Mr. F. W. Kellogg of New York, and work was immediately commenced on the division between Alliance and Southington, a distance of thirty miles, and now twenty-three miles are graded, bridged and tied, all ready for the iron. By connecting with the Painesville and Youngstown Railroad, this company is given an outlet for its freightage to Fairport, the best harbor on Lake Erie. On the line of this thirty miles there are inexhaustible deposits of block coal, and as soon as the road is ready to receive it, it will be taxed to its utmost to carry the products of the mines along its line. The country through which the road runs is rich and populous, so that besides the carrying of coal, it will have a large passenger and local traffic. South of Alliance the line of the road is through the richest part of the great coal fields of Ohio, as indicated on the Geological map of the State, and through a tract of country containing immense deposits of Kidney and Black Band iron ores, limestone, building stone, fire clay and yellow ochre.

It is the desire and intention of the contractor to finish and equip the division from Alliance to Southington, before commencing work on the south division, so that the company may derive the profits of the coal trade of the coming season.

At the last annual election the following gentlemen were elected officers for 1875: Hugh Bleakley, Pres't.; Alfred Wright, Vice Pres't.; Elisha Teeters, Treas'r, H. P. McIntosh, Sec'y.

The West Florida and Mobile Railroad.

This is the name of a new enterprise intended to develop that portion of the State of Florida, and from the Prospectus issued by the promoters we extract the following particulars: The road commences on the east bank of the Apalachicola river, near the junction of the Flint and Chattanooga rivers, and runs nearly due west through the counties of Jackson, Walton, Washington, Holmes, Santa Rosa and Escambia, in West Florida, to the Perdido River, (with a branch line from Milton the county seat of Santa Rosa county to Garcon Point on Pensacola Bay, distant 13 miles,) and thence through the county of Baldwin in Southern Alabama to Tensas, where it connects with the city of Mobile, and all the great net work of roads in the north west and south west having a length of road of 213 miles.

This Company was organized under the General Railroad Law of Florida, on the 24th day of February, 1875, with a capital of $2,100,000, every dollar of which has been subscribed, and taken at par by the Construction Company in building the road.

Together with this the company is endowed by the State of Florida to the extent of 1,536,000 acres, embracing much of its best timbered and agricultural lands, with a grant of 500,000 acres from the U. S. Government of its lands in West Florida; that is to say the company are entitled to 6,000 acres per mile as fast as the road is built. The intrinsic value of the lands acquired by this Company is greater than that of any grant ever made in this country, not excepting the Union Pacific, Texas Pacific and Illinois Central.

This road will be a connecting link with the Atlantic Coast Railroads thereby saving the risk in transporting freights around the dangerous capes of Florida.

The great importance of the enterprise is self-evident, and cannot be disputed. It will control the Far West, Southwest, Mississippi river, and the Texas Pacific, for a market on the Atlantic coast, or for European export. It will be the great cotton carrying Road of the South, as it will be able to underbid all or any other roads in rates of passage and transportation. The through business alone will pay handsomely on its capital stock, while the timber resources of the Company's lands are capable of speedily redeeming every dollar of bonded indebtedness, leaving both road and lands free and clear.

The prospectus further adds that the U. S. Government Commissioners have placed the value of these timber lands (exclusive of the 500,000 acres from the U. S. Government) at $100,000,000. Now, suppose we estimate one half of the lands for agricultural purposes at $15 00 per acre, 750,000 acres would net the company as soon as the road is completed, the handsome sum of $11,250,000. In any event, the amount which is sure to be realized from the sale of the agricultural lands of the W. F. and M. R. R., will not only be sufficient to pay off the entire bonded debt of the company, but will furnish enough to retire the whole capital stock, at par, in the shape of dividends, leaving the company in possession of 786,000 acres, or adding in Government grant 1,286,000 acres of the finest lands in the United States of America.

The officers of the company are: Thomas H. Wagstaff, President, N. Y.; Edward M. Cheney, Vice President, Jacksonville, Fla.; D. W. Hendrickson, Treasurer, N. Y.; Austin Stevens, Secretary, N. Y., and the office of the company is at 61 Broadway, N. Y.

Pennsylvania Railroad Company.

TWENTY-NINTH ANNUAL REPORT.

OFFICE OF THE PENNSYLVANIA RAILROAD CO.,
PHILADELPHIA, March 4, 1876.

To the Shareholders of the Pennsylvania Railroad Company:

Your directors submit the following report of the operations of the company for the year 1875:

ALL LINES EAST OF PITTSBURGH AND ERIE.

The total earnings and expenses of your main line from Pittsburgh to Philadelphia, including branch and leased lines, and from Philadelphia to New York, including the Delaware and Raritan Canal and Belvidere Delaware Railroad and Flemington Branch, and of the Philadelphia and Erie Railroad, were as follows:

GROSS EARNINGS.

General freights		$22,807,660 00
First-class passengers		8,660,646 63
Emigrant passengers		196,973 04
Express matter		652,118 39
Mails		291,672 59
Miscellaneous		787,373 15
Canal earnings (Delaware and Raritan Canal)		1,067,660 58
		$34,464,104 38

WORKING EXPENSES.

Conducting transportation	$7,498,663 92	
Motive power	5,918,644 81	
Maintenance of cars	1,921,260 51	
Maintenance of road	4,743,255 57	
General expenses	476,600 74	
Canal expenses (Delaware and Raritan Canal)	541,035 76	
		21,094,461 31
Net earnings, 1875		$13,369,643 07
Deduct interest charged on equipments used by leased roads and branches:		
Philadelphia and Erie Railroad	$182,797 29	
Belvidere Delaware Railroad	28,179 60	
Branch roads	62,638 81	
		273 615 70
		$13,096,027 37
Deduct rentals paid leased roads:		
Philadelphia and Erie Railroad	$954,616 27	
Belvidere Delaware Railroad	229,043 69	
Branch roads	489,171 19	
		1,672,831 15
Leaving as net earnings from the operations of your lines		$11,423,196 22
Net earnings 1874	$14,374,678 06	
Deduct rentals paid 1874: Philadelphia & Erie Railroad Co., ($1,068,786 27), Belvidere Delaware R. R. Co., ($442,000 11), other branch roads, ($543,928 87)	2,054,715 25	
Net earnings 1874, after deducting rentals	$12,319,962 81	
Add for the purpose of comparison, the following items charged into expenses in 1874, which in 1875 were charged directly to rental account of United Railroads of New Jersey Division: transit duty, ($303,416 54), rentals Connecting Railway and Columbus, Kinkora and S. R. Railroad, ($147,921 20), interest on mortgages and ground rents, ($65,669 81)	517,007 55	
		12,836,970 36
Decrease net earnings in 1875, as compared with 1874		$1,413,774 14

MAIN LINE AND BRANCHES.

The revenues and expenses of your main line between Philadelphia and Pittsburg, with the following branches and lines operated by your company, East Brandywine and Waynesburg Railroad, Pennsylvania and Delaware Railway, Mifflin and Centre County Railroad, Bedford and Bridgeport Railroad, Tyrone and Clearfield Railway, Bald Eagle Valley Railroad, Hollidaysburg Branch and Morrison's Cove Railroad, Newry Railroad, Ebensburg and Cresson Railroad, Indiana Branch, Western Pennsylvania Railroad, Southwest Pennsylvania Railway, Columbia Bridge, York Branch, Hanover and York Railroad, Littlestown Railroad, Frederick and Pennsylvania Line Railroad, Lewisburg, Centre and Spruce Creek Railroad, and Danville, Hazleton and Wilkesbarre Railroad, during the year 1875, were as follows:

EARNINGS.

From general freights		$15,651,741 42
From passengers, first-class		3,646,673 76
From passengers, emigrant		125,631 96
From express matter		350 999 09
From mails		182,753 29
From miscellaneous		535,452 46
		$20,493,251 97

EXPENSES.

For conducting transportation	$4,087,493 85	
For motive power	3,502,130 09	
For maintenance of cars	1,212,835 53	
For maintenance of road	2,603,025 79	
For general expenses	388,568 10	
		11,794,053 36
Leaving net earnings, 1875		$8,699,198 61
Deduct rentals of branch roads	$489,171 19	
And interest on equipment branch roads	62,638 81	
		551,810 00
Net earnings after deducting rentals and interest on equipment		$8,147,388 61
The net earnings main line and branches, after deducting rentals and interest on equipment, as above stated, were		$8,147,388 61
Those of 1874, after deducting rentals, were		9,396,924 28
Showing a decrease, net earnings, 1875		$1,249,535 67
The gross earnings in 1875 were		$20,493,251 97
And in 1874 were		22,642,871 35
Showing a decrease in gross earnings		$2,149,119 38
The gross expenses, including rentals and interest on equipment in 1875 were		$12,345,863 36
Those of 1874, including rentals, were		13,245,447 07
Showing a decrease in gross expenses		$899,583 71

Of the above earnings there were received from 358 miles of main line:

In 1875 ($51,295 93-100 per mile of road)	$18,363,943 90
In 1874 ($56,702 4-100 per mile of road)	20,299,330 88
Showing a decrease from main line	$1,935,386 98

And from the branch lines leased and owned by the Pennsylvania Railroad Company, excepting the Philadelphia and Erie Railroad and United Railroads of New Jersey:

In 1875, 547 miles in length	$2,129,308 07
In 1874, 519 miles in length	2,343,040 47
Showing a decrease from branches	$213,732 40
The gross earnings of branch lines operated by your company in 1875, as already stated, were	$2,129,308 07
The expenses of operating them, including rentals and interest on equipment, were	2,087,124 98
Showing a direct net profit of	$42,183 09
The net earnings of the Pennsylvania Railroad between Philadelphia and Pittsburg, the branches, and lines operated by it, as already stated, were	$8,147,388 61
To which add interest and dividends received from investments, etc., $3,147,236 33, less interest paid on bonds of the company, its floating debt, etc., $3,012,453 75	134,782 58
	$8,282,171 19
From which deduct dividends paid in 1875	$5,509,493 00
Rent of Harrisburg & Lancaster Railroad	134,228 56
State taxes	495,854 37
	6,139,575 93
Surplus net profit	$2,142,595 26
Deduct installment paid to the State of Pennsylvania on account of purchase of the main line of public works, which reduces the amount of the original purchase to $5,007,360 35	460,000 00
Leaving surplus net profit on main line, 1875	$1,682,595 26

The actual cost of operating your main line in 1875, excluding branches, was 55.87 per cent of receipts, and including branch lines 57.55 per cent. In 1874 the cost of operating your main line, excluding branches, was 55.25 per cent, and including branches 58.49 per cent. The increased tonnage carried during the year will show that the actual cost of doing the work was relatively less in 1875 than in 1874.

THE UNITED RAILROADS OF NEW JERSEY.

The earnings of the United Railroads of New Jersey and branches, and of the Philadelphia and Trenton Railroad, in all 293 miles of road, were in 1875:

From general freights	$3,764,990 94
From passengers, first-class	4,370,929 23
From passengers, emigrant	69,946 53
From express	259,316 40
From mails	69,745 79
From miscellaneous	108,965 58
	$8,643,924 47

EXPENSES.

For conducting transportation	$2,539,236 91	
For motive power	1,599,377 08	
For maintenance of cars	444,412 11	
For maintenance of road	1,223,682 94	
For general expenses	88,032 64	
		5,894,741 68
Leaving net earnings, 1875		$2,749,182 79

The actual cost of operating the United Railroads of New Jersey, including branches, deducting transit duty, rent of connecting railway, and interest on property, and excluding Belvidere Division, in 1875, was 68.19 per cent of the receipts.

BELVIDERE DELAWARE RAILROAD.

The earnings of the Belvidere Delaware Railroad, 68 miles, and the Flemington Branch, 12 miles, were in 1875:

From general freights	$692,367 81
From passengers	185,261 59
From express	4 072 21
From mails	6,089 36
From miscellaneous	5,579 15
	$893,370 12

EXPENSES.

For conducting transportation	$200,908 66	
For motive power	157,446 88	
For maintenance of cars	86 041 39	
For maintenance of road	191,749 90	
		636,146 83
		$257,223 29
Deduct interest on equipment		28,179 60
Leaving net earnings, 1875		$229,043 69

The actual cost of operating the Belvidere Delaware Railroad, including Flemington Branch, in 1875, was 71.27 per cent of its receipts.

DELAWARE AND RARITAN CANAL.

The earnings of the Delaware and Raritan Canal in 1875, on 44 miles of canal and 22 of feeder, were:

From tolls	$660,616 25
From steam towing	397,622 04
From miscellaneous	9,422 29
	$1,067,660 58

EXPENSES.

For maintenance of canal	$130,617 79	
For canal operation	87,465 40	
For steam towing	322,952 57	
		541,035 76
Leaving net earnings, 1875		$526,624 82

The actual cost of operating the canal was 50 67-100 per cent of its receipts.

The gross results of the New Jersey lines, embracing the Philadelphia and Trenton Railroad and branches, 38 miles; the Connecting Railway, 8 miles; United Railroads of New Jersey and branches, 255 miles; Belvidere Delaware Railroad, 68 miles, and Flemington branch, 12 miles; and the Delaware and Raritan Canal, 66 miles, including feeder, may therefore be summed up as follows:

Gross earnings	$10,604,955 17	
Gross expenses	7,071,924 27	
Net earnings		$3,533,030 90
Deduct interest charged on equipment used by Belvidere Delaware Railroad		28,179 60
		$3,504,851 30
Add cash received from investments		197,579 82
Total net revenue		$3,702,431 12

Amount paid on account of dividends, interest rentals, including lease of connecting road, taxes and transit duties, expenses of maintaining organizations, etc., as follows:

Dividends to stockholders United Railroads New Jersey	$1,404,300 00
Dividends to stockholders Delaware and Raritan Canal	584,740 00
Dividends to stockholders Philadelphia and Trenton Railroad	49,410 00
Dividends to stockholders branch roads	58,880 00
Interest on bonded debt United Railroads New Jersey	1,293,400 85
Interest on bonded debt branch roads	78,450 00
Interest on mortgages United Railroads and Canal	111,394 27
Rental Connecting railway	143 060 82
Rental Belvidere Delaware Railroad	229,043 69
Rental branch road	4,724 23
Organization expenses, discount on sale of bonds, etc., to pay off bonds of the United Companies that matured February and April, 1875	78,397 78
Transit duties, State of New Jersey	307 217 75
Taxes, State of Pennsylvania	7,077 92
	$4,350,096 81

Loss in operating United Railroads and Canal of New Jersey for 1875, $647,665 69.

This loss is largely due to the great reduction in coal tonnage over the Belvidere Delaware road, the main line and the canal, the anthracite production having been practically suspended for seven months of the year, and also to the extremely low rates at which through freight was carried during the first half of the year. The traffic upon this division is subject to very large terminal expenses, which are a heavy charge upon the income of that portion of the line. With the anthracite regions in full operation it is believed that the New Jersey lines would have taken care of their rentals and interest.

PHILADELPHIA AND ERIE RAILROAD.

The earnings of the Philadelphia and Erie Railroad in 1875 were:

From freights	$2,698,559 83
From passengers	459,176 61
From express	87,700 69
From mails	33,084 15
From miscellaneous	137,375 96
	$3,365,897 24

EXPENSES.

For conducting transportation	$671,024 50	
For motive power	654,690 76	
For maintenance of cars	177,971 48	
For maintenance of road	724,796 94	
		2,228,483 68
		$1,137,413 56
Deduct interest on equipment		182,797 29
Leaving balance to credit of Philadelphia and Erie Railroad		$954,616 27

The actual cost of working the Philadelphia and Erie Railroad in 1875 was 66.21 per cent of receipts.

SUMMARY.

Net earnings Pittsburg to New York, including Philadelphia and Erie Railroad, branch lines, and lines operated by the company, and the Delaware and Raritan Canal		$13,096,027 37
Interest and dividends received from investments owned by the Pennsylvania Railroad Company, as follows:		
Cash receipts	$1,969,275 76	
In securities of other companies amounting to $2,591,400 50, estimated as worth at least	1,177,960 57	
		3,147,236 33
Interest from investments received with the lease of the United Railroads and Canal of New Jersey, cash		197,579 82
Total amount available for rentals, interest and dividends		$16,440,843 52
Out of which have been paid:		
One semi-annual dividend of 4 per cent and two quarterly dividends of 2 per cent each on Pennsylvania R. R. stock	$5,509,493 00	
Taxes paid State of Pennsylvania	495,854 37	
Interest on bonded and floating debt Pennsylvania Railroad Company	3,012,453 75	
Rent Harrisburg and Lancaster R. R.	134,228 56	
Paid State of Pennsylvania on account of purchase of main line	460,000 00	
Rental paid Philadelphia and Erie Railroad	954,616 27	
Rental paid Belvidere Delaware Railroad	229,043 69	
Rental paid branch roads connected with the main line Pennsylvania Railroad	489,171 19	
Dividends, interest and rentals, etc., paid on account of lease of United Railroads and Canal of New Jersey, as before stated	4,121,053 12	
		15,405,913 95
Balance		$1,034,929 57
Amount received in settlement of open accounts that were adjusted during the year		1,251,665 00
Total to credit of profit and loss		$2,286,594 57

From the foregoing statistics the stockholders of the company will perceive that the road has paid from its net earnings during the past year all the rentals, interest, dividends, and other amounts due the lines operated by the company, the expenses of maintaining the various organizations, and the sum of $460,000 to the State of Pennsylvania on account of the purchase and interest thereon of the main line of public works, and has also paid shareholders, clear of State taxes, eight per cent. dividend on the capital stock, leaving a net balance, including the amounts received in settlement of open accounts that were adjusted during the year, of $2,286,594 57 to be carried to the credit of profit and loss. Against this amount have been charged the discount on the two millions sterling mortgage bonds of the company sold May 7, 1874, which were delivered early in 1875, and the five millions of six per cent. currency dollar bonds sold in Philadelphia during the year, the premium on exchange remitted to redeem the second mortgage sterling bonds that matured March 31, 1875, and other items, amounting in the aggregate to $1,230,898 59. The balance $1,056,195 98, has been transferred to profit and loss, so that the sum standing to the credit of that account, as will be seen by the treasurer's statement hereto annexed, at the end of the year was increased to $10,077,889 14.

Your Board of Directors have deemed it best to continue the policy referred to in the last annual report of holding the amounts to the credit of the contingent fund $2,000,000, and profit and loss $10,077,839 14—in all $12,077,839 14—as a margin to cover any depreciation in the value of the securities owned by the company which remain on the books at their cost, and to meet requirements of the company.

In addition to this reserve, the stockholders will remember that during the history of the company it has from time to time reduced its actual cost of construction and equipment so that the general account shows a charge for the main line, including new stations, wharves, shops and shop machinery, of $53,666,966 41, while the cash expenditure for those purposes to December 31, 1875, is $81,862,775, showing an excess of actual property in the possession of the company not represented in its accounts, and which may be considered an additional reserve, of over twenty seven million of dollars. In this no allowance whatever is made for a very large increase in the value of the real estate now in the possession of the company, which, while it cost over six millions of dollars, it is believed has a market value of more than double that amount.

The proceeds of the two million pounds of sterling bonds, sold May 7, 1874, as stated in the last report, were received during 1875 and appropriated to the payment of the $4,835,840 of second mortgage bonds, which matured March 31, 1875, and to the adjustment of construction and equipment expenditures and other obligations of the company incurred prior to 1874.

In order to provide the means necessary to

cover the cost of construction and equipment as estimated in the last report, and also to pay off other liabilities of the company previously incurred, it was deemed advisable to make a sale to Messrs. Drexel & Co., of Philadelphia, of five millions of 6 per cent. currency bonds, secured by the consolidated mortgage. The company has met all these expenditures and liabilities, and is now—for the first time in its history of twenty nine years—without any floating debt, and had on deposit to its credit January 1, 1876, as follows:

In the hands of its treasurer	$3,480,913 21
In the hands of its London agency, the London, Asiatic and American Company, limited	1,166,141 56
In the hands of other parties.....	277,243 81
Making a total of.....	$4,924,298 58

which is applicable to the payment of interest, dividends and expenditures.

The operations of the main line between Philadelphia and Pittsburg show net earnings for the year of	$8,147,388 61
And an earning from investments, representing the actual cash valuation, of.....	3,147,236 33
Making total net earning of..... ...	$11,294,624 94
The interest paid on the entire bonded debt of the company, its floating debt, &c., was.....	3,012,453 75
Showing a net result over interest.	$8,282,171 19

It will be observed that the amount received from the investments of the company exceeded all the interest paid on its bonded and other interest obligations, leaving a surplus of $134,782 58, and that the the average return from these investments on the amount at which they stand charged on the books of the company, being $70,759 012, was over 4 per cent per annum.

MAIN LINE.

During the year 1875 the tonnage moved over the main line of the company and branches between Pittsburg and Philadelphia amounted to 9,787,176 tons; during the year 1874, to 9,118,519 tons, showing an increase of 7 3-10 per cent. or 668,757 tons over 1874. Embraced in this were 4,731,436 tons of bituminous coal, coke and anthracite coal, being an increase in that traffic over the previous year of 522,099 tons.

THE UNITED RAILROADS OF NEW JERSEY.

Show a slight increase in the number of passengers carried, being 7,846,239 as against 7,837,317 in 1874, and 51-000 per cent. increase in the number of tons of freight moved, being 2,469,786 tons, as against 3,467,952 tons in 1874, notwithstanding a large decrease in the shipments of coal over those lines, and especially the Belvidere Delaware road. In 1874 the coal tonnage over the New Jersey lines was 1,521,474 tons, of which 964,255 tons were anthracite and 557,219 bituminous. In 1875 the coal tonnage was 1,302,634 tons, of which 618,859 tons were anthracite and 684,775 bituminous.

BELVIDERE DELAWARE RAILROAD.

The whole number of passengers carried in 1875 was 388,436, and the average distance traveled by each was 16 7-10 miles.

The number of tons of freight moved (including 18,180 tons of fuel and other materials for the company's use) was 1,020,660, embracing 844,275 tons of coal, exclusive of 8,795 tons of coal for company's use.

It was last year 1,473,953 tons, showing a decrease of 453,293 tons, or 30 75-100 per cent.

DELAWARE AND RARITAN CANAL.

The canal carried during the year 1,954,004 gross tons, embracing 1,295,910 of coal, of which 1,022,644 were anthracite and 273,266 bituminous. Last year it carried 2,308,671 tons, showing a decrease of 350,667 tons, or about 15 21-100 per cent. Its coal tonnage in 1874 was 1,548,303 tons, showing a decrease in 1875 of 252,393 tons.

PHILADELPHIA AND ERIE RAILROAD.

The tonnage moved on the Philadelphia and Erie road in 1875 shows an increase of 5 6-10 per cent., being 2,523,486 tons as against 2,389,377 for 1874. The tonnage of 1875 embraced 890,626 tons of coal. There was a decrease in the number of passengers carried of about ten per cent.

Your attention is specially called to the following table showing the average earning from freight and passenger traffic, and the cost of moving it per net ton and per passenger per mile on each of the divisions worked by the Pennsylvania Railroad Company:

	Pennsylvania Railroad & Branches.	United Railroads of New Jersey and Branches.	Belvidere Division.	Philadelphia & Erie Railroad.
Length of road.....	905	293	80	288
Average earnings from each passenger per mile..	2.351	2.737	2.864	3.037
Average cost of transporting each passenger one mile...	1.669	1.778	2.822	2.951
Profit on each passenger per mile...	0.682	0.959	0.042	0.086
Average earnings per ton per mile from transp. of freight..	1.058	2.006	1.468	0.865
Average cost of transporting each ton of freight one mile	0.616	1.604	0.962	0.571
Average profit in transporting each ton of freight one mile	0.442	0.402	0.506	0.294

You will observe that the average earning on the main line and branches, including through tonnage as well as local, was 1.058 cents, or less than eleven mills per ton per mile. The cost per ton per mile was 616 1000 cent, leaving an average net profit for transporting each ton of freight per mile of 442-1000 cent, or nearly 4½ mills.

This remarkably low average rate of earning was brought about by two causes. First, the competition that was waged in the early part of last year between the trunk lines on all through traffic, which under a seriously mistaken policy of endeavoring to control over certain lines an undue proportion of through traffic, practically destroyed its value to the lines that carried it, and failed in the object sought to be attained; and second, it was deemed necessary that your company should do what lay in its power to aid our manufacturing and mining interests by moderate temporary reductions in its rates of freight. This policy your board believed to be wise and judicious, and that without it a large number of important branches of business would undoubtedly have been suspended. The result is the lowest average earning per ton per mile that has perhaps ever been received by any line of like magnitude; to meet this result and earn a reasonable profit, the most rigid economy consistent with thorough maintenance of the road and equipment has been enforced in every department, and a cost of movement attained per ton per mile certainly much below that of any similar road in this country, if not in the world.

It may be noted that the present average gross receipts on local and through traffic do not amount to 50 per cent. of the cost of movement alone upon the old line of public works of the State. It may also be noted that the cost of moving traffic upon the main line of your railway and branches, with their crossings of the Allegheny mountains, is much below the cost of moving similar traffic upon canals.

The company has moved over its main line during the year 7 3-10 per cent. more tonnage than in any previous year of its history for a gross earning of $2,149,119 38 less than in 1874. Its expenses have been reduced $899,583 71, showing a decrease in net earnings of $1,249,535 67, which is attributable to the causes stated, namely, the great depression in the coal and iron interests and the general trade of the country, and to the unnecessary and unwise competition that existed on through traffic during the early part of the year. The relations between the several trunk lines are now satisfactory, and there is no good reason why they should not so continue. It is certainly true that by a proper understanding between the lines they can each secure their legitimate share of traffic and properly protect their respective geographical positions, whereby the public can always have the benefit of regular, steady, minimum charges, and the properties and facilities of the various companies be kept up to that high standard of efficiency which is for the best interest of the people who use them. This policy will at all times have the earnest support of your board.

The contests through which your road has passed, and the thorough economies that have been inaugurated in the management of its business, have demonstrated very clearly its ability to meet all efforts of competitors to divert its proper share of traffic and to make net earnings under perhaps the most unfavorable circumstances quite sufficient to take care of all its obligations, keep the property of the company to the highest standard, pay its shareholders 8 per cent. per annum, clear of all taxes, and add a fair balance to its reserve fund.

While its average freight earnings have been but a fraction over a cent per ton per mile, the average cost of operation of its three competitors has been nearly one cent per ton per mile, thus showing that while we have made a fair profit on our work for 1875, most of it has been secured through economy in operation, and within the cost per ton per mile which any of our competitors have been able to attain. It is believed that under a proper adjustment of the old differences that existed between the trunk lines, many of which have been arranged, a satisfactory average rate on east and west bound through traffic will be secured. And with moderate charges on local traffic, in proportion to the value of the service rendered, the railway property of the country will become more valuable to its owners and to the public. An average improvement of one mill per ton per mile on the business of the past year would give the company an additional profit of $1,479,414 46—equivalent to over 2 per cent. upon its entire capital stock.

The estimate in the annual report for 1874 of the amount that would be required for construction and equipment purposes in 1875 was $3,200,000. The sum actually expended was $3,265,565 57.

During 1876 there will be needed for similar purposes, according to the present estimates, about $3,500,000 to meet the requirements and additions for the New Jersey division and the main line, including the cost of the new passenger station at West Philadelphia; the increased equipment necessitated by the centennial year; the purchase of real estate; the putting down of third and fourth tracks; the securing rights of way and improving the alignment of portions of the road between Columbia and Philadelphia, originally built by the State of Pennsylvania; the necessary expenditures upon your branch and unfinished roads, and the construction of a new and independent freight connection with your properties on the Schuylkill and Delaware rivers, by which a large portion of the coal, oil, lumber, grain and other traffic will reach its destination without passing through and overcrowding the yards at West Philadelphia. Your freight tracks and facilities at West Philadelphia will all be required in a very limited time to meet the increasing business of the central and northern portions of the city, the large business to and from the city of New York, that passing over the main line to and from the West and the business to and from the South.

The total amount expended and required to be expended in providing the passenger station, 100 by 300 feet, and other terminal facilities at the centennial grounds, including the various buildings, railway tracks and improvements connected therewith, as per estimate, is $119,241 51, which it is proposed to deduct from the earnings of the centennial year.

An addition to the passenger car equipment to provide for centennial travel is now being made, embracing one hundred and fifty new passenger cars, at a cost of $450,000. This amount will be charged to construction and equipment account; and these cars will give our various lines additional equipment for their increasing business after 1876.

During the year the new iron railway bridge across the Delaware, at Trenton, was completed and opened, with double track, thus greatly improving the facilities of your lines. The structure is believed to be one of the best in the United States.

The four tracks have been completed from Philadelphia westward to Overbrook, and will this year be extended to Merion Station, thus adding still further to our facilities for the passage and movement of trains. The four tracks have also been completed from Pittsburg east to East Liberty. Twenty six miles in all of third and fourth tracks and siding were laid during the year on the main line, four miles of third track and siding on the New Jersey division, and two miles of siding on the Philadelphia and Erie road. Several important bridges crossing over our line, previously arranged for with the city of Pittsburg, have been constructed and opened to the public, and it is expected that several others will be completed during the present year.

In connection with the city of Philadelphia the company is building new iron bridges over its main line at Fortieth and Forty first streets and at Belmont and Girard avenues. During the year the Fairmount bridge at Bridge street has also been completed. These improvements were greatly needed to provide new and safe avenues to and from the centennial exposition and Fairmount Park.

In the latter part of November the bridge over the Schuylkill river at Market street belonging to the city of Philadelphia, was destroyed by fire, and the connection of your line with its depots on Market street east of the river was thus broken. A temporary bridge for the passage of freight cars was erected in a few days, and your company having been authorized by the councils of the city to construct a new bridge, the work was promptly completed and the highways opened to public use within the time and cost specified in the proposition submitted to councils.

Sixty-eight hundred and ninety-five tons of steel rail have been placed on the main line during the year. This amount was more than sufficient to complete the entire double track of the main line. A portion of it was laid on the Harrisburg and Lancaster road, and at points on the branch lines where a heavy traffic was handled: 3,536 tons of new iron rails were laid, of which 3,514 tons were placed in branch lines. And 4,372 tons of steel rails were placed in the New Jersey lines, all of which has been charged to expenses. Before the close of the year the double track of the New York division will be laid with steel rails, and a similar improvement will be effected on the Amboy and Belvidere Delaware divisions as renewals are required, and be charged to expenses.

Forty-one hundred and seventy three tons of steel rails and 2,099 tons of new iron rails were laid on the Philadelphia and Erie road, and charged to the expenses of that line.

A large amount of work was done at the shops of the company at Altoona during the year for the main line and other roads operated by your company.

Forty three first class locomotives were built, also 761 new stock, box and coal cars, in addition to the maintenance in good condition and the necessary renewals of our large equipment.

In order to meet the requirements of our increasing coal trade arrangements were made through car trusts by which 2 000 eight wheel coal cars of fifteen tons capacity each were placed upon the line during the year at very low prices. Under these arrangements the interest on the cash cost of the cars is paid out of a car service fund, which is made up by an allowance of the same rates per ton that were heretofore allowed to other companies for the use of their cars in transporting a share of our coal traffic over portions of our lines—the residue of this fund, after payment of interest, will be applied so as to extinguish the principal within six years; so that while the company has the use of the equipment in the interim, it will own the entire property at the expiration of that period, without adding to its construction and equipment account. During the year 222 eight wheel coal cars were purchased from the Kittanning Coal Company at a valuation of $475 per car, or $105,450, which amount is now included in our equipment account.

To meet the request of the Postmaster General in connection with the through postal service, eight first class mail cars were built to conform to the plans prepared by the Postoffice Department, and were placed upon the line within eleven days, the very limited time allowed this company to provide the equipment.

The Block system of signals in operation on the New Jersey line is now being extended over the Philadelphia and Pittsburg divisions. It will be applied to the whole line, having been found to add largely to the safety of the movement of trains.

Your board is satisfied that the lines of the company must receive a large additional business in connection with the centennial exposition, which will add materially to your revenues during 1876.

The company's lines have been extended from York, Pa., to Frederick, Md., under a lease of the Frederick and Pennsylvania Line, Hanover and York Railroad, and Littlestown railroads, covering 54 miles of roadway. This line your company works at cost and compensation for the use of its equipment. It runs through a fine country, and has already developed, in the first year of its operation, a very satisfactory traffic for the benefit of your own line and also the Northern Central Railway, with which it connects at York, Pa.

The Columbia and Port Deposit railroad was extended to Safe Harbor, a distance of ten miles. The grading of the remaining portion of the line is about finished, and it is proposed this year to complete the superstructure for the twenty four miles yet required, and open the entire road for traffic.

The Southwest Pennsylvania railway was extended four miles south of Connellsville, and will be completed to Uniontown this year, and further, if the development of the local business will justify it. The coke traffic from that line has assumed large proportions and is of great value, not only to your main line and your roads west of Pittsburg, but to the iron and steel and smelting interests of the country.

Two and a half miles of additional main track and branches were laid upon the Tyrone and Clearfield railway. The coal business of the Clearfield region is growing rapidly, showing an increase of 260,000 tons over 1874.

It is proposed to extend the Pittsburg, Virginia and Charleston railway this year to Brownsville, on the Monongahela river, being twenty three miles of new line; the local interests along the road carrying out their proposition to take traffic certificates and furnish the amount of money required to do the work. The completion of this line will be of great value to the city of Pittsburg and the people of the Monongahela Valley, and will develop a satisfactory and valuable traffic to your main line and the roads controlled west of Pittsburg.

In the report for 1874 reference was made to the reorganization of the Northern Central Railway Company. Your board would now state that the results of the working of that line and its connections for the past year have been favorable, that all the obligations of that company have been promptly met, and a net earning realized sufficient to enable its directors to pay a moderate dividend. A dividend of three per cent. was therefore declared by that company out of its net earnings, payable on the first of April next, leaving a satisfactory balance to the credit of income account. The road and its terminal facilities have been greatly improved during the past year, and it is believed that, with proper care and management, it can be made a valuable property to its owners.

The business of the Baltimore and Potomac railroad is steadily increasing. Through the arrangement made with the Western Maryland for the use of the tunnel at Baltimore a new source of revenue has been opened to it, and by the construction of extensive coal yards in the city of Washington, and the facilities given by the connection of the Northern Central railway with the coal fields of Pennsylvania, additional traffic will be secured. The road has attained a strong position with the public.

The lines owned or otherwise controlled by your company west of Pittsburg are all operated by the Pennsylvania Company, a corporation having its general office at Pittsburg, under the arrangement heretofore explained to the stockholders. Under this arrangement the liabilities of the Pennsylvania Railroad Company west of Pittsburg are all met and provided for out of the earnings and revenues of the lines west of that point; and used by the Pennsylvania Company to meet in proper form such deficiencies as may occur upon any of the other lines under its control; this is now effected in a manner that relieves your company from providing for these responsibilities.

The total earnings of all the lines operated by the Pennsylvania Company, or controlled through that organization in the interest of your company for 1875, were $23,632,761 53
Expenses 15,479,679 65

Leaving net earnings of $8,153,081 88
Deduct rentals, interest, dividends and liabilities of every kind chargeable thereto 7,473,789 95

Net profit in 1875 on lines west of Pittsburg $679,291 93

The entire outlay for construction and equipment on all the lines west of Pittsburg for 1875 was $376,486 48.

All these lines, with their equipment and facilities, are in better condition than at the close of any previous year.

In the rentals of Western lines, as above stated, are included the net earnings from the Columbus, Chicago and Indiana Central railway during the year. It is believed by the Pittsburg, Cincinnati and St. Louis Railway Company that by reason of the failure of the Columbus, Chicago and Indiana Central Railway Company to perform its covenants under the lease of its road to the former company the lease itself has been practically terminated, and notice has been given and proceedings instituted by the Pittsburg, Cincinnati and St. Louis Company in accordance therewith. It is hoped that the litigation relating to this subject will be terminated during the year, and that upon its conclusion the two companies referred to will arrive at some adjustment for the future operation of the lines belonging to the Columbus, Chicago and Indiana Central Company, west of Columbus, on a basis that will be equitable and fair to all interests, and give the owners of the property every possible earning and advantage that can be derived from it in the future. In connection with this subject, and to correct any misapprehension that may exist, it is but proper to state that no indorsement of any bond of the Columbus, Chicago and Indiana Central Railway Company was ever made or authorized to be made by this company.
